Guenther, 2024-11-26 How the classic mirror test served as a portal for scientists to explore questions of self awareness Since the late eighteenth century scientists have placed subjects humans infants animals and robots in front of mirrors in order to look for signs of self recognition Mirrors served as the possible means for answering the question What makes us human In The Mirror and the Mind Katja Guenther traces the history of the mirror self recognition test exploring how researchers from a range of disciplines psychoanalysis psychiatry developmental and animal psychology cybernetics anthropology and neuroscience came to read the peculiar behaviors elicited by mirrors Investigating the ways mirrors could lead to both identification and misidentification Guenther looks at how such experiments ultimately failed to determine human specificity The mirror test was thrust into the limelight when Charles Darwin challenged the idea that language sets humans apart Thereafter the mirror previously a recurrent if marginal scientific tool became dominant in attempts to demarcate humans from other animals But because researchers could not rely on language to determine what their nonspeaking subjects were experiencing they had to come up with significant innovations including notation strategies testing protocols and the linking of scientific theories across disciplines From the robotic tortoises of Grey Walter and the mark test of Beulah Amsterdam and Gordon Gallup to anorexia research and mirror neurons the mirror test offers a window into the emergence of such fields as biology psychology psychiatry animal studies cognitive science and neuroscience The Mirror and the Mind offers an intriguing history of experiments in self awareness and the advancements of the human sciences across more than a century

Methodological Reflections on Women's Contribution and Influence in the History of Philosophy Sigridur Thorgeirsdottir, Ruth Edith Hagengruber, 2020-07-11 This book introduces methodological concepts aimed at including women in the canon of the history of philosophy The history of women philosophers is as long and strong as the history of

philosophy and this holds true not only for the European tradition as the research of women philosophers of the past shows. The phenomenon of ignoring and excluding women in 19th and 20th century views on the history of philosophy was a result of the patriarchal tradition that ostracized women in general. In this book leading feminist philosophers discuss methodologies for including women thinkers in the canon and curricula of philosophy. How does the recovery of women thinkers and their philosophies change our view of the past and how does a different view of the past affect us in the present? Studying a richer and more pluralistic history of philosophy presents us with worlds we have never entered and have never been able to approach. This book will appeal to philosophers and intellectual historians wanting to view the history of philosophy in a new light and who are in favor of an inclusive perspective on that history. *A Critical History of Western Philosophy* Y. Masih, 1999. This is the enlarged edition of a *Critical History of Modern Philosophy*. In this new edition Greek and Medieval Philosophies have been added. The book also includes a critical and comparative account of the major contributions of eight modern thinkers. To this exposition the idealism of Hegel and Bradley has been introduced. Recent discussions concerning Hume, Kant, Hegel and Bradley have also been incorporated. Whilst giving fully an analytic account of topics, the author maintains that philosophy is a holistic enterprise of man as we find it in Spinoza, Kant, Hegel and Bradley. The book has turned out to be a reliable and useful to the students of the subject throughout India. This thoroughly revised and enlarged edition will prove to be all the more serviceable in general. Moral Vision and Tradition Antonio S. Cua, 2018-03-02. This volume offers a comprehensive philosophical study of Confucian ethics, its basic insights and its relevance to contemporary Western moral philosophy. Distinguished writer and philosopher A. S. Cua presents fourteen essays which deal with various problems. True Crime Narratives Ben Harrison, 1997.
