Bender, 2021-07-29 The essays in this volume examine some of the fundamental doctrinal convictions of Martin Luther and the Reformation legacy as well as the maturation and development of these convictions in the theology of Karl Barth The broad evangelical vision that spans its various confessional tributaries is presented in the essays of this volume Together these studies serve as a cumulative argument for the ongoing coherence meaning and consequence of that vision one that at its heart is constructive and ecumenical rather than narrowly polemical Kimlyn J Bender examines a variety of topics such as the relation of Christ and

the Church as understood in the theology of Luther and Barth the centrality of Christ to an understanding of all the solas of the Reformation the place and significance of the Reformers in Barth's own thought and Barth's theology in conversation with distant descendants of the Reformation often neglected including Baptists in America Pietists in Europe and Barth's own complicated relationship with Kierkegaard Bender concludes his discussion by presenting constructive proposals for a Church and university on the way and thus ever reforming
