*Transforming Nursing Education Through Problem-based Learning* Elizabeth Rideout, 2001 With the growing interest in problem based learning among nurse educators worldwide comes the need for a book that will be a comprehensive guide and resource for anyone considering its implementation in nursing education This book is that resource Its strength is its integration of relevant theory research and practical information It is an invaluable resource for nursing faculty contemplating the use of the problem based learning model      Nursing: Decision-Making Skills for Practice Karen Holland, Debbie Roberts, 2013-05-30 Decision making is a key skill for today's nurses Nursing Decision Making Skills for Practice is an essential guide for student nurses that prepares them to make effective decisions on the ward and in the community This new title in the Prepare for Practice series details the fundamental knowledge and skills needed to make good decisions across a variety of nursing areas from involving patients in decision making to using the best evidence in care planning Case studies activities and exercises ensure that theories of decision making are brought into real world nursing situations Evidence based and with links to core NMC competencies throughout this textbook will help undergraduate and qualified nurses to make confident decisions and boost their academic personal and professional development      *Nurse-Led Clinics* Richard Hatchett, 2013-06-17 In recent years there has been a huge growth in nurse led clinics within hospital outpatient departments general practitioner surgeries and health centres The government has endorsed the use of such

clinics as a way for the public to access specialist health care and treatment more quickly and also as an effective way to manage chronic ill health. However, there is a lack of uniform structure in educational preparation for nurses interested in taking up nurse led practice and a dearth of literature offering practical guidance. This text provides a much needed overview of this new arena for nursing and includes case studies from practitioners running nurse led clinics. Topics covered include Setting up a clinic, Public protection issues, Nurse education, Managing medicines, Effectiveness and evaluation. The text allows the reader to explore key practice issues which directly affect the quality of service provided. It will be an invaluable handbook for nurses directly involved in running clinics for those responsible for the provision of nurse led services and for nurse educators.

*Contexts of Nursing* John Daly, 2009. *Contexts of Nursing 3e* builds on the strengths of previous editions and continues to provide nursing students with comprehensive coverage of core ideas and perspectives underpinning the practice of nursing. The new edition has been thoroughly revised and updated. New material on Cultural Awareness and Contemporary Approaches in Nursing has been introduced to reflect the realities of practice. Nursing themes are discussed and are supported by illustrated examples and evidence. Each chapter focuses on an area of study within the undergraduate nursing program and the new edition continues its dis

*Learning and Teaching in Social Work Practice* Audrey Beverley, Aidan Worsley, 2007-10-26. With the increasing importance of learning on practice placement, this new book provides students, practitioners and their assessors with a practical understanding of how people learn best in the workplace, the principles involved in work based teaching and assessing and the contribution of other disciplines to work based learning.

**Bailliere's Study Skills for Nurses and Midwives** Sian Maslin-Prothero, 2010-01-21. Whether you are a first time student or returning to study, it can seem very daunting. This book can help you get the most from studying and shows how to make good use of your time and achieve success. This 4th edition has been thoroughly revised and updated.
