

## CHAMPION CLASSIQUES

Texte de poétique classique majeur, plus dense et plus précis que l'*Art poétique* (1674) de Boileau, les *Réflexions sur la poétique et sur les ouvrages des poètes anciens et modernes* ont remarquablement contribué à la récente redécouverte critique du classicisme. C'est leur édition définitive (1684), pour la première fois publiée selon les principes de l'édition critique moderne, qui est présentée ici. On y découvre la synthèse aboutie d'un savant formé dans l'humanisme étudiat de la grande tradition littéraire européenne, tourné vers le modernisme et conscient de la mutation des savoirs et des sociétés dans la période de crise des années 1670-1680, convaincu de l'urgence de penser la littérature de manière à répondre aux défis contemporains. Elle frappe par sa cohérence critique et sa nouveauté : élégacement des notions aristotéliennes de mimésis et de fablia, révision du caractère inspiré de la création, élaboration d'une psychologie du génie, revalorisation de l'imagination, nouvelle prise en compte des séductions de la parole poétique et de ses effets émotionnels, libération du plaisir littéraire en-dehors de l'emprise théologique et morale des augustinianes... Le classicisme présente de moins en moins de liens avec l'idée romantique d'une doctrine immédiatement intérieure, tandis qu'est mis en relief le dynamisme évolutif de ses capacités de création.

La série *Littératures* publie des œuvres de toutes littératures et de tous siècles, connues ou peu connues, qui ont marqué l'histoire littéraire, la culture ou l'évolution des idées. Ces œuvres sont éditées dans la tradition des éditions Champion : le texte publié est celui faisant autorité au regard des spécialistes qui ont procédé à son complet nécessaire en s'appuyant sur les dernières avancées de la recherche. Littératures propose ainsi une édition sûre, des textes partiels inédits et toujours accompagnés du meilleur environnement critique et explicatif (bibliographie, index, dossier complémentaires, etc.).

The Theory of the Sublime from Longinus to Kant Robert Doran,2015-07-16 In this book Robert Doran offers the first in depth treatment of the major theories of the sublime from the ancient Greek treatise On the Sublime attributed to Longinus and its reception in early modern literary theory to the philosophical accounts of Burke and Kant Doran explains how and why the sublime became a key concept of modern thought and shows how the various theories of sublimity are united by a common structure the paradoxical experience of being at once overwhelmed and exalted and a common concern the preservation of a notion of transcendence in the face of the secularization of modern culture Combining intellectual history with literary theory and philosophical analysis his book provides a new searching and multilayered account of a concept that continues to stimulate thought about our responses to art nature and human events      **Dictionnaire des ouvrages anonymes et pseudonymes, composés, traduits ou publiés en français et en latin, avec les noms des auteurs, traducteurs et éditeurs**

**Neighbouring Forms from Corneille to Calzabigi** Blair Hoxby, 2024-03-01 Since the nineteenth century some of the most influential historians have portrayed opera and tragedy as wholly distinct cultural phenomena These historians have denied a meaningful connection between the tragedy of the ancients and the efforts of early modern composers to arrive at styles that were intensely dramatic Drawing on a series of case studies Opera Tragedy and Neighbouring Forms from Corneille to Calzabigi traces the productive if at times rivalrous relationship between opera and tragedy from the institution of French regular tragedy under Richelieu in the 1630s to the reform of opera championed by Calzabigi and Gluck in the late eighteenth century Blair Hoxby and his fellow contributors shed light on neighbouring forms of theatre including pastoral drama trag die en machines trag die en musique and Goldoni's dramma giocoso Their analysis includes famous masterpieces by Corneille Voltaire Metastasio Goldoni Calzabigi Handel and Gluck as well as lesser known artists such as Luisa Bergalli the first female librettist to write for the public theatre in Italy Opera Tragedy and Neighbouring Forms from Corneille to Calzabigi delves into a series of quarrels and debates in order to illuminate the history of seventeenth and eighteenth century theatre

**Genealogy of the Tragic** Joshua Billings, 2017-03-14 Why did Greek tragedy and the tragic come to be seen as essential to conceptions of modernity And how has this belief affected modern understandings of Greek drama In Genealogy of the Tragic Joshua Billings answers these and related questions by tracing the emergence of the modern theory of the tragic which was first developed around 1800 by thinkers associated with German Idealism The book argues that the idea of the tragic arose in response to a new consciousness of history in the late eighteenth century which spurred theorists to see Greek tragedy as both a unique historically remote form and a timeless literary genre full of meaning for the present The book offers a new interpretation of the theories of Schiller Schelling Hegel Hölderlin and others as mediations between these historicizing and universalizing impulses and shows the roots of their approaches in earlier discussions of Greek tragedy in Germany France and England By examining eighteenth century readings of tragedy and the interactions between idealist thinkers in detail Genealogy of the Tragic offers the most comprehensive historical account of the tragic to date as well as the fullest explanation of why and how the idea was used to make sense of modernity The book argues that idealist theories remain fundamental to contemporary interpretations of Greek tragedy and calls for a renewed engagement with philosophical questions in criticism of tragedy

**François Blondel** Anthony Gerbino,2012-12-06 First director of the Acad mie royale d architecture Fran ois Blondel established a lasting model for architectural education that helped transform a still largely medieval profession into the one we recognize today Most well known for his 1676 urban plan of Paris Blondel is also celebrated as a mathematician scientist and scholar Few figures are more representative of the close affinity between architecture and the new science of the seventeenth century The first full length study in English to appear on this polymath this book adds to the scholarship on early modern architectural history and particularly on French classicism under Louis XIV and his minister Jean Baptiste Colbert It studies early modern science and technology Baroque court culture and the development of the discipline of architecture

Pope, Homer, and Manliness Carolyn D. Williams,2014-06-11 The author here reassesses the concept of masculinity and argues that it cannot be seen as an absolute standard but only as the product of perpetual conflict between competing and unstable models The argument is sustained by a close reading of the problematic conflict between gendered values in eighteenth century classical learning Pope s Homer ensured the continuation of the tradition of using the Iliad and Odyssey to teach privileged boys how to become more manly This book examines this pedagogy in its socio literary context and concludes that Pope s Homer emerges as a relic of the struggle to preserve masculine dignity from the encroachments of feminine values in the text This knowledge of classical and early modern literature has rarely been brought to bear on gender studies First published in 1993 it remains a valuable

contribution to debates concerning the reception of the Classical tradition
