Datnow, Lea Hubbard, Hugh Mehan, 2002-03-14 In an effort to improve student achievement thousands of US schools have adopted school reform models devised externally by universities and other organizations Such models have been successful in improving individual schools or groups of schools but what happens when educational reform attempts to extend from one school to many Through qualitative data from several studies this book explores what happens when school reform goes to scale Topics covered include why and how schools are adopting reforms the influence of the local context and wider constraints on the implementation of reform teachers and principals as change agents in schools the evolution of reform design teams the implementation sustainability and expiration of reform and its impact on educational change Each chapter concludes with guidelines for policy and practice This book will be of interest to educational leaders and staff developers educational researchers and policy makers in the US and internationally **Research in Education**, 1974 **The Fiscal, Legal, and Political Aspects of State Reform of Elementary and Secondary Education** Van D. The Reauthorization of the Elementary and Secondary Education Act** Department of Education (ED), Office of Planning, Evaluation and Policy Development, 2010 On Saturday March 13 the Obama administration released its blueprint for revising the Elementary and Secondary Education Act ESEA which would ask states to adopt college and career ready standards and reward schools for

producing dramatic gains in student achievement The proposal challenges the nation to embrace educational standards that would put America on a path to global leadership The blueprint provides incentives for states to adopt academic standards that prepare students to succeed in college and the workplace and create accountability systems that measure student growth toward meeting the goal that all children graduate and succeed in college This blueprint builds on the significant reforms already made in response to the American Recovery and Reinvestment Act of 2009 around four areas 1 Improving teacher and principal effectiveness to ensure that every classroom has a great teacher and every school has a great leader 2 Providing information to families to help them evaluate and improve their children s schools and to educators to help them improve their students learning 3 Implementing college and career ready standards and developing improved assessments aligned with those standards and 4 Improving student learning and achievement in America s lowest performing schools by providing intensive support and effective interventions Incorporating and extending this framework this blueprint for a re envisioned federal role builds on these key priorities 1 College and Career Ready Students 2 Great Teachers and Leaders in Every School 3 Equity and Opportunity for All Students 4 Raise the Bar and Reward Excellence and 5 Promote Innovation and Continuous Improvement

In 1989 Chicago began an experiment with radical decentralization of power and authority Intertwining extensive narratives and rigorous quantitative analyses this book tells the story of what happened to Chicagos elementary schools in the first four years of this reform In 1989 Chicago began an experiment with radical decentralization of power and authority This book tells the story of what happened to Chicagos elementary schools in the first four years of this reform Implicit in this reform is the theory that expanded local democratic participation would stimulate organizational change within schools which in turn would foster improved teaching and learning Using this theory as a framework the authors marshal massive quantitative and qualitative data to examine how the reform actually unfolded at the school level With longitudinal case study data on 22 schools survey responses from principals and teachers in 269 schools and supplementary system wide administrative data the authors identify four types of school politics strong democracy consolidated principal power maintenance and adversarial In addition they classify school change efforts as either systemic or unfocused Bringing these strands together the authors determine that in about a third of the schools expanded local democratic participation served as a strong lever for introducing systemic change focused on improved instruction Finally case studies of six actively restructuring schools illustrate how under decentralization the principals role is recast social support for change can grow and ideas and information from external sources are brought to bear on school change initiatives Few studies intertwine so completely extensive narratives and rigorous quantitative analyses The result is a complex picture of the Chicago reform that joins the politics of local control to school change This volume is intended for scholars in the fields of urban education public policy sociology of education anthropology of

education and politics of education Comprehensive and descriptive it is an engaging text for graduate students and upper level undergraduates Local state and federal policymakers who are concerned with urban education will find new and insightful material The book should be on reading lists and in professional development seminars for school principals who want to garner community support for change and for school community leaders who want more responsive local institutions Finally educators administrators and activists in Chicago will appreciate this detailed analysis of the early years of reform
