The Politics of Protection Rackets in Post-New Order Indonesia Ian Douglas Wilson, 2015-03-24 Gangs and militias have been a persistent feature of social and

political life in Indonesia During the authoritarian New Order regime they constituted part of a vast network of sub contracted coercion and social control on behalf of the state Indonesia s subsequent democratisation has seen gangs adapt to and take advantage of the changed political context New types of populist street based organisations have emerged that combine predatory rent seeking with claims of representing marginalised social and economic groups Based on extensive fieldwork in Jakarta this book provides a comprehensive analysis of the changing relationship between gangs militias and political power and authority in post New Order Indonesia It argues that gangs and militias have manufactured various types of legitimacy in consolidating localised territorial monopolies and protection economies As mediators between the informal politics of the street and the world of formal politics they have become often influential brokers in Indonesia s decentralised electoral democracy More than mere criminal extortion it is argued that the protection racket as a social relation of coercion and domination remains a salient feature of Indonesia s post authoritarian political landscape This ground breaking study will be of interest to students and scholars of Indonesian and Southeast Asian politics political violence gangs and urban politics

The Politics of Military Reform in Post-Suharto Indonesia Marcus Mietzner,2006 This study discusses the process of military reform in Indonesia after the fall of Suharto s

New Order regime in 1998 The extent of Indonesia's progress in this area has been the subject of heated debate both in Indonesia and in Western capitals Human rights organizations and critical academics on the one hand have argued that the reforms implemented so far have been largely superficial and that Indonesia's armed forces remain a highly problematic institution Foreign proponents of military assistance to Indonesia on the other hand have asserted that the military has undergone radical change as evidenced by its complete extraction from political institutions This study evaluates the state of military reform eight years after the end of authoritarian rule pointing to both significant achievements and serious shortcomings Although the armed forces in the new democratic polity no longer function as the backbone of a powerful centralist regime and have lost many of their previous privileges the military has been able to protect its core institutional interests by successfully fending off demands to reform the territorial command structure As the military's primary source of political influence and off budget revenue the persistence of the territorial system has ensured that the Indonesian armed forces have not been fully subordinated to democratic civilian control This ambiguous transition outcome so far poses difficult challenges to domestic and foreign policymakers who have to find ways of effectively engaging with the military to drive the reform process forward This is the twenty third publication in Policy Studies a peer reviewed East West Center Washington series that presents scholarly analysis of key contemporary domestic and international political economic and strategic issues affecting Asia in a policy relevant manner

Democracy and Islam in Indonesia Mirjam Künkler, Alfred Stepan, 2013-08-27 Indonesia's military government collapsed in 1998 igniting fears that economic religious and political conflicts would complicate any democratic transition Yet in every year since 2006 the world's most populous Muslim country has received high marks from international democracy ranking organizations In this volume political scientists religious scholars legal theorists and anthropologists examine the theory and practice of Indonesia's democratic transition and its ability to serve as a model for other Muslim countries They compare the Indonesian example with similar scenarios in Chile Spain India and Tunisia as well as with the failed transitions of Yugoslavia Egypt and Iran Essays explore the relationship between religion and politics and the ways in which Muslims became supportive of democracy even before change occurred and they describe how innovative policies prevented dissident military groups violent religious activists and secessionists from disrupting Indonesia's democratic evolution The collection concludes with a discussion of Indonesia's emerging legal pluralism and of which of its forms are rights eroding and rights protecting

Political Islam and Violence in Indonesia Zachary Abuza, 2006-09-25 Political Islam and Violence in Indonesia presents a penetrating new investigation of religious radicalism in the largest Muslim country in the world Indonesia is a country long known for its diversity and tolerant brand of Islam However since the fall of Suharto a more intolerant form of Islam has been growing one whose adherents have carried out terrorist attacks waged sectarian war and voiced strident anti Western rhetoric Zachary Abuza s unique analysis of radical Islam draws upon primary documents such as Jemaah Islamiyah s operations manual interviews and recorded testimonies of politicians religious figures and known militants as well as personal interviews with numerous security and intelligence experts in Indonesia and elsewhere to paint a picture at once guardedly optimistic about the future of Indonesian democracy and concerned about the increasing role of conservative and radical Islam in Indonesian society This book will be of great interest to students of Indonesian politics Asian studies political violence and security studies in general

Globalizing in Hard Times Leonardo Martinez-Diaz, 2011-03-15 In Globalizing in Hard Times Leonardo Martinez Diaz examines the sudden and substantial increase in cross border ownership of commercial banks in countries where bank ownership had long been restricted by local rules Many parties the World Bank and the IMF the world s largest commercial banks their home governments and their negotiators had been pushing for a relaxation of ownership rules since the early 1980s and into the 1990s when bank profitability levels in advanced industrial societies went flat In their hunt for higher returns on assets the major banks looked to expand business overseas but through the mid 1990s their efforts to impose more liberal ownership regimes in nationalist countries proved largely unsuccessful Martinez Diaz illustrates the ongoing political resistance to liberalized ownership rules in Mexico Indonesia Brazil and South Korea He then demonstrates the importance of a series of events the Mexican crisis and the Brazilian banking shock in 1994 1995 and the Asian crisis of 1997 1998 among them in finally knocking down barriers to foreign ownership of banks After these upheavals policymakers who were worried about their political survival and who were sometimes pressed by the IMF and foreign governments reshaped the regulatory environment in key emerging markets Self proclaimed global banks eagerly grasped the opportunity to expand their operations worldwide but after the initial shock domestic politics reasserted themselves often diluting the new liberal rules

The Indonesian Way Jürgen Rüland, 2017-12-12 On December 31 2015 the ten member Association of Southeast Asian Nations ASEAN ushered in a new era with the founding of the ASEAN Community AC The culmination of 12 years of intensive preparation the AC was both a

historic initiative and an unprecedented step toward the area's regional integration. Political commentators and media outlets however greeted its establishment with little fanfare. Implicitly and explicitly they suggested that the AC was only the beginning. Southeast Asia they seemed to say was taking its first steps on a linear process of unification that would converge on the model of the European Union. In *The Indonesian Way* Jürgen R. Rüland challenges this previously unquestioned diffusion of European norms. Focusing on the reception of ASEAN in Indonesia, Rüland traces how foreign policy stakeholders in government, civil society, the legislature, academe, the press, and the business sector have responded to calls for ASEAN's Europeanization, ultimately fusing them with their own distinctly Indonesian form of regionalism. His analysis reframes the nature of ASEAN as well as the discipline of international relations, more broadly writing a narrative of regional integration and norm diffusion that breaks free of Eurocentric thought.

The Politics of Securitization in Democratic Indonesia Yandry Kurniawan, 2017-08-21. The book presents a novel analytical perspective on Indonesia's security policies during its transition to democracy. Kurniawan's analysis revolves around extraordinary measures and normal politics in response to the existential threat to the Indonesian state. This perspective is at the centre of the analysis, which examines the process of securitization and desecuritization taken by the Indonesian government. This volume is essential reading for practitioners, students of Indonesian politics, and researchers alike.

The Politics of Military Reform Jürgen Rüland, Maria-Gabriela Manea, Hans Born, 2012-09-03. This volume seeks to explain why democratization and military reforms stagnate in newly democratizing countries. The contributions blend historical, ideational, cultural, and structural explanatory factors to analyze the trajectories of military reform in Indonesia and Nigeria, two major regional powers that share many structural commonalities. In the tradition of the literature on security sector reform (SSR), the book not only scrutinizes executive initiatives toward military reform but also provides ample coverage of societal actors. Findings show that while military reform is stagnating in both countries, societal forces ought to be taken into account more as major driving forces in explaining military reform. Several chapters study how legislatures, non-governmental organizations, and the civilian defence epistemic community contribute to the transformation of military institutions. The last part of the book tackles another aspect rarely studied in the literature on military reform: namely, the role of militias in military reform.
