Reforming China's Public Finances Papers Presented At A Symposium Held In Shanghai China October 1993:

Reforming China's Public Finances Mr. Ehtisham Ahmad, Mr. Vito Tanzi, Qiang Gao, 1995-09-08 The reform of fiscal relations between different levels of government is crucial to the success of China's current structural transformation to a socialist market economy. The reform will profoundly affect macroeconomic stability, growth prospects, and the effectiveness of providing public services and interregional equity. In order to review international experience and to clearly identify the policy options for China in the short to medium term, a conference was held in Shanghai in October 1993. The papers in this volume, edited by Ehtisham Ahmad, Qiang Gao, and Vito Tanzi, include those presented at the conference and a few that supplement it.

China's Public Finance Shuanglin Lin, 2022-09-22 A comprehensive up-to-date insightful and innovative masterpiece on the Chinese public finance has finally emerged to fill the gap in the field. Considering China's public finance in its entirety from tax systems, government spending, infrastructure financing, fiscal policies, local government debt, and central-local fiscal relationships to urban and rural social security and healthcare, it analyses China's public finance reforms and examines the reasons and the consequences of these reforms. It explores the challenges to China's public finance, examines its problems, and suggests potential solutions. While covering a broad range of themes, this book remains judicious with the evidence, providing its readers with innovative yet careful conclusions. Using an enormous amount of the latest data and illustrative diagrams, the author explains China's public finance with expertise and clarity. This is an indispensable resource for students and scholars from a range of disciplines with an interest in the Chinese economy.

China's Local Public Finance in Transition Joyce Y. Man, Yu-hung Hong, 2011 China's economy has developed rapidly since the economic reforms in 1978, but public finance reforms have proceeded more slowly. This book looks at three major policy options addressing the underlying imbalance between revenues and expenditures at the local level in China. This is a valuable resource for anyone interested in local fiscal issues in China.

China's 40 Years of Fiscal and Tax Reform Peiyong Gao, 2018 The present paper describes the trajectory of China's fiscal and tax reform in the past 40 years, which can be summarized in five phases. The reform commenced with decentralizing power and transferring benefits. Then, under great fiscal pressure, institutional reform was instigated, which aimed to establish a new fiscal and tax system. To regulate the government revenue and expenditure beyond the fiscal and tax system reforms, were put in place to build an institutional framework for public finance. As the fiscal and tax reform had gradually entered the more sophisticated phases, China took a

series of measures to further improve the public finance system Since 2012 based on the overall plan of comprehensively deepening reform China has embarked on establishing a modern public finance system The present paper characterizes China's fiscal and tax reform as gradually moving toward a system that aligns with the overall reform and complements the goal of marketization and modernization of state governance

China's Fiscal System Richard M. Bird, 2008 We argue in this paper that unless China begins to tackle more systematically the serious problems that have emerged in the finances of its various levels of sub national government the problems to which the present unsatisfactory system give rise will over time increasingly distort resource allocation increase distributional tensions and slow down the impressive recent growth of the Chinese economy The evidence available is generally consistent with this pessimistic reading China's fiscal future thus rests to some extent on reforms to key aspects of its fiscal system especially its intergovernmental finances Given the scale and scope of China's underlying public finance problems the reactive gradualism evidenced in recent ad hoc reforms to this or that piece of the fiscal system has we suggest run its course
