Reforming Health Care:

Health Care Will Not Reform Itself George C. Halvorson, 2009-05-27 Health care reform is within our reach According to George Halvorson CEO of the nation's largest private health care plan only by improving the intent quality and reach of services will we achieve a health system that is economically feasible into the future nb **Reforming Health Care** [eljko Bogeti?, 1993 *The Challenge to Change* Rebecca Kolins Givan, 2016-08-19 There is constant pressure on hospitals to improve health care delivery and increase cost effectiveness New initiatives are the order of the day in the dramatically different health care systems of the United States and Great Britain Often as we know all too well these efforts are not successful In *The Challenge to Change* Rebecca Kolins Givan analyzes the successes and failures of efforts to improve hospitals and explains what factors make it likely that the implementation of reforms will be rewarded by positive transformation in a particular institution's day to day operation Givan's in depth qualitative case studies of both top down initiatives and changes first suggested by staff on the front lines of care point clearly to the importance of all hospital workers in effecting change and even influencing national policy Givan illuminates the critical role of workers managers and unions in enabling or constraining changes in policies and procedures and ensuring their implementation Givan spotlights an Anglo American model of hospital care and work organization even while these countries retain their differences in access and payment Entrenched professional roles hierarchical workplace organization and the sometimes detached view of policymakers all shape the prospects for change in hospitals Givan provides important examples of how the dedication and imagination of the people who work in hospitals can make all the difference when it comes to providing quality health care even in a challenging economic environment Reforming Health Care United States. Congress. Senate. Committee on Appropriations. Subcommittee on Departments of Labor, Health and Human Services, Education, and Related Agencies, 1996

Reforming Health Care David Seedhouse, 1995-08-03 This superlative text applies philosophical analysis to the daily problems of health service policy and practice Provides readers with an understanding of the practical detail and the theoretical fundamentals of health reform **Reforming Healthcare** Ian Greener, Barbara E. Harrington, David J. Hunter, Russell Mannion, Martin Powell, 2015-07-01 NHS reform continues to be a topical yet contentious issue in the UK *Reforming healthcare* What's the evidence is the first major critical overview of the research published on healthcare reform in England from 1990 onwards by a team of leading UK health policy academics It explores work considering the Conservative internal market of the 1990s and New Labour's healthcare reorganizations including its attempts at performance management and the reintroduction of market based reform from 2004 to 2010 It then considers the implications of this research for current debates about healthcare reorganization in England and internationally As the most up to date summary of what research says works in English healthcare reform this essential review is aimed at anyone interested in the wide ranging debates about health reorganization but especially students and academics interested in social

policy public management and health policy Reforming Healthcare Lindsay Pratt, 2003-12-23 **Reforming America's Health Care System** Scott W. Atlas, 2013-09-01 Health policy experts from the United States Canada and Western Europe discuss both what to expect from the recent health reform legislation and alternatives that should still be considered The contributors argue that Americans already have a superior health care system and that if Congress enacts reforms that remove artificial barriers and constructively open markets to competition private sector creativity will generate innovative low cost insurance products for tens of millions of consumers *Reforming Health Care in the United States, Germany, and South Africa* Susan Giaimo, 2016-04-29 As countries confront new health care challenges in the 21st century their health care systems reflect the problems and political settlements of an earlier age Meeting these new challenges requires reform of existing health care system arrangements while reconciling the goals of equitable access to quality care at an affordable price This book compares health care reforms in industrialized nations and the Global South to uncover the similarities and differences in their problems and solutions It examines the struggle over the Affordable Care Act and its alternatives in the United States major health care reforms in Germany in the new century and South Africa s efforts to combat AIDS and construct a comprehensive health care system for all These particular reforms reflect the underlying configuration of politics in each country *Reforming America's Health Care System: The Flawed Vision of ObamaCare* , **Reforming the Health Care Market** David F. Drake, 1994 Examining the health care market in a historical framework Drake analyzes the forces and events that have shaped American health care in the twentieth century and sheds new light on why and how our health care system has dampened competitive market forces and failed to provide sound value for much of our health care expenditures He examines the roles that physicians hospitals insurance companies businesses individual consumers and government legislation have played in creating a provider dominated market in which the cost of care has been concealed from consumers Comparing U S health care expenditures with those of other developed countries he concludes that a significant part of our health care problem is the style of medicine practiced in the United States which is much more specialized and high tech than in other developed nations Drake develops proposals for health care financing reform that consider the political and economic difficulties involved He first examines the Clinton health care reform plan and makes specific recommendations for revisions that would improve its likelihood of controlling costs He then offers an alternative proposal that would both maintain the principle of universal noncancelable coverage and eliminate the flaws in the market for health care services by giving consumers a financial stake in cost containment This timely argument combining economic and historical analysis with thoughtful consideration of the motivating humanitarian and political concerns will be of interest to everyone seeking to understand and to reform our ailing health care system **Health Reform in the 21st Century** United States. Congress. House. Committee on Ways and Means, 2009 **Health Care Reform** Bernadette Fernandez, 2010-08 Health care reform is a major issue in the 111th Congress driven by growing concern about millions of

people without insur coverage continual increases in cost and spending and quality shortcomings More than 45 million people have no insur which can limit their access to care and ability to pay for the care they receive The U S spends more than 17% of gross domestic product on health care services and products But the country scores only average or somewhat worse on many indicators of health care quality Contents of this report 1 Intro 2 Three Predominant Concerns Coverage Cost and Spending Quality 3 Legis Issues Scope of Reform Public or Private Insur Employ Based Insur Role of States 4 Cost of Reform Illus

The Truth about Health Care David Mechanic, 2006 The United States spends greatly more per person on health care than any other country but the evidence shows that care is often poor and inappropriate Despite expenditures of 1 7 trillion dollars in 2003 and growing substantially each year services remain fragmented and poorly coordinated and more than 46 million people are uninsured Why can t America with its vast array of resources sophisticated technologies superior medical research and educational institutions and talented health care professionals produce higher quality care and better outcomes In The Truth about Health Care David Mechanic explains how health care in America has evolved in ways that favor a myriad of economic professional and political interests over those of patients While money has always had a place in medical care big money and the quest for profits has become dominant making meaningful reforms difficult to achieve Mechanic acknowledges that railing against these influences which are here to stay can achieve only so much Instead he asks whether it is possible to convert what is best about health care in America into a well functioning system that better serves the entire population Bringing decades of experience as an active health policy participant researcher teacher and consultant to the public and private sectors Mechanic examines the strengths and weaknesses of our system and how it has evolved He pays special attention to areas often neglected in policy discussions such as the loss of public trust in medicine the tragic state of long term care and the relationship of mental health to health care For anyone who has been frustrated by uncoordinated health networks insurance denials and other obstacles to obtaining appropriate care this book will provide a refreshing and frank look at the system s current and future dilemmas Mechanic s thoughtful roadmap describes how health plans healthcare professionals policymakers and consumer groups can work together to improve access quality fairness and health outcomes in America David Mechanic is director of the Institute for Health Health Care Policy and Aging Research at Rutgers University and the national program director of the Robert Wood Johnson Foundation Investigator Awards in Health Policy Research He has been elected to the National Academy of Sciences and to the Institute of Medicine He was coeditor of Policy Challenges in Modern Health Care

The Citizen Patient Nortin M. Hadler, M.D., 2013-04-01 Conflicts of interest misrepresentation of clinical trials hospital price fixing and massive expenditures for procedures of dubious efficacy these and other critical flaws leave little doubt that the current U S health care system is in need of an overhaul In this essential guide preeminent physician Nortin Hadler urges American health care consumers to take time to understand the existing system and to visualize what the outcome of successful reform might look like Central to this vision is a shared

understanding of the primacy of the relationship between doctor and patient Hadler shows us that a new approach is necessary if we hope to improve the health of the populace Rational health care he argues is far less expensive than the irrationality of the status quo Taking a critical view of how medical treatment health care finance and attitudes about health medicine and disease play out in broad social and political settings Hadler applies his wealth of experience and insight to these pressing issues answering important questions for Citizen Patients and policy makers alike **Reforming Markets In Health Care** Smith, Peter,2000-02-01 The UK government is introducing reforms to the internal health care market in the UK National Health Service which seek to address concerns such as these and this book comprises a series of commentaries on their plans from a group of leading health economists Authors examine the contribution of economics to the debate on the reforms while seeking to make the analysis accessible to a general audience **Consumer Survey Information in a Reforming Health Care System** James R. Knickman,Clifton R. Gaus,1999-02 **Consumer Survey Information in a Reforming Health Care System** ,1995 **Political economy analysis of primary health care-oriented reforms** World Health Organization,2024-12-03 This case study set out to identify the political economy factors that shaped the trajectory of Thailand's decades long application of the primary health care PHC approach reinforced through Thailand's Universal Coverage Scheme for universal health coverage The case study examines the political economy factors related to decisions on choices of health care providers for contracting primary care services and purchasing mechanisms for primary care services The case study is part of the Political Economy Analysis of Primary Health Care oriented Reforms Country Case Study Series of WHO's PHC Implementation Solutions Initiative The initiative aims to explore how countries have achieved success in scaling up PHC oriented health systems by documenting and sharing lessons from the vantage point of policy makers and practitioners across contexts **Humanizing Healthcare Reforms** Gerald A. Arbuckle,Maria Theresa Ho,2012-10-01 This book looks at the current turmoil facing contemporary healthcare systems worldwide which has resulted from relentless reorganization being imposed upon them and argues for a return to a values based approach to healthcare Writing from the unique and fresh perspective of social anthropology the author takes a highly logical approach to practice and emphasizes the importance of values such as compassion solidarity and social justice He stipulates that without being able to clearly identify the values and goals that unite its members healthcare organizations are unlikely to be able to meet the demands of the constant and varied pressures they face and explains how individuals at every level in healthcare can contribute to positive change within their organizations This much needed and highly accessible book will be essential reading for anyone interested in healthcare reform from clinicians and nurses to managers and policy makers as well as the interested reader
