Reforming the Monastery Greg Peters,2013-11-12 Richard Froude wrote in 1833 to John Henry Newman that the present state of things in England makes an opening for reviving the monastic system Seemingly original words at the time Yet monasticism is one of the most ancient and enduring institutions of the Christian church reaching its zenith during the High Middle Ages Although medieval monasteries were regularly suppressed during the Reformation and the magisterial Reformers rejected monastic vows the existence of monasticism has remained within the Reformation churches both as an institution and in its theology This volume is an examination of Protestant theologies of monasticism examining the thought of select Protestant authors who

have argued for the existence of monasticism in the Reformation churches beginning with Martin Luther and John Calvin and including Conrad Hoyer John Henry Newman Karl Barth and Donald Bloesch Looking at the contemporary church the current movement known as the New Monasticism is discussed and evaluated in light of Protestant monastic history

**Reforming Memory** Robert Vosloo, 2017-10-12 Although we should acknowledge the fragility of memory we should nevertheless affirm the remarkable ability of memory to reform and transform our identity Our memories and ways of remembering are however often marked by trauma and violence Memory therefore not merely reforms it too is in need of reformation redemption and transformation With this emphasis in mind Reforming Memory grapples with the question what a responsible engagement with the past entails also for Christians and churches associated with the Reformed tradition The history of Reformed churches in South Africa is one can argue a deeply divided and ambivalent one The same figures are heroes to some and villains to others historic events are deeply ambiguous and conflicting views surround different discourses Yet the histories and perhaps futures of these churches and traditions are inextricably interwoven Reforming Memory fundamentally combines an interest in the notion of e memorye with an interest in South African Reformed theology and history Central is the question how should we remember and represent the past responsibly The essays collected in this book engage in different ways with this question attending in the process to some episodes in the history of the Dutch Reformed Church some influential Reformed theologians and some important Reformed practices and confessional documents

**Reforming Worship** Julian Templeton, Keith Riglin, 2012-06-12 The Reformed tradition of worship in England has given the English speaking world the Westminster Directory for the Public Worship of God and the hymns of Isaac Watts In this collection of essays scholars and ministers who are inheritors of this tradition reflect on the continuities innovations and tensions in Reformed worship and their lived expression in contemporary church life Among the tensions explored is that between order and freedom in worship and the bold contention is made that ordered freedom is the scriptural mark of the church s worship and the character of all good liturgy for order is love in regulative operation Anglican Reformed International Commission This collection of essays on the theology history and practice of Reformed worship also includes examples of psalmody liturgy and a sermon
