**Refugees in America in the 1990s** David W. Haines, 1996-07-17 A study of refugees in the United States discussing the general patterns and policies governing refugee resettlement looking at the histories of immigrants from individual countries and comparing the experiences of multiple refugee groups     Refugee Resettlement in the United States Marnie K. Watson, Pritha Gopalan, 2022-07-28 This book focuses on refugee resettlement in the post 9 11 environment of the United States with theoretical work and ethnographic case studies that portray loss transition and resilience Each chapter unpacks resettlement at the macro or micro scale underscoring the multiple and mostly unsupported negotiations refugees must undertake in their familial social educational and work spheres to painstakingly reconstruct and reintegrate their lives The contributors show how civil society groups and individuals push back against xenophobic policies and strive to support refugee communities and how agentive efforts result in refugees establishing stable lives despite punishing odds This volume will be of interest to anthropologists and other scholars with a focus on refugee and migration studies     The Strangers in Our Midst Ulrike Elisabeth Stockhausen, 2021-05-25 Evangelical Christians in the United States today are known for their hard line restrictive approach to immigration and refugees This book shows that this has not always been the case and is in fact a relatively new position The history of evangelical involvement with refugees and immigrants has been overlooked in the current debate Since the early 1960s evangelical Christians have been integral players in US immigration and refugee policy Motivated by biblical teachings to welcome the stranger they have helped tens of thousands of newcomers by acting as refugee sponsors or providing legalization assistance to undocumented immigrants Until the 1990s many evangelicals did not distinguish between documented and undocumented newcomers all were to be loved and welcomed In the last decade of the twentieth century however a growing anti immigrant consensus in American society grew alongside evangelicals political alignment with the Republican Party leading to a rethinking of their theology Following the GOP s lead evangelicals increasingly emphasized the need to obey American law which many argued undocumented immigrants failed to do Today the evangelical movement is more divided than ever about immigration policy While conservative evangelicals are often immigration hard liners many progressive and Latinx evangelicals hope to convince their fellow evangelicals to take a more welcoming approach The Strangers in Our Midst argues that the key to understanding evangelicals divided approaches to immigration is to look at both their theology and their politics Both of which have shaped how and especially to whom they extend their biblical values of hospitality     Refugees in Europe, 1919-1959 Matthew Frank, Jessica Reinisch, 2017-09-21 This book is open access and available on [www.bloomsburycollections.com](http://www.bloomsburycollections.com) It is funded by Knowledge Unlatched Refugees in Europe 1919 1959 offers a new history of Europe s mid 20th century as seen through its recurrent refugee crises By bringing together in one volume recent research on a range of different contexts of groups of refugees and refugee policy it sheds light on the common assumptions that underpinned the history of refugees throughout the period under review The essays

foreground the period between the end of the First World War which inaugurated a series of new international structures to deal with displaced populations and the late 1950s when Europe's home grown refugee problems had supposedly been solved and attention shifted from the identification of an exclusively European refugee problem to a global one. Borrowing from E. H. Carr's *The Twenty Years Crisis* first published in 1939, the editors of this volume test the idea that the two post war eras could be represented as a single crisis of a European dominated international order of nation states in the face of successive refugee crises which were both the direct consequence of that system and a challenge to it. Each of the chapters reflects on the utility and limitations of this notion of a forty years crisis for understanding the development of specific national and international responses to refugees in the mid 20th century. Contributors to the volume also provide alternative readings of the history of an international refugee regime in which the non European and colonial world are assigned a central role in the narrative.

The book provides a clearer historical understanding of the group dynamics among refugees, the ethnic Chinese, Vietnamese refugees from both the North and South as well as the northern Vietnamese refugees, an examination of different aspects of migration including planning for migration, choices of migration route and reasons for migration, an analysis of the ethnic and refugee politics during the refugee era, the settlement and subsequent resettlement.
