Refugees And International Relations:

Refugees in International Relations Alexander Betts, Gil Loescher, 2010-11-04 Refugees lie at the heart of world politics. The causes and consequences of and responses to human displacement are intertwined with many of the core concerns of International Relations. Yet scholars of International Relations have generally bypassed the study of refugees and Forced Migration Studies has generally bypassed insights from International Relations. This volume therefore represents an attempt to bridge the divide between these disciplines and to place refugees within the mainstream of International Relations. Drawing together the work and ideas of a combination of the world's leading and emerging International Relations scholars, the volume considers what ideas from International Relations can offer our understanding of the international politics of forced migration. The insights draw from across the theoretical spectrum of International Relations from realism to critical theory to feminism, covering issues including international cooperation, security and the international political economy. They engage with some of the most challenging political and practical questions in contemporary forced migration, including peacebuilding, post-conflict reconstruction and statebuilding. The result is a set of highly original chapters yielding not only new concepts of wider relevance to International Relations but also insights for academics, policy makers and practitioners working on forced migration in particular and humanitarianism in general.

Refugees in International Relations Alexander Betts, Gil Loescher, 2011 Drawing together the work and ideas of a combination of the world's leading and emerging International Relations scholars, *Refugees in International Relations* provides a comprehensive and challenging overview of the international politics of forced migration.

Refugees in International Politics Leon Gordenker, 2023-02-01 Originally published in 1987, *Refugees in International Politics* explores the nature of forced migration. It sets out systematically the factors that set refugees in motion and explains how and why a flexible network of organizations copes with the inescapable results of their presence. It suggests measures to reduce both the human suffering involved in forced migration and the disturbing effects of international relations.

The Refugee in International Society Emma Haddad, 2008-03-20 With the unrelenting unrest in places such as Iraq, Afghanistan and the Sudan, the plight of refugees has become an increasingly discussed topic in international relations. Why do we have refugees? When did the refugee problem emerge? How can the refugee ever be reconciled with an international system that rests on sovereignty? Looking at three key periods—the inter-war period, the Cold War and the present day—Emma Haddad demonstrates how a specific image has defined the refugee since the international states system arose in its modern form and that refugees have thus been qualitatively the same over the course of history. This historical and normative approach suggests new ways to understand refugees and to formulate responses to them. By examining the issue from an international society perspective, this book highlights how refugees are an inevitable if unanticipated result of erecting political borders.

The Oxford Handbook of Refugee and Forced Migration Studies Elena Fiddian-Qasbiyeh, Gil Loescher, Katy Long, Nando Sigona, 2014-06-12 Refugee and Forced

Migration Studies has grown from being a concern of a relatively small number of scholars and policy researchers in the 1980s to a global field of interest with thousands of students worldwide studying displacement either from traditional disciplinary perspectives or as a core component of newer programmes across the Humanities and Social and Political Sciences Today the field encompasses both rigorous academic research which may or may not ultimately inform policy and practice as well as action research focused on advocating in favour of refugees needs and rights This authoritative Handbook critically evaluates the birth and development of Refugee and Forced Migration Studies and analyses the key contemporary and future challenges faced by academics and practitioners working with and for forcibly displaced populations around the world The 52 state of the art chapters written by leading academics practitioners and policymakers working in universities research centres think tanks NGOs and international organizations provide a comprehensive and cutting edge overview of the key intellectual political social and institutional challenges arising from mass displacement in the world today The chapters vividly illustrate the vibrant and engaging debates that characterize this rapidly expanding field of research and practice

Refugees and International Relations Gil Loescher, Laila Monahan, 1990 This book by leading experts in refugee protection and assistance examines such problems as military attacks on refugee camps voluntary repatriation restrictionism in Europe women refugees churches and refugees and future policies and practice

Refugee Protection in Europe Joanne van Selm-Thorburn, 2023-08-21 This book addresses the issue of refugee protection in Europe drawing on the approaches taken to the crisis in former Yugoslavia to find lessons for future comprehensive policies Suitable for academics students and policy makers this book gives a comprehensive overview of the twentieth century history of refugee protection the relationship between protection and human rights and European integration in the asylum and immigration policy area The focus of the book is the development of comprehensive approaches to forced migration and particularly the emergence of temporary protection mechanisms in the European context Four specific national measures are analyzed and a model for future EU policy is advanced This model satisfies specified practical and theoretical requirements governing the role of protection in international relations and relations between individuals and states

History in the Humanities and Social Sciences Richard Bourke, Quentin Skinner, 2022-12-22 Offers a collaborative exploration of the role of historical understanding in leading disciplines across the humanities and social sciences

The UNHCR and World Politics Gil Loescher, 2001-05-25 Over fifty years ago governments established the Office of the United Nations High Commissioner for Refugees UNHCR to protect the world's refugees The UNHCR was created to be a human rights and advocacy organization But governments also created the agency to promote regional and international stability and to serve the interests of states Consequently the UNHCR has always trod a perilous path between its mandate to protect refugees and asylum seekers and the demands placed upon it by states to be a relevant actor in world politics This is the first independent history of the UNHCR Gil Loescher one of the world's leading experts on refugee affairs draws upon decades of personal experience and

research to examine the origins and evolution of the UNHCR as well as to identify many of the major challenges facing the organization in the years ahead A key focus is to examine the extent to which the evolution of the UNHCR has been framed by the crucial events of international politics during the past half century and how in turn the actions of the eight past High Commissioners have helped shape the course of world history Each chapter tells the story of an individual High Commissioner and examines the unique contributions made to the development of the Office The history of the last fifty years shows how the UNHCR has initiated and capitalized on international political developments to progressively expand its scope and authority as an important actor in world politics The book argues that the UNHCR has overstretched itself in recent decades and has strayed from its central human rights protection role The protection of refugees remains a litmus test of the international community's commitment to defend human rights and to uphold liberal democratic values Loescher offers a series of bold policy recommendations aimed at making the agency a more effective and accountable advocate for the millions of refugees in the world today

Refugees From Revolution Peter Koehn, 2019-06-26 This book relates social constraints and opportunities to micro level exile decision making It focuses on Cuban Indo Chinese Ethiopian Eritrean and Iranian exile communities in the United States The book analyzes the origins of these large groups of exiles and their treatment under US policy

Human Rights Michael E. Goodhart, 2016 Human Rights Politics and Practice is the most complete most topical and most student friendly introduction to human rights Bringing together a range of international experts including political scientists philosophers lawyers and policy makers the book provides students with a broad range of perspectives on the theoretical and practical issues in this constantly evolving field In addition to in depth theoretical content the book also features unrivalled coverage of human rights issues in practice with a wide range of case studies to explore concrete examples from around the world The third edition has been brought fully up to date with the most recent events and latest research developments in the area Two new chapters have been added one on religion and human rights and one on sexual orientation and gender issues and human rights introducing students to these important topics and expanding the theoretical and practical discussion of issues of universalism and relativism The new edition also features a range of carefully developed pedagogical features to aid student learning encourage critical analysis and challenge students to question their own assumptions The book is accompanied by an Online Resource Centre to enhance students learning and provide valuable support for lecturers For students Revise key terms with a flashcard glossary Take your learning further with links to key human rights documents Use carefully selected web links as a first step towards independent research For registered lecturers Enhance your seminars with a specially developed active learning exercise Use adaptable PowerPoint slides as the basis for lecture presentations or as handouts in class Save time preparing assessments with a fully updated test bank of questions

International Migration and Citizenship Today Niklaus Steiner, 2009-09-10 International migration has emerged in the last decade as one of the world's most controversial and pressing issues This thought provoking textbook

offers the reader a more nuanced and knowledgeable understanding of the complex economic political cultural and moral concerns that arise when people move across borders seeking admission into other countries Splitting the text into five broad sections Steiner facilitates easy navigation of the complex discussions that surround the issue of migration Section One Introduction examines how the central questions that frame the book will be addressed including what criteria should be used to admit migrants and How should a country grant citizenship Section Two Immigrants discusses the criteria for accepting immigrants dealing with the unwanted and assessing the economic cultural and political impacts Section Three Refugees evaluates the methods used to protect refugees the controversies surrounding asylum and the shortcomings of current refugee definitions Section Four Citizenship charts the rise of nationalism presents modern issues of minority rights and diversity and examines processes of naturalization across the globe Section Five Conclusion considers more unconventional approaches to migration and citizenship and suggests moving towards a more holistic approach Carefully constructed to spark discussion and student reflection and featuring suggested resources at the end of each section this book offers dozens of contemporary examples and case studies from across the globe International Migration and Citizenship Today is essential reading for not only students of migration and citizenship but also globalization international relations and democracies

Rethinking International Protection Raffaella Puggioni, 2017-01-09 This book provides a critical account of the concept of international protection The author questions the boundaries between protection and assistance and challenges the dominant focus on state sovereignty Drawing upon a broad range of sources she scrutinises the central role played by the state in providing legal social and economic protection which entails positive obligations upon the state Protection in this context does not simply mean protection from persecution threats and sustained violence but emancipation By focusing on the local and national contexts wherein protection is enacted created and also contested she combines the politics of protection with the practices of protection with a special focus on Italy The resulting arguments clarify the difference between the public responsibility to protect and the private desire to assist between treating refugees as bearers of rights and considering them as objects of assistance The author argues that the absence of protection in Italy has encouraged many to leave and find protection in other EU countries This timely work is essential reading for students and scholars of migration international relations and asylum politics as well as policy makers

Briefing on Iraq and Hearing on the International Relations Budget for Fiscal Year 2008 United States. Congress. House. Committee on Foreign Affairs, 2007

The Protection of Refugees in Southeast Asia Sébastien Moretti, 2022-02-15 This book offers a comprehensive and detailed analysis of refugee protection in Southeast Asia from an international law perspective It examines both the legal and policy frameworks pertaining to the protection of refugees in the region as well as the countries response to refugee movements from the Indochinese refugee crisis in the mid 1970s to the most recent developments It covers important aspects of refugee protection such as access to territory non refoulement the treatment of refugees the

concept of refugee as applied in the region burden sharing and durable solutions to the plight of refugees The analysis focuses specifically on the main countries of asylum within the Association of Southeast Asian Nations that are not parties to the 1951 Refugee Convention namely Thailand Malaysia and Indonesia Using an international law perspective based on the doctrine of the two elements practice and opinio juris the author argues that these states have long recognized that people fleeing persecution armed conflict and generalized violence namely refugees should be protected This in turn demonstrates that they recognize the existence and relevance of the international refugee regime despite their refusal to accede to the Refugee Convention Offering a different perspective on the links between international refugee law and refugee protection in Southeast Asia this book will be of interest to researchers and practitioners in the fields of international relations international refugee law international human rights law migration governance and Southeast Asian Studies *Refugees and the Asylum Dilemma in the West* Gil Loescher, 2010-11-01 **Revival: The Europeanisation of Refugee Policies**

(2001) Sandra Lavenex, 2017-07-28 This title was first published in 2001 Taking a multilevel perspective on the Europeanization of refugee policies this innovative work highlights the entanglement between domestic asylum reforms Essential reading for scholars of European integration asylum and refugee policy **Making Refugees' Political Agency Visible** Amelie Harbisch, 2025-01-21 This book centres refugees and asylum seekers as agents of global politics broadening our thinking about political agency beyond statism citizenship and organized political protest Arguing that to understand forced migration we must understand the construction of refugees as individual human subjects and how subconscious ideas about refugees influence daily practices and policies the author studies how refugees make meaning about themselves Forced migration is a key formative phenomenon of international politics but debates habitually discuss displacement only as an abstract number economic challenge or security issue This volume shifts attention to the individual human subjects as overlooked agents of international relations To this end the book rethinks individual subjects altogether and develops a comprehensive practice theoretical framework of subject construction Through extensive ethnographic data generated with refugees in Germany and Austria the author reveals how refugees are depoliticized and how they combat this using creativity humour and intercultural resources This volume highlights people's agency despite being subjected to powerful ideas and mechanisms It will appeal to scholars and students of International Relations Sociology Political Science and Migration Studies **The External Dimension of EU Migration and Asylum Policies** Markus Kotzur, David Moya, Ülkü Sezgi Sözen, Andrea Romano, 2020-11-24 Der vorliegende Band geht zurück auf eine internationale Summer School zum Migrations Asyl und Flüchtlingsrecht in Barcelona Im Sinne eines intergenerationellen wissenschaftlichen Austausches kommen Studierende Nachwuchswissenschaftlerinnen und arrivierte Expertinnen ins disziplinübergreifende Gespräch zu migrationsrechtlichen respektive migrationspolitischen Grundsatzfragen die seit der Flüchtlingschutzkrise des Jahres 2015 virulenter denn je geworden sind Europa Menschen und völkerrechtliche Aspekte werden um nationalstaatliche Perspektiven

The Evolution of Humanitarian Protection in European Law and Practice Liv Feijen, 2021-04-01

The last couple of years have witnessed an unprecedented battle within Europe between values and pragmatism and between states' interests and individuals' rights. This book examines humanitarian considerations and immigration control from two perspectives: one broader and more philosophical, the other more practical. The impetus to show compassion for certain categories of persons with vulnerabilities can depend on religious, philosophical and political thought. Manifestation of this compassion can vary from the notion of a charitable act to aid the wretched in their home country to humanitarian assistance for the distant needy in foreign lands and finally to immigration policies deciding who to admit or expel from the country. The domestic practice of humanitarian protection has increasingly drawn in transnational law through the expansion of the EU acquis on asylum and the interpretation of the European Court of Human Rights.
