K'Meyer, 2009-05-22 Situated on the banks of the Ohio River Louisville Kentucky represents a cultural and geographical intersection of North and South Throughout its history Louisville has simultaneously displayed northern and southern characteristics in its race relations In their struggles against racial injustice in the mid twentieth century activists in Louisville crossed racial economic and political dividing lines to form a wide array of alliances not seen in other cities of its size In *Civil Rights in the Gateway to the South* Louisville Kentucky 1945 1980 noted historian Tracy E K Meyer provides the first comprehensive look at the distinctive elements of Louisville s civil rights movement K Meyer frames her groundbreaking analysis by defining a border as a space where historical patterns and social concerns overlap From this vantage point she argues that broad coalitions of Louisvillians waged long term interconnected battles during the city s civil rights movement K Meyer shows that Louisville s

border city dynamics influenced both its racial tensions and its citizens' approaches to change. Unlike African Americans in southern cities, Louisville's black citizens did not face entrenched restrictions against voting and other forms of civic engagement. Louisville schools were integrated relatively peacefully in 1956, long before their counterparts in the Deep South. However, the city bore the marks of Jim Crow segregation in public accommodations until the 1960s. Louisville joined other southern cities that were feeling the heat of racial tensions primarily during open housing and busing conflicts more commonly seen in the North in the late 1960s and 1970s. In response to Louisville's unique blend of racial problems, activists employed northern models of voter mobilization and lobbying as well as methods of civil disobedience usually seen in the South. They crossed traditional barriers between the movements for racial and economic justice to unite in common action. Borrowing tactics from their neighbors to the north and south, Louisville citizens merged their concerns and consolidated their efforts to increase justice and fairness in their border city. By examining this unique convergence of activist methods, *Civil Rights in the Gateway to the South* provides a better understanding of the circumstances that unified the movement across regional boundaries.

The Afro-Modernist Epic and Literary History K. Schultz, 2013-11-19 Analyzing the poets Melvin B. Tolson, Langston Hughes, and Amiri Baraka, this study charts the Afro-Modernist epic. Within the context of Classical epic traditions, early 20th-century American modernist long poems, and the griot traditions of West Africa, Schultz reveals diasporic consciousness in the representation of African American identities.

Teaching with Conscience in an Imperfect World William Ayers, 2016-04-08 In this beautifully written little book, Bill Ayers blends personal anecdotes with critique of the state of education. He offers a plan to help educators, policymakers, and parents to stretch toward something new and dramatically better: schools that are more joyful, more balanced, and more guided by the power of love.

Fear and Learning in America John Kuhn, 2014-01-01 In this moving account, America's Superintendent John Kuhn lays bare the scare tactics at the root of the modern school reform movement. Kuhn conveys a deeply held passion for the mission and promise of public education through his own experience as a school administrator in Texas. When his Alamo Letter first appeared in the *Washington Post*, it galvanized the educational community in a call to action that was impossible to ignore. This powerful book requires us to question whether the current education crisis will be judged by history as a legitimate national emergency or an agenda-driven panic spurred on by a media that is for the most part uninterested in anything but useless soundbites. Essential reading for teachers, administrators, policymakers, and everyone concerned with public education.

Fear and Learning in America analyzes school reform from the perspective of a practicing school administrator who isn't sold on the corporate reform package. Places school reform in the historical context of similar episodes of national hand-wringing. Offers encouragement and appreciation to classroom teachers who are exhausted by the vilification that modern school reform has served up. John Kuhn's book is packed with more wisdom than any 10 books that I have read about American education. It is the wisdom born of experience. It is the wisdom of a man who cares about children, families, and community.

From the Foreword by Diane Ravitch author of *Reign of Error* In *Fear and Learning in America* John Kuhn weaves together stories from his life as a teacher and missionary with tales from history The result is a fresh way of thinking about schools and educational policy Refuting *A Nation at Risk* Mr Kuhn warns persuasively of a rising tide of inequality His message artfully delivered in this important book should be heeded John Merrow education correspondent PBS NewsHour and president Learning Matters Inc Kuhn is a superb educator and his valuable book effectively dissects the myths about today's high stakes testing environment and the worsening conditions under which educators are expected to make miracles every day or else His cogent arguments against such policies demonstrate what is really important and should inform the debate about public education Randi Weingarten president American Federation of Teachers This book is a brilliantly clear defense of public education as our nation's most valuable asset John Kuhn fearlessly names the fact that today's education reformers like the renowned emperor wear no clothes Christine Sleeter professor emerita California State University Monterey Bay John Kuhn is a public school administrator in Texas and a vocal advocate for public education His Alamo Letter and YouTube videos of his 2011 speech at a Save Texas Schools rally went viral as did his 2012 essay *The Exhaustion of the American Teacher*

Child Care Justice Maurice Sykes, Kyra Ostendorf, 2022. Join the authors of this book in starting a movement of hope and possibility for an antiracist child care and early childhood education system. This volume disrupts mental models regarding where the work of early care and education began with enslaved African women and how the stigma of that beginning relegates present-day child care workers to a low status, low wage field of practice. Expert authors contribute their wisdom, experience, research, and practical knowledge on issues related to equity and social justice. They examine the oppressive historical, political, economic, educational, and cultural systems that continue to oppress early care educators and, by extension, racialized children and children in poverty. The interrogation and litigation of past and current issues and grievances of injustice and inequities in the field are addressed while threading the needle of social justice and critical consciousness throughout the chapters. *Child Care Justice* calls on educators, activists, and their allies to rethink, reimagine, and reconstruct a more equitable and just system for all who receive and provide care to our nation's youngest of children. When historically marginalized child care workers are held in high esteem, then and only then will America live up to its promise of liberty and justice for all. **Book Features:** Centers the historic and current oppression of Black people in the United States as foundational to the disregard for childcare workers today. Uses Paulo Freire's critical consciousness framework to guide readers to see, analyze, and act. Calls for a multiracial coalition of activists for racial justice, gender justice, and economic justice. The roadmap has been drawn, but it requires inspired and knowledgeable advocates to implement. Read, be inspired, build community, and take up the mantle for change. **From the Foreword by Barbara T. Bowman, Erikson Institute Contributors:** Rebecca Berlin, Sarah R. Bussey, Michael Gramling, Ed Greene, Iheoma U. Iruka, Alexis Jemal, Denisha Jones, Hakim M. Rashid, Joey Saunders, and James C. Young.

In this new edition, Ayers discusses important events that have shaped education since the last edition was published, including a global pandemic and the Black Lives Matter movement. For over 3 decades, this classic text has inspired teachers across the country to follow their own paths, face their own challenges, and become the teachers they long to be. This engaging teacher's odyssey is a road map to the beating heart of teaching, emphasizing the joy in the journey and the pleasure in a life lived in the company of children and youth. **Book Features:** A primer for new teachers trying to develop the skills and commitments needed to be effective in the classroom.
