Regaining Paradise Milton And The Eighteenth Century:

Regaining Paradise Dustin Griffin, 2009-04-09 This book explores the way in which Milton's poems served as a rich and fruitful resource for the English poets of the eighteenth century. It refutes the old argument about Milton's allegedly bad influence and challenges suggestions that great writers generally inhibit or oppress their successors. *Regaining Paradise* argues that what interested eighteenth century poets was primarily Milton's garden myth and that the best writers typically found Milton not a burden but an inspiring resource available for their appropriation. *Regaining Paradise* cuts across some of the boundaries that traditionally divide English studies. It looks at Milton not in a Renaissance but an eighteenth century context and it combines the perspectives of literary history and literary theory. *Regaining Paradise* Dustin Griffin, 1986-03-20

The New Eighteenth Century Felicity Nussbaum, Laura Brown, 2025-05-01 First published in 1987 *The New Eighteenth Century* now with a new preface by Felicity Nussbaum and Laura Brown examines eighteenth century English literature's resistance to the application of new theoretical approaches and presents new work by leading scholars which both challenges this resistance and demonstrates the usefulness of feminist, Marxist, new historicist and psychoanalytic approaches to the analysis of eighteenth century texts. This book reinterprets and resituates canonical works by such writers as Fielding, Goldsmith and Sterne but also explores areas and figures increasingly important to eighteenth century study. It opens questions about the canon and about the nature of canonicity itself as it considers texts by women, working class literature, guidebooks for bourgeois tourists and aspects of the cultural and social terrain including problems of race and colonialism.

capitalism and penal institutions The New Eighteenth Century not only provides new ways of looking at the literature of the period but serves as a model for future work in eighteenth century studies

Writing the Poetry of Place in Britain, 1700-1807 Elizabeth R. Napier, 2022-11-30 This book discusses the intrusion often inadvertent of personal voice into the poetry of landscape in Britain 1700-1807 It argues that strong conventions such as those that

inhere in topographical verse of the period invite original poets to overstep those bounds while also shielding them from the repercussions of self expression Working under cover of convention in this manner and because for many of these poets place is tied in significant ways to personal history poets of place may launch unexpected explorations into memory personhood and the workings of consciousness This book thus supplements past largely political readings of landscape poetry turning to questions of self articulation and self expression in order to argue that the autobiographical impulse is a distinctive and innovative feature of much great eighteenth century poetry of place Among the poets under examination are Pope Thomson Duck Gray Goldsmith Crabbe Cowper Smith and Wordsworth

University Press Distributed worldwide by Rutgers University Press **Reading Poetry, Writing Genre** Silvio Bär, Emily Hauser, 2018-12-27 This ground breaking volume connects the situatedness of genre in English poetry with developments in classical scholarship exploring how an emphasis on the interaction between English literary criticism and Classics changes sharpens or perhaps even obstructs views on genre in English poetry Genre has classical roots both in the etymology of the word and in the history of genre criticism which begins with Aristotle In a similar vein recent developments in genre studies have suggested that literary genres are not given or fixed entities but subjective and unstable as well as historically situated and that the reception of genre by both writers and scholars feeds back into the way genre is articulated in specific literary works Classical scholarship literary criticism and genre form a triangle of key concepts for the volume approached in different ways and with different productive results by contributors from across the disciplines of Classics and English literature Covering topics from the establishment of genre in the Middle Ages to the invention of female epic and the epyllion and bringing together the works of English poets from Milton to Tennyson to Josephine Balmer the essays collected here argue that the reception and criticism of classical texts play a crucial part in generic formation in English poetry

or after its public appearance it can strike the cultural item as well as the very individuals who created it it can also catch in its net the agents responsible for its publication and diffusion in the case of a printed text authors editors printers publishers librarians and booksellers It can be directed against a single person or against a group an organization a political party or a religious confession The different ways of censorship how it was enforced or eluded in the Italian or Anglo American worlds and often in their mutual relations are the topic of this volume whose contents are divided into two main sections The first entitled Discourse Regulation discusses instances of institutionalized and regulatory censorship and conversely forms of reaction against pressure and control The second section entitled Textual and Ideological Manipulations debates some of the ways in which cultural products can be used to exert censorial influence upon society among these it shows how language and descriptions of language may provide a biased view of reality All in all the chapters in this volume highlight a notion of censorship that defies strict boundaries and definitions thus challenging received ideas on cultural practices

Futures of Enlightenment Poetry Dustin D.

Stewart, 2020-10-30 This book offers a revisionist account of poetry and embodiment from Milton to Romanticism Scholars have made much of the period's theories of matter with some studies equating the eighteenth century's modernity with its materialism Yet the Enlightenment in Britain also brought bold new arguments for the immateriality of spirit and evocative claims about an imminent spirit realm Protestant religious writing was of two minds about futurity swinging back and forth between patience for the resurrected body and desire for the released soul This ancient pattern carried over the book argues into understandings of poetry as a modern devotional practice A range of authors agreed that poems can provide a foretaste of the afterlife but they disagreed about what kind of future state the imagination should seek The mortalist impulse

exemplified by John Milton and by Romantic poets Anna Letitia Barbauld and William Wordsworth is to overcome the temptation of disembodiment and to restore spirit to its rightful home in matter The spiritualist impulse driving eighteenth century verse by Mark Akenside Elizabeth Singer Rowe and Edward Young is to break out of bodily repetition and enjoy the detached soul's freedom in advance Although the study isolates these two tendencies each needed the other as a source in the Enlightenment and their productive opposition didn't end with Romanticism The final chapter identifies an alternative Romantic vision that keeps open the possibility of a disembodied poetics and the introduction considers present day Anglophone writers who put it into practice

The Oxford Handbook of British Poetry, 1660-1800 Jack
Lynch, 2016-11-24 In the most comprehensive and up to date overview of the poetry published in Britain between the Restoration and the end of the eighteenth century forty four authorities from six countries survey the poetry of the age in all its richness and diversity serious and satirical public and private by men and women nobles and peasants whether published in deluxe editions or sung on the streets The contributors discuss poems in social contexts poetic identities poetic subjects poetic form poetic genres poetic devices and criticism Even experts in eighteenth century poetry will see familiar poems from new angles and all readers will encounter poems they've never read before The book is not a chronologically organized literary history nor an encyclopaedia nor a collection of thematically related essays rather it is an attempt to provide a systematic overview of these poetic works and to restore it to a position of centrality in modern criticism
