Succinct yet comprehensive with more than 250 rare stills and illustrations, it brings readers face to face with many of the key players and films that have shaped the industry. Beginning with the precursors of moving pictures, Wheeler Winston Dixon and Gwendolyn Audrey Foster lead a fast-paced tour through the invention of the kinetoscope, the introduction of sound and color between the two world wars, and ultimately the computer-generated imagery of the present day. They detail significant periods in world cinema, including the creation of early major industries in Europe, the dominance of the Hollywood studio system in the 1930s and 1940s, and the French New Wave of the 1960s. Using a broad range of research sources, essays from scholars including Richard Abel, Robert Allen, Kathryn Fuller-Seeley, Terry Lindvall, and Greg Waller examine in detail the social and cultural changes this new form of entertainment brought to towns from Gastonia, North Carolina, to Placerville, California, and from Norfolk, Virginia, to rural Ontario and beyond. Emphasizing the roles of local exhibitors, neighborhood audiences, regional cultures, and the growing national mass media, their essays chart how motion pictures so quickly and successfully moved into old opera houses and glittering new picture palaces on Main Streets across America. *German Wartime Memory, American Exceptionalism, and Post-Cold War Blockbuster Cinema* Robert Pirro, 2025-08-29 This book excavates the diverse and mostly unnoticed political meanings made available to American and German audiences by the blockbuster films helmed by transplanted West German directors Roland Emmerich and Wolfgang Petersen. Through formal film analysis, broad consideration of American and German film criticism, and reflection on relevant political developments of the post-Cold War era, the book reveals how traces of Germany's experience of dictatorship and wartime destruction find inadvertent cinematic expression in ways that helped American and German moviegoers find orientation in the changed

political and cultural landscape of a newly globalized world To complement and deepen the analysis of the Hollywood output of Emmerich and Petersen the book juxtaposes the creative product of these transplanted directors to examples of a converse cinematic phenomenon considered under the label American Babelsberg which encompasses World War Two themed films shot by American directors in Germany utilizing the production facilities at Babelsberg Focus here is placed particularly on two high profile cinematic releases of the aughts *Valkyrie* 2008 and *Inglourious Basterds* 2009 The magnetic attraction to or nettlesome burden of World War Two memories on these directors of American Babelsberg and German Hollywood is explained in this book by the entwined histories of Germans and Americans the different challenges of national self definition and renewal they faced in the post Cold War world and their long standing and ongoing transatlantic discourse of political ideas and cultural ideals This book will be of great interest to students and scholars of film studies politics popular culture and contemporary history

Additionally she looks at actresses of color such as Anna May Wong and Lupe V lez whose careers suffered from the enforced independence that resulted from being denied long term studio contracts Tracing the freelance phenomenon among American motion picture talent in the 1930s *Independent Stardom* rethinks standard histories of Hollywood to recognize female stars as creative artists sophisticated businesswomen and active players in the then as now male dominated film industry

Screening the Police Noah Tsika,2021 American police departments have presided over the business of motion pictures since the end of the nineteenth century Their influence is evident not only on the screen but also in the ways movies are made promoted and viewed in the United States *Screening the Police* explores the history of film s entwinement with law enforcement showing the role that state power has played in the creation and expansion of a popular medium For the New Jersey State Police in the 1930s film offered a method of visualizing criminality and of circulating urgent information about escaped convicts For the New York Police Department the medium was a means of making the agency world famous as early as 1896 Beat cops became movie stars Police chiefs made their own documentaries And from Maine to California state and local law enforcement agencies regularly fingerprinted filmgoers for decades amassing enormous records as they infiltrated theatres both big and small As author Noah Tsika demonstrates understanding the scope of police power in the United States requires attention to an aspect of film history that has long been ignored *Screening the Police* reveals the extent to which American cinema has overlapped with the politics and practices of law enforcement

Robert Taylor Gillian Kelly,2019-06-27 Because of his lengthy screen resume that includes almost eighty appearances in such movies as *Camille* and *Waterloo Bridge* as well as a marriage and divorce to actress Barbara Stanwyck Robert Taylor was a central figure of Hollywood s classical era Despite this he can be regarded as a lost star an interesting contradiction given the continued success he enjoyed during his lifetime In *Robert Taylor Male Beauty Masculinity and Stardom in Hollywood* author Gillian Kelly investigates the initial construction and subsequent developments of Taylor s star persona across his thirty five year career By examining concepts of male beauty men as object of the erotic gaze white American masculinity and the unusual longevity of a career initially based on looks Kelly highlights how gender masculinity and male stars and the ageing process affected Taylor s career Placing Taylor within the histories of both Hollywood s classical era and mid twentieth century America this study positions him firmly within the wider industrial cultural and socioeconomic contexts in which he worked Kelly examines Taylor s film and television work as well as ephemeral material such as fan magazines to assess how his on and off screen personas were created and developed over time Taking a mostly chronological approach Kelly places Taylor s persona within specific historical moments in order to show the complex paradox of his image remaining consistently recognizable while also shifting seamlessly within the Hollywood industry Furthermore she explores Taylor s importance to Hollywood cinema by demonstrating how a star persona like his can fit so well and for so long that it almost becomes invisible and eventually almost forgotten

American Cinema of the 1930s Ina Rae Hark,2007 Abstract *Movie Greats*

Philip Gillett, 2008-10-15 *Movie Greats* questions how cinema is ranked uncovers a history of critical conflict with different aesthetic positions battling for dominance Each chapter opens with a brief summary of the film s plot goes on to discuss the historical context the key individuals who made the film initial subsequent popular critical responses **Hollywood Diplomacy** Hye Seung Chung, 2020-02-28 While tracing both Hollywood s internal foreign relations protocols and external regulatory interventions by the Chinese government the U S State Department the Office of War Information and the Department of Defense *Hollywood Diplomacy* contends that film regulation has played a key role in shaping images of Chinese Japanese and Korean ethnicities according to the political mandates of U S foreign policy **Birth of an Industry** Nicholas Sammond, 2015-08-27 In *Birth of an Industry* Nicholas Sammond describes how popular early American cartoon characters were derived from blackface minstrelsy He charts the industrialization of animation in the early twentieth century its representation in the cartoons themselves and how important blackface minstrels were to that performance standing in for the frustrations of animation workers Cherished cartoon characters such as Mickey Mouse and Felix the Cat were conceived and developed using blackface minstrelsy s visual and performative conventions these characters are not like minstrels they are minstrels They play out the social cultural political and racial anxieties and desires that link race to the laboring body just as live minstrel show performers did Carefully examining how early animation helped to naturalize virulent racial formations Sammond explores how cartoons used laughter and sentimentality to make those stereotypes seem not only less cruel but actually pleasurable Although the visible links between cartoon characters and the minstrel stage faded long ago Sammond shows how important those links are to thinking about animation then and now and about how cartoons continue to help to illuminate the central place of race in American cultural and social life Envisioning Asia Jeanette Roan, 2010-05-07 Whereas some other scholars read selected films mainly to illustrate political arguments Roan never loses sight of the particularities of film as a distinctive cultural form and practice Her drive to see cinema as a mechanism of American orientalism results in not just a textual analysis of these films but also a history of their material production and distribution Josephine Lee University of Minnesota *Envisioning Asia* offers an exciting new contribution to our understandings of the historical developments of American Orientalism Jeannette Roan deftly situates changing cinematic technologies within the context of U S imperial agendas in this richly nuanced analysis of shooting on location in Asia in early 20th century American cinema Wendy Kozol Oberlin College Through her vivid illustration of the role of American cinema in the material visual and ideological production of Asia Jeanette Roan takes the reader on a journey to Asia through a very different route from the virtual travel taken by the viewers of the films she discusses Mari Yoshihara University of Hawai i at Manoa The birth of cinema coincides with the beginnings of U S expansion overseas and the classic Hollywood era coincides with the rise of the United States as a global superpower In *Envisioning Asia* Jeanette Roan argues that throughout this period the cinema s function as a form of virtual travel coupled with its purported authenticity served to advance America s

shifting interests in Asia Its ability to fulfill this imperial role depended however not only on the cinematic representations themselves but on the marketing of the films production histories and in particular their use of Asian locations Roan demonstrates this point in relation to a wide range of productions offering an engaging and useful survey of a largely neglected body of film Not only that by focusing on the material practices involved in shooting films on location that is the actual travels negotiations and labor of making a film she moves beyond formal analysis to produce a richly detailed history of American interests attitudes and cultural practices during the first half of the twentieth century Jeanette Roan is Adjunct Professor of Visual Studies at California College of the Arts and author of *Exotic Explorations Travels to Asia and the Pacific in Early Cinema in Re collecting Early Asian America Essays in Cultural History* 2002 Cover art Publicity still Tokyo File 212 Dorrell McGowan and Stuart McGowan 1951 The accompanying text reads Hundreds of spectators gather on the sidelines as technicians prepare to photograph a parade scene in Tokyo File 212 a Breakston McGowan Production filmed in Japan for RKO Radio distribution Courtesy of the Academy of Motion Picture Arts and Sciences
