Revolution, Socialism and Nationalism in Viet Nam Ken Post,1989 **Revolution and Dictatorship** Steven

Levitsky, Lucan Way, 2024-10-29 Why the world's most resilient dictatorships are products of violent revolution Revolution and Dictatorship explores why dictatorships born of social revolution such as those in China Cuba Iran the Soviet Union and Vietnam are extraordinarily durable even in the face of economic crisis large scale policy failure mass discontent and intense external pressure Few other modern autocracies have survived in the face of such extreme challenges Drawing on comparative historical analysis Steven Levitsky and Lucan Way argue that radical efforts to transform the social and geopolitical order trigger intense counterrevolutionary conflict which initially threatens regime survival but ultimately fosters the unity and state building that supports authoritarianism Although most revolutionary governments begin weak they challenge powerful domestic and foreign actors often bringing about civil or external wars These counterrevolutionary wars pose a threat that can destroy new regimes as in the cases of Afghanistan and Cambodia Among regimes that survive however prolonged conflicts give rise to a cohesive ruling elite and a powerful and loyal coercive apparatus This leads to the downfall of rival organizations and alternative centers of power such as armies churches monarchies and landowners and helps to inoculate revolutionary regimes against elite defection military coups and mass protest three principal sources of authoritarian breakdown Looking at a range of revolutionary and nonrevolutionary regimes from across the globe Revolution and Dictatorship shows why governments that emerge from violent conflict endure Revolution, Socialism and Nationalism

William Duiker,1995 Discusses the origins the conduct and the social impact of the war in Vietnam from the Vietnamese perspective **America in the World** Michael J. Hogan,1995 A survey of the historical literature on intelligence and

national security during the Cold War **The Cold War and After** Richard Saull,2007-01-20 The Cold War is often presented as an international power struggle between the Soviet Union and the US Richard Saull challenges this assumption He broadens our understanding of the defining political conflict of the twentieth century by stressing the social and ideological differences of the superpowers and how these differences conditioned their international behaviour Saull argues that US Soviet antagonism was part of a wider conflict between capitalism and communism involving states and social forces other than the superpowers The US was committed to containing revolutionary and communist movements that emerged out of uneven capitalist development In highlighting the socio economic and ideological dimensions of the Cold War Saull not only provides a richer history of the Cold War than mainstream approaches but is also able to explain why revolutionary domestic transformations caused international crises Tracing the origins of new resistance to American global power Saull's book provides an ideal alternative perspective on the Cold War and its end **The Vietnamese American 1.5 Generation**

Sucheng Chan,2006 Riveting stories by refugees who fled Vietnam Revolution's Other World Ken Post,2016-07-27 Ken

Post examines the turn to the East by the international communist movement in fostering world revolution after the success in Russia in 1917 which led to communism's greatest gains after the Second World War. Based on a theorisation of the building of revolutionary movements, this study critically assesses communist strategy and tactics using three key cases: China, India, and Brazil, drawing out implications for possible future developments in less developed countries. The State and Revolution in the Twentieth-Century Berch Berberoglu, 2007. This book provides a comparative historical analysis of the state and revolution in the twentieth century, focusing on the major socialist revolutions of our time. After examining the competing theories of the state and revolution in classical social theory, the book provides Regaining Marxism Ken Post, 2016-07-27. This book responds to recent events by proposing a radical reshaping of Marxist theory. Taking the core problem as that of the historical subject, it conceptualises human life in terms of four interrelated practices. It explores these in turn in the context of a capitalism divided into centre and periphery, primarily through nine theoretical reconstructions which attempt to meet such problems as the labour theory of value, the nature and role of the state, and consciousness.

Viet Nam Divided, 1989 The Communist Road To Power In Vietnam William J Duiker, 2018-03-05. In this new edition of his widely acclaimed study, William Duiker has revised and updated his analysis of the Communist movement in Vietnam from its formation in 1930 to the dilemmas facing its leadership in the post Cold War era. Making use of newly available documentary sources and recent Western scholarship, the author reevaluates Communist revolutionary strategy during the Vietnam War. Based on primary materials in several languages, this respected work is essential for an understanding of Vietnam in the twentieth century. *Empire and Revolution* Peter L. Hahn, Mary Ann Heiss, 2001. The ten essays in this volume represent state-of-the-art surveys of ten singular episodes in U.S. interaction with the Third World since 1945. Each author seeks to present a unique approach to a specific topic within U.S. Third World relations. The essays cover the globe and include studies of the Middle East, Latin America, Africa, and Asia. They make use of a variety of source material and employ a wide range of analytical devices such as the national security paradigm, the idea of economic development, and culture. The essays present a multihued portrait of the different ways policy makers in the United States dealt with Third World problems. The essays make clear the multitude of considerations that affected policy making, the many different actors, both official and nonofficial, who came to influence the policy making process, and the possibilities for future research into U.S. relations with the nations of the Third World. They are designed not only to present the current state of the literature but also to suggest some avenues for future research. **The Statesman's Year Book: 1992-93** B. Hunter, 2016-12-29.
