

# **"RIVER ON A RAMPAGE" THE DISASTROUS OHIO RIVER FLOOD OF 1936**

Heavy snow and rain in March 1936 triggered the worst flood in the Upper Ohio Valley's history. The river crested here in Wheeling at a record 55.5 feet on March 19th, and floodwater inundated the Island, much of South and Centre Wheeling and even the downtown streets as far east as Chapline. The Suspension Bridge and Steel Bridge were closed, and the Market Auditorium was converted to a refuge shelter and makeshift hospital. Utilities were shut down, supplies cut off, and more 20,000 people were driven from their homes. Historian Roger Pickenpaugh, author of *"River on a Rampage: The 1936 flood from Chester to Marietta,"* joins us once again to tell us the story of the disastrous flood in Wheeling and beyond.

**River on a Rampage** Roger Pickenpaugh,2002-01-01      *The Thousand-Year Flood* David Welky,2024-05-31 In the early days of 1937 the Ohio River swollen by heavy winter rains began rising And rising And rising By the time the waters crested the Ohio and Mississippi had climbed to record heights Nearly four hundred people had died while a million more had run from their homes The deluge caused more than half a billion dollars of damage at a time when the Great Depression still battered the nation Timed to coincide with the flood s seventy fifth anniversary The Thousand Year Flood is the first comprehensive history of one of the most destructive disasters in American history David Welky first shows how decades of settlement put Ohio valley farms and towns at risk and how politicians and planners repeatedly ignored the dangers Then he tells the gripping story of the river s inexorable rise residents fled to refugee camps and higher ground towns imposed martial law prisoners rioted Red Cross nurses endured terrifying conditions and FDR dispatched thousands of relief workers In a landscape fraught with dangers from unmoored gas tanks that became floating bombs to powerful currents of filthy floodwaters that swept away whole towns people hastily raised sandbag barricades piled into overloaded rowboats and marveled at water that stretched as far as the eye could see In the flood s aftermath Welky explains New Deal reformers utopian dreamers and hard pressed locals restructured not only the flood stricken valleys but also the nation s relationship with its waterways changes that continue to affect life along the rivers to this day A striking narrative of danger and adventure and the mix of heroism and generosity greed and pettiness that always accompany disaster The Thousand Year Flood breathes new life into a fascinating yet little remembered American story      **Great Lakes and Midwest Catalog**

Partners Book Distributing,2007      **Die Natur der Gefahr** Uwe Lübken,2014-02-19 Hardly any other river has suffered as greatly from the drastic confluences of natural and cultural dynamics as the Ohio River The waterway an important means of transport and communication was vital to the growth of the Ohio Valley region in the nineteenth century Commercial hubs and industrial cities such as Pittsburgh Louisville and Cincinnati sprung up along its banks it served both as a sewer and as the infrastructural artery However this seemingly harmonious union of nature and culture was called into question by repeated flooding Uwe Lübken has examined both the increasing use of flood plains and the assimilation of flooding into local knowledge analysing the ways in which past disasters were remembered or forgotten and the history of flood defences He presents the history of flooding in the Ohio River as a history of risk in which river use and hazards are closely intertwined
