River Of God A New History Of Christian Origins:

The River of God Gregory J. Riley, 2003-03-04 Where did Christianity come from Acclaimed author Gregory Riley embarks on a remarkable journey in this readable and persuasive account of the origins of Christianity Riley demonstrates that early Christians held widely differing beliefs about God Jesus the Devil and the human soul and follows these beliefs back to their sources in Greek science and philosophy and the religions of the ancient Middle East An expert on the context in which Christianity arose Riley maps out a new understanding of the forging of Christianity and conveys a vital message for today about the true nature of Christian faith as inherently diverse **The River of God** Gregory John Riley, 2001 The Origin

of Heresy Robert M. Royalty, 2013-05-07 Heresy is a central concept in the formation of Orthodox Christianity Where does this notion come from This book traces the construction of the idea of heresy in the rhetoric of ideological disagreements in Second Temple Jewish and early Christian texts and in the development of the polemical rhetoric against heretics called heresiology Here author Robert Royalty argues one finds the origin of what comes to be labelled heresy in the second century In other words there was such a thing as heresy in ancient Jewish and Christian discourse before it was called heresy And by the end of the first century the notion of heresy was integral to the political positioning of the early orthodox Christian party within the Roman Empire and the range of other Christian communities This book is an original contribution to the field of Early Christian studies Recent treatments of the origins of heresy and Christian identity have focused on the second century rather than on the earlier texts including the New Testament The book further makes a methodological contribution by blurring the line between New Testament Studies and Early Christian studies employing ideological and post colonial critical methods *The Gospels of the Marginalized* Marvin W. Meyer, 2012-10-16 The Gospels of the Marginalized provides an exciting new study of three of the most maligned figures in the New Testament story of Jesus Thomas usually considered the quintessential doubter among the disciples Mary Magdalene characterized as a repentant prostitute during much of the history of the church and Judas Iscariot presented as the despicable disciple of Jesus who betrayed his master for money In this book Marvin Meyer one of the most prominent of the scholars of gnostic texts and other early Christian literature offers fresh and accurate translations of the Gospels of Thomas Mary and Judas with their proclamation of the good news of the wisdom of Jesus and he uses these gospels as the occasion to reexamine the place of Thomas Mary Magdalene and Judas Iscariot in the Jesus movement His striking analysis suggests that Thomas was no doubter that Mary Magdalene was a beloved disciple in the inner circles of disciples around Jesus and that the tale of Judas Iscariot as betrayer of Jesus is a piece of fiction Meyer adds a Gospel of the Redeemed as a vivid illustration of how the gospel story of Jesus might read with Jesus as a Jewish teacher of wisdom and Thomas Mary and Judas restored as loyal followers of the teacher from Nazareth

The Ocean of God Roland Faber, 2019-06-29 The Ocean of God conveys the proposition that the future of religions if they will not want to contribute to the destruction of humanity will become transreligious Based on the assumption that the

spiritual impulse of humanity cannot simply be eradicated religiosity will persist in transreligious forms as secularizations naturalizations and transhumanist dreams only envision such transformations but fall short in their ability to replace the force of spirituality to further civilized peace of human existence on Earth and its future in evolutionary ecological and cosmological dimensions In relating the contributions of religious pluralism to the concept of the unity of religions which have arisen in this new axial age for overcoming the checkered history of religions in furthering peace the program of a polyphilic pluralism with its transreligious discourse based on the insight of the fundamental relativity of religious truth and the special contributions of process philosophy and theology as well as the Bah universe of thought analyses and projects a new religiosity or spirit enabling religions to overcome their deepest motives of strife and warfare **The Biblical Tour of**

Hell Matthew Ryan Hauge,2013-08-15 It is difficult to underestimate the significance of the story of the Rich Man and Lazarus in Luke 16 19 31 within the biblical tradition Although hell occupies a prominent position in popular Christian rhetoric today it plays a relatively minor role in the Christian canon The most important biblical texts that explicitly describe the fate of the dead are in the Synoptic Gospels Yet among these passages only the Lukan tradition is intent on explicitly describing the abode of the dead it is the only biblical tour of hell Hauge examines the story of the Rich Man and Lazarus in Luke 16 19 31 uniquely the only parable that is set within a supernatural context The parables characteristically feature concrete realities of first century Mediterranean life but the majority of Luke 16 19 31 is narrated from the perspective of the tormented dead This volume demonstrates that the distinctive features of the story of the Rich Man and Lazarus are the result of a strategic imitation creative transformation and Christian transvaluation of the descent of Odysseus into the house of Hades in Odyssey Book 11 the literary model par excellence of postmortem revelation in antiquity

Asian Contextual Theology for the Third Millennium Paul S Chung,Veli Matti Karkkainen,Kim Kyoung-Jae,2010-03-25 In this volume an attempt is undertaken to highlight the genesis progress and transformation of Asian contextual theology of minjung introducing its historical point of departure its development and its transformation in light of younger Korean and Korean American scholars endeavors In this regard the new Asian contextual theology which is emerging strives to integrate both minjung and the wisdom of World Religions into its own framework and direction assuming the character of a public theology and remaining humble and open before God's mystery while featuring its association with minjung in a holistic way *The Sociology of Religion* George Lundskow,2008-06-10 Most Sociology of Religion texts are decidedly staid and uninteresting covering contemporary developments which are only contemporary only from a disciplinary perspective They are not contemporary if viewed from the perspective of the religion's practitioners in religious and non religious settings The textbooks that attempt to be interesting to undergraduate students often fall short because they either try to cover too much in an encyclopedic format or sacrifice a sociological perspective for a personal one Many use real life examples only superficially to illustrate concepts Lundskow's approach is the opposite students will learn

the facts of religion in its great diversity all the most interesting and compelling beliefs and practices and then learn relevant concepts that can be used to explain empirical observations The book thus follows the logic of actual research investigate and then analyze rather than approaching concepts with no real bearing on how religion is experienced in society This approach using provocative examples and with an eye toward the historical and theoretical not to mention global experience of religion will make this book a success in the classroom The author envisions a substantive approach that examines religion as it actually exists in all its forms including belief ritual daily living identity institutions social movements social control and social change Within these broad categories the book will devote particular chapters to important historical moments and movements leaders and various individual religions that have shaped the contemporary form and effect of religion in the world today The Cosmic Drama of Salvation Sang Meyng Lee,2010 Revision of author s thesis Ph D Claremont Graduate Univesity 2008 under title The cosmic drama of salvation the law and Christian Paul s undisputed writings from anthropological and cosmological perspectives **The Craft of History and the Study of the New Testament** Beth M. Sheppard,2012-11-11 Do professional historians and New Testament scholars use the same methods to explore the past This interdisciplinary textbook introduces students of the New Testament to the vocabulary and methods employed by historians It discusses various approaches to historiography and demonstrates their applicability for interpreting the New Testament text and exploring its background Overviews of the philosophy of history common historical fallacies and the basics of historiography are followed by three exegetical studies that illustrate the applicability of various historical methods for New Testament interpretation
