

A sepia-toned photograph of a river scene. In the center, a small bridge with a single arch spans the river. The bridge and the surrounding trees are reflected in the calm water. The background is filled with dense, leafless trees, suggesting a late autumn or winter setting. The overall tone is historical and atmospheric.

River Of Shadows Eadweard Muybridge And The Technological Wild West:

River of Shadows Rebecca Solnit, 2004-03-02 A New York Times Notable Book Winner of the National Book Critics Circle Award for Criticism The Mark Lynton History Prize and the Sally Hacker Prize for the History of Technology A panoramic vision of cultural change The New York Times Through the story of the pioneering photographer Eadweard Muybridge the author of *Orwell's Roses* explores what it was about California in the late 19th century that enabled it to become such a center of technological and cultural innovation The world as we know it today began in California in the late 1800s and Eadweard Muybridge had a lot to do with it This striking assertion is at the heart of Rebecca Solnit's new book which weaves together biography history and fascinating insights into art and technology to create a boldly original portrait of America on the threshold of modernity The story of Muybridge who in 1872 succeeded in capturing high speed motion photographically becomes a lens for a larger story about the acceleration and industrialization of everyday life Solnit shows how the peculiar freedoms and opportunities of post Civil War California led directly to the two industries Hollywood and Silicon Valley that have most powerfully defined contemporary society *Eadweard Muybridge* Stephen Herbert, 2004

Stereoscopic Cinema and the Origins of 3-D Film, 1838-1952 Ray Zone, 2014-04-23 From stereoview cards to large format IMAX films 3 D technology's heightened realism and powerful visual allure have held audiences captive for over a century and a half The technology known as stereoscopy creates an illusion of depth by presenting two slightly different images to the eye in print or on screen The advent of stereoscopic film technology excited both filmmakers and audiences as a means of replicating all of the sounds colors movement and dimensionality of life and nature for the first time The origins of 3 D film are often linked with a proliferation of stereoscopic films in the 1950s By the time films like *Man in the Dark* and *House of Wax* was attracting large crowds however the technology behind this form of filmmaking was already over a century old *Stereoscopic Cinema and the Origins of 3 D Film 1838 1952* examines this novelty period of stereoscopic film charting its progression from Charles Wheatstone's 1938 discovery of 3 D to the 1952 release of Arch Oboler's innovative film *Bwana Devil* Stereoscopic specialist Ray Zone argues that the development of stereoscopic film can best be understood through a historical analysis of the technology rather than of its inventors Zone examines the products used to create stereoscopic images noting such milestones as David Brewster's and Oliver Wendell Holmes's work with stereoscopes the use of polarizing image selection and the success of twin strip 3 D films among others In addition Zone looks at the films produced up to 1952 discussing public reception of early 3 D short films as well as longer features such as *Power of Love* in single strip anaglyphic projection in 1922 and Semyon Ivanov's 1941 autostereoscope *Robinson Crusoe* He integrates his examination of the evolution of 3 D film with other cinematic developments demonstrating the connection between stereoscopic motion pictures and modern film production *Stereoscopic Cinema and the Origins of 3 D Film 1838 1952* is an exhaustive study of not only the evolution of 3 D technology and the subsequent filmmaking achievements but also the public response to and

cultural impact of 3 D movies Zone takes the reader on a voyage of discovery into the rich history of a field that predates photography and that continues to influence television and computer animation today *At the Edge of Sight* Shawn Michelle Smith,2013-11-04 The advent of photography revolutionized perception making visible what was once impossible to see with the human eye In *At the Edge of Sight* Shawn Michelle Smith engages these dynamics of seeing and not seeing focusing attention as much on absence as presence on the invisible as the visible Exploring the limits of photography and vision she asks What fails to register photographically and what remains beyond the frame What is hidden by design and what is obscured by cultural blindness Smith studies manifestations of photography's brush with the unseen in her own photographic work and across the wide ranging images of early American photographers including F Holland Day Eadweard Muybridge Andrew J Russell Chansonetta Stanley Emmons and Augustus Washington She concludes by showing how concerns raised in the nineteenth century remain pertinent today in the photographs of Abu Ghraib Ultimately Smith explores the capacity of photography to reveal what remains beyond the edge of sight *The American Play* Marc Robinson,2009-01-01 In this brilliant study Marc Robinson explores more than two hundred years of plays styles and stagings of American theater Mapping the changing cultural landscape from the late eighteenth century to the start of the twenty first he explores how theater has and has not changed and offers close readings of plays by O'Neill Stein Wilder Miller and Albee as well as by important but perhaps lesser known dramatists such as Wallace Stevens Jean Toomer Djuna Barnes and many others Robinson reads each work in an ambitiously interdisciplinary context linking advances in theater to developments in American literature dance and visual art The author is particularly attentive to the continuities in American drama and expertly teases out recurring themes such as the significance of visibility He avoids neatly categorizing nineteenth and twentieth century plays and depicts a theater more restive and mercurial than has been recognized before Robinson proves both a fascinating and thought provoking critic and a spirited guide to the history of American drama *Consuming Identities* Amy K. DeFalco Lippert,2018 *Consuming Identities* restores the California gold rush to its rightful place as the first pivotal chapter in the American history of photography and uncovers nineteenth century San Francisco's position in the vanguard of modern visual culture *Aluminum Dreams* Mimi Sheller,2014-02-14 How aluminum enabled a high speed gravity defying American modernity even as other parts of the world paid the price in environmental damage and political turmoil Aluminum shaped the twentieth century It enabled high speed travel and gravity defying flight It was the material of a streamlined aesthetic that came to represent modernity And it became an essential ingredient in industrial and domestic products that ranged from airplanes and cars to designer chairs and artificial Christmas trees It entered modern homes as packaging foil pots and pans and even infiltrated our bodies through food medicine and cosmetics In *Aluminum Dreams* Mimi Sheller describes how the materiality and meaning of aluminum transformed modern life and continues to shape the world today Aluminum Sheller tells us changed mobility and mobilized modern life It enabled air power the space age and moon

landings Yet as Sheller makes clear aluminum was important not only in twentieth century technology innovation architecture and design but also in underpinning global military power uneven development and crucial environmental and health concerns Sheller describes aluminum s shiny utopia but also its dark side The unintended consequences of aluminum s widespread use include struggles for sovereignty and resource control in Africa India and the Caribbean the unleashing of multinational corporations and the pollution of the earth through mining and smelting and the battle to save it Using a single material as an entry point to understanding a global history of modernization and its implications for the future Aluminum Dreams forces us to ask How do we assemble the material culture of modernity and what are its environmental consequences Aluminum Dreams includes a generous selection of striking images of iconic aluminum designs many in color drawn from advertisements by Alcoa Bohn Kaiser and other major corporations pamphlets films and exhibitions

Stager, 2022-07-26 *Public Feminism in Times of Crisis* examines the public practice of feminism in the age of social media. While their concept of public feminism emerges from a moment of acute crisis, the Trump years and the Covid 19 pandemic, Leila Easa and Jennifer Stager locate its foundations in history, journeying through broad swatches of time looking for connections between the centuries through art and literature and culture. Each chapter focuses on what public feminists do in the world. Public feminists gain control over an archive that otherwise contains or excludes them; they recover their own stories and subjective experiences; sometimes for activist use they examine images and language that construct women in patriarchal texts; they situate the individual within a collective and the collective within an individual; they confront the limitations of such situating due to the containment of patriarchy and reclaim new systems of power in response; and they resurface a deep history for the alternative strategies of memorializing they employ. In navigating these practices, the authors also attend to the material conditions of writing histories as well as those shaping and enabling public feminist acts and protests more broadly.

An Introduction to Animals and Visual Culture Randy Malamud, 2012-05-30 How and why do people frame animals so pervasively and what are the ramifications of this habit? For animals being put into a cultural frame—a film, a website, a pornographic tableau, an advertisement, a cave drawing, a zoo—means being taken out of their natural contexts, leaving them somehow displaced and decontextualized. Human vision of the animal equates to power over the animal. We envision ourselves as monarchs of all we survey, but our dismal record of polluting and destroying vast swaths of nature shows that we are indeed not masters of the ecosphere. A more ethically accurate stance in our relationship to animals should thus challenge the omnipotence of our visual access to them.

The Philosophy of the Western Jennifer L. McMahon, B. Steve Csaki, 2010-05-28 Essays about how stories of the Old West reflect and affect our beliefs and values. The solitude of the lone rider, the loyalty of his horse, and the unspoken code of the West for many Western movies embody America and its values, though the view of the country's history they present isn't always accurate. In recent years, scholars had declared the genre dead, but a steady resurgence of western themes in literature, film, and television has reestablished its importance and influence. In *The Philosophy of the Western*, editors Jennifer L. McMahon and B. Steve Csaki examine philosophical themes in the western genre. Investigating subjects of nature, ethics, identity, gender, environmentalism, and animal rights, the essays in this volume draw from a wide range of westerns, including the more recent popular and critical successes *Unforgotten*, *All the Pretty Horses*, *3:10 to Yuma*, and *No Country for Old Men*, as well as literature and television serials such as *Deadwood*. *The Philosophy of the Western* reveals the powerful role of the western in the American psyche.

Faking it Mia Fineman, National Gallery of Art (U.S.), Museum of Fine Arts, Houston, 2012 It is a long-held truism that the camera does not lie. Yet as Mia Fineman argues in this illuminating volume, that statement contains its own share of untruth. While modern technological innovations such as Adobe's Photoshop software have accustomed viewers to more obvious levels of image manipulation, the practice of doctoring photographs has in fact existed since the medium was invented. In *Faking It*, Fineman

demonstrates that today's digitally manipulated images are part of a continuum that begins with the earliest years of photography encompassing methods as diverse as overpainting multiple exposure negative retouching combination printing and photomontage Among the book's revelations are previously unknown and never before published images that document the acts of manipulation behind two canonical works of modern photography one blatantly fantastical Yves Klein's Leap into the Void of 1960 the other a purportedly unadulterated record of a real place in time Paul Strand's City Hall Park of 1915 Featuring 160 captivating pictures created between the 1840s and 1990s in the service of art politics news entertainment and commerce Faking It provides an essential counterhistory of photography as an inspired blend of fabricated truths and artful falsehoods Publisher's website *Westernwear* Sonya Abrego,2022-11-03 During the prosperous forward thinking era after the Second World War a growing number of men women and children across the United States were wearing fashions that evoked the Old West Westernwear Postwar American Fashion and Culture examines why a sartorial style with origins in 19th century agrarian traditions continued to be worn at a time when American culture sought balance between technocratic confidence in science and technology on one side and fear and anxiety over global annihilation on the other By analysing well known and rarely considered western manufacturers Westernwear revises the common perception that fashionable innovation came from the East coast and places western youth cultures squarely back in the picture The book connects the history of American working class dress with broader fashionable trends and discusses how and why Native American designs and representations of Native American people were incorporated broadly and inconsistently into the western visual vocabulary Setting westernwear firmly in context Sonya Abrego addresses the incorporation of this iconic style into postwar wardrobes and popular culture and charts the evolution of westernwear into a modern fashion phenomenon Photography, Temporality, and Modernity Kris Belden-Adams,2019-01-14 This book examines the photography's unique capacity to represent time with a degree of elasticity and abstraction Part object study part cultural philosophical history it examines the medium's ability to capture and sometimes defy time while also traveling as objects across time and space nexuses The book features studies of understudied widespread practices studio portraiture motion studies panoramas racing photo finishes composite college class pictures planetary photography digital montages and extended exposure images A closer look at these images and their unique cultural historical contexts reveals photography to be a unique medium for expressing changing perceptions of time and the anxiety its passage provokes **Remembrance of Things Present** Nick Yablon,2019-06-12 Time capsules offer unexpected insights into how people view their own time place and culture as well as their duties to future generations Remembrance of Things Present traces the birth of this device to the Gilded Age when growing urban volatility prompted doubts about how the period would be remembered or if it would be remembered at all Yablon details how diverse Americans from presidents and mayors to advocates for the rights of women blacks and workers constructed prospective memories of their present They did so by contributing not just written testimony to time capsules but
