Riveting And Rationing In Dixie Alabama Women And The Second World War:

Riveting and Rationing in Dixie Mary Martha Thomas, 1987 The first book to examine the impact of World War II on the roles of women in an individual state Covers the experience of both black and white Alabama women as defense workers volunteers and homemakers The most important change for women during the war years was their employment in jobs normally held by men which posed an implicit challenge to traditional notions about femininity and female limitations Thomas describes the women employed in the defense industries how they were recruited and trained where they worked and under what conditions and what changes employers made in the workplace to accommodate women She also discusses the experience of the women who served as volunteers in the Ground Observer Corps the Citizens Service Corps the Red Cross and other volunteer agencies In addition the author considers how homemakers coped during a time of rationing housing shortages lack of schools and inadequate medical facilities

Remaking Dixie: The Impact of World War II on the American South McMillen, Neil R., 1997

American Women during World War II Doris Weatherford, 2009-10-16 American Women during World War II documents the lives and stories of women who contributed directly to the war effort via official and semi official military organizations as well as the millions of women who worked in civilian defense industries ranging from aircraft maintenance to munitions manufacturing and much more It also illuminates how the war changed the lives of women in more traditional home front roles All women had to cope with rationing of basic household goods and most women volunteered in war related programs Other entries discuss institutional change as the war affected every aspect of life including as schools hospitals and even religion American Women during World War II provides a handy one volume collection of information and images suitable for any public or professional library

Alabama in the Twentieth Century Wayne Flynt, 2004-10-10 A native son and accomplished historian does not flinch from pointing out Alabama's failures from the past 100 years neither is he restrained in calling attention to the state's triumphs in this authoritative popular history of the past 100 years

God Bless America Kathleen E.R. Smith, 2021-10-21 After Pearl Harbor Tin Pan Alley songwriters rushed to write the Great American War Song an Over There for World War II The most popular songs however continued to be romantic ballads escapist tunes or novelty songs To remedy the situation the federal government created the National Wartime Music Committee an advisory group of the Office of War Information OWI which outlined proper war songs along with tips on how and what to write The music business also formed its own Music War Committee to promote war songs Neither group succeeded The OWI hoped that Tin Pan Alley could be converted from manufacturing love songs to manufacturing war songs just as automobile plants had retooled to assemble planes and tanks But the OWI failed to comprehend the large extent by which the war effort would be defined by advertisers and merchandisers Selling merchandise was the first priority of Tin Pan Alley and the OWI never swayed them from this course Kathleen E R Smith concludes the government's fears of faltering morale did not materialize Americans did not need such war songs as Goodbye

Mama I m Off To Yokohama There Are No Wings On a Foxhole or even The Sun Will Soon Be Setting On The Land Of The Rising Sun to convince them to support the war The crusade for a proper war song was misguided from the beginning and the music business then and now continues to make huge profits selling love not war songs Committed to Victory Richard Holl,2015-10-09 Deeply researched and clearly written a wide ranging and detailed account of Kentucky s society economy and politics during World War II John W Jeffries author of Wartime America When World War II broke out in Europe in September 1939 Kentucky was still plagued by the Great Depression Even though the inevitability of war had become increasingly apparent earlier that year the citizens of the Commonwealth continued to view foreign affairs as a lesser concern compared to issues such as the lingering economic depression the approaching planting season and the upcoming gubernatorial race It was only the Japanese attack on Pearl Harbor that destroyed any lingering illusions of peace In Committed to Victory The Kentucky Home Front During World War II author Richard Holl offers the first comprehensive examination of the Commonwealth s civilian sector during this pivotal era in the state s history National mobilization efforts rapidly created centers of war production and activity in Louisville Paducah and Richmond producing new economic prosperity in the struggling region The war effort also spurred significant societal changes including the emergence of female and minority workforces in the state In the Bluegrass this trend found its face in Pulaski County native Rose Will Monroe who was discovered as she assembled B 24 and B 29 bombers and was cast as Rosie the Riveter in films supporting the war effort Revealing the struggles and triumphs of civilians during World War II Holl illuminates the personal costs of the war the black market for rationed foods and products and even the inspiration that coach Adolph Rupp and the University of Kentucky basketball team offered to a struggling state *Now Hiring* Julia Kirk Blackwelder,1997 In *Now Hiring* historian Julia Kirk Blackwelder adroitly traces the evolution of the American occupational structure delineating the main lines of the development of the female work force and its interactions with education family life and social convention Transforming the South Matthew L. Downs,2014-12-08 Historians have long recognized the middle of the twentieth century as significant in the history of the modern South owing to a convergence of social change political realignment and cultural expansion This period in southern history has provided extensive material for scholars of race gender and politics In addition sweeping economic changes spread throughout the South permanently shifting the area s material resources *Transforming the South* examines this transition from farm to factory and explores the dramatic reshaping of the region s economy Matthew L Downs focuses on three developments in the Tennessee Valley the World War I era government nitrate plants and hydroelectric dams at Muscle Shoals Alabama the extensive work completed by the Tennessee Valley Authority and Cold War Space Age defense investment in Huntsville Alabama Downs argues that the modernization of the Sunbelt economy depended on cooperation between regional leaders and federal funders Local boosters lobbied to receive federal funds for their communities while simultaneously forming economic development organizations that would prepare those communities for

further growth Economic reform also drove social reform as members of historically disenfranchised groups attained employment in the new industrial workforce they gained financial and political capital to push for social change Transforming the South considers the role played by the recipients of government funds in the mid twentieth century and demonstrates how communities exerted an unparalleled influence over the federal investments that shaped the southern economy

Fleeting Opportunities Amy Kesselman, 2016-02-24 This book tells the story of the daily lives of women industrial workers in World War II shipyards It focuses on their struggle against the persistence of occupational segregation the sexual and racial hierarchy of the shipyard work force and the pervasive emphasis on female sexuality which served as a constant reminder that women were transient and marginal imposters In addition *Fleeting Opportunities* demonstrates that despite the myth that these women yearned to return to their kitchens in fact many wanted to continue using their wartime skills in the postwar period However finding themselves excluded from jobs by union and management those who continued to work ended up in low paying predominantly female occupations **A Companion to the American South** John B.

Boles, 2004-03-12 *A Companion to the American South* surveys and evaluates the most important and innovative writing on the entire sweep of the history of the southern United States Contains 29 original essays by leading experts in American Southern history Covers the entire sweep of Southern history including slavery politics the Civil War race relations religion and women s history Surveys and evaluates the best scholarship on every important era and topic Summarizes current debates and anticipates future concerns
