Road To Relevance:

Road to Relevance Harrison Coerver, Mary Byers, 2013-10-03 Help move your organization to greater discipline focus and value Association leaders must be disciplined strategists focusing the organizations they serve on value they can deliver and structuring accordingly to compete in the new normal Road to Relevance is the follow up and complementary companion to the bestselling Race for Relevance 5 Radical Changes for Associations which identified six challenges that forever changed the association environment and five needed changes Authors Harrison Coerver and Mary Byers CAE provide real insight into how to adapt the strategies of Road to Relevance to your organization's circumstances Clearly explaining the five key strategies the authors show you how to Identify strengths that deserve a concentration of resources Achieve a coordinated product and service portfolio Root out marginal or underperforming activities that are negatively impacting your organization Case studies adaptable examples and provocative questions help you use the insights from Road to Relevance to lead your organization to an ever more valued sustainable and relevant future Revoking the Moral Order David J.

Peterson, 1999-01-01 How did the concept of Western liberalism rooted in the notions of religious toleration and universal human rights evolve into the anything goes moral relativism of our own late twentieth century society This is the question at the heart of David Peterson's fascinating examination of the Positivist tradition one of the most far reaching philosophical movements of the past two centuries The book begins prior to the official birth of Positivism with the rise of British Empiricism under David Hume and John Locke From there Peterson shifts focus to the writings of the French free thinker Auguste Comte before moving on to the work of the late nineteenth century Vienna Circle and finally to the corpus of three seminal thinkers of the twentieth century Bertrand Russell Friedrich von Hayek and Karl Popper By weaving together contemporary social and political debates such as the rise and fall of supply side economics and the abortion controversy with their antecedents in modern intellectual history Revoking the Moral Order not only brings to life seemingly arcane philosophical texts but also provides important context for contemporary issues that sometimes seem to be without precedent This book will especially appeal to philosophers and historians and to the educated general reader seeking historical insight into the social and intellectual dilemmas of our time **Federal Evaluations** , Contains an inventory of evaluation reports produced by and for selected Federal agencies including GAO evaluation reports that relate to the programs of those agencies

Federal Program Evaluations , 1983 Contains an inventory of evaluation reports produced by and for selected Federal agencies including GAO evaluation reports that relate to the programs of those agencies Roadwork Engineering Simplified Rajendra Asan, 2025-01-03 Roadwork Engineering Simplified provides a thorough understanding of road engineering This book covers the planning and development of road construction and its impact on the economic development of various countries We delve into road construction policies traffic rules safety measures and environmental considerations alongside the latest designing methods Our investigative approach highlights the importance of different soil
