

THE ROAD TO TOKYO

A black and white photograph showing a steep, rocky hillside during a battle. Numerous soldiers are visible, some lying on the ground, others standing or moving. The scene is chaotic, with smoke or dust in the air, suggesting a recent explosion or intense fighting. The soldiers are wearing helmets and carrying equipment. The overall tone is somber and historical.

before available in print this volume of communiques brings to life the regular updates issued to a public anxious for news of the great advance across the Southwest Pacific These daily pronouncements present not only a record of the campaign but also a master class of public relations management as MacArthur attempted to portray himself as the great hero deserving of enduring fame regardless of the truth prevailing on the battlefield *Richard Tregaskis* Ray E. The Origins of World War Two Robert Boyce, Joseph A. Maiolo, 2017-03-14 No issue in modern history has been more intensively studied or subject to wider interpretation than the origins of the Second World War A conflict involving three arguably four major aggressor Powers operating simultaneously but largely separately on two continents inevitably raises complex theories and debates Each participating power has its own history and each one must take account of various influences upon the behaviour of its soldiers and statesmen His wide ranging collection of original essays each by an international expert in their field covers all aspects of the subject and highlights the controversy that continues to characterise current thinking on the origins of the war Going beyond the usual Eurocentric approach Part I examines the roles of all seven of the Great Powers including Japan and the USA as well as the parts played by several of the lesser Powers such as Czechoslovakia Poland and China Part II contains chapters which explore key themes that cannot be fully understood within the context of any single country These themes include the role of ideology propaganda intelligence armaments economics diplomacy the neutral states peace movements and the social science approach to war Written in clear jargon free prose together these essays provide a comprehensive single volume text for students and teachers and are essential reading for all with an interest in the debates surrounding the causes of World War Two *A Bibliography of Military Geography* Eugene J. Palka, 1988 This four volume document is designed to enhance scholarly research in the area of military geography and to serve as a reference tool It is anticipated that this will meet the research needs of professors and students of military science geography and history along with members of the Armed Forces government officials and planners This bibliography is organized following the accepted scheme for military geography utilizing three main categories systematic topical and

regional Volume I is a complete alphabetized list Volume II is organized systematically Volume III is organized topically and Volume IV collects regional sources Kamikaze Destroyer Jeff Veesenmeyer, 2014-06-07 Merriam Press Naval History NH3 First Edition 2014 History of the USS Hugh W Hadley DD774 which shot down more Japanese kamikaze aircraft than any other U S Navy ship during the battle for Okinawa in 1945 This new book by a relative of a crew member killed that day off Okinawa tells the story of the ship and that fateful day through the words of many of the survivors which the author interviewed This is not just a story about a ship but about the men that made that ship a legend in the annals of U S Navy history 9 appendices bibliography 112 B W photos 6 illustrations 6 maps color painting **Japanese Economic**

Development Carl Mosk, 2007-11-26 This book presents three distinct approaches to understanding how and why Japan made the transition from a relatively low income country mainly focused on agriculture to a high income nation centered on manufacturing and services Making a case for over determination in economic behaviour the authors argue that individual firm level and governmental behavior is simultaneously determined by the interaction of markets norms and structures and that change over time is rarely if ever limited to the economy operating in isolation from social norms and structures

Warriors of Legend Jay Navok, Sushil K. Rudranath, 2005 The book Warriors of Legend is one of the first of its kind using a specific Japanese anime manga series the megahit Sailor Moon to teach about Japan Neophytes to Japan studies will find Warriors of Legend an accessible way to learn about this fascinating country Those who know quite a lot about Japan already will find their understanding enhanced by the way the book analyzes the nuances of Tokyo's history and Japanese society The book also argues that Sailor Moon is a unique series in that it was both internationally popular and strongly structured by the culture of the city of Tokyo and post Economic Bubble Japan America's First Battles, 1776-1965 Charles E. Heller, William A. Stofft, 1986 This volume a collection of eleven original essays by many of the foremost U S military historians focuses on the transition of the Army from parade ground to battleground in each of nine wars the United States has fought Through careful analysis of organization training and tactical doctrine each essay seeks to explain the strengths and weaknesses evidenced by the outcome of the first significant engagement or campaign of the war The concluding essay sets out to synthesize the findings and to discover whether or not American first battles manifest a characteristic rhythm America's First Battles provides a novel and intellectually challenging view of how America has prepared for war and how operations and tactics have changed over time The thrust of the book the emphasis on operational history is at the forefront of scholarly activity in military history This book is part of the Modern War Studies series **History of U.S. Marine Corps**

With the 41st Division in the Southwest Pacific Francis B. Catanzaro, 2002-10-24 We began our advance toward the Mokmer Airstrip The road climbed a ridge 15 or 20 feet high and we found ourselves on a flat coral plateau sparsely covered by small trees and scrub growth As we moved westward along the road two of our destroyers were sailing abreast of the lead

elements of the advancing column The first indication of trouble was the roar of heavy artillery shells sailing over our heads aimed at our destroyers Shortly after that our forward movement stopped and we heard heavy firing from the head of the column As we waited we began to hear heavy fire from the rear We were cut off and surrounded In the enormous literature of the Second World War there are surprisingly few accounts of fighting in the southwest Pacific fewer still by common infantrymen This memoir written with a simple and direct honesty that is rare indeed follows a foot soldier s career from basic training to mustering out It takes the reader into the jungles and caves of New Guinea and the Philippines during the long campaign to win the war against Japan From basic training at Camp Roberts through combat occupation and the long journey home Francis Catanzaro s account tells of the excitement misery cruelty and terror of combat and of the uneasy boredom of jungle camp life A member of the famed 41st Infantry Brigade the Jungleers Catanzaro saw combat at Hollandia Biak Zamboanga and Mindanao He was a part of the Japanese occupation force and writes with feeling about living among his former enemies and of the decision to drop the atom bomb With the 41st Division in the Southwest Pacific is a powerful gritty and moving narrative of the life of a soldier during some of the most difficult fighting of World War II [The Road to Tokyo](#) Keith Wheeler, 1984 **Collections Vol 13 N2** Juilee Decker, Collections, 2017-07-06 This issue of the journal is themed with a focus on Storytelling Oral Histories Archives and Museums Articles address methods case studies and theoretical approaches taken by museum and archives professionals including librarians archivists curators technologists researchers scholars and students
