Jeffrey J. Kripal

Roads Of Excess Palaces Of Wisdom:

Roads of Excess, Palaces of Wisdom Jeffrey J. Kripal, 2001-12 William Blake once wrote that The road of excess leads to the palace of wisdom Inspired by these poetic terms Jeffrey J Kripal reveals how the works of scholars of mysticism are often rooted in their own mystical experiences roads of excess which can both lead to important insights into these scholars works and point us to our own palaces of wisdom In his new book Kripal addresses the twentieth century study of mysticism as a kind of mystical tradition in its own right with its own unique histories discourses sociological dynamics and rhetorics of secrecy Fluidly combining autobiography and biography with scholarly exploration Kripal takes us on a tour of comparative mystical thought by examining the lives and works of five major historians of mysticism Evelyn Underhill Louis Massignon R C Zaehner Agha Hanan Bharati and Elliot Wolfson as well as relating his own mystical experiences The result Kripal finds is seven palaces of wisdom the religious power of excess the necessity of distance in the study of mysticism the relationship between the mystical and art the dilemmas of male subjectivity and modern heterosexuality a call for ethical criticism the paradox of the insider outsider problem in the study of religion and the magical power of texts and their interpretation An original and penetrating analysis of modern scholarship and scholars of mysticism *Roads of Excess Palaces of Wisdom* is also a persuasive demonstration of the way this scholarly activity is itself a mystical phenomenon [Mysticism and the Margins](#) David M. Odorisio, 2025-10-29 Centering African Diasporic traditions the margins of mainstream mystical traditions and the intersection between mysticism and psychedelics the essays in this volume offer several diverse and unique contemporary approaches to the study of mysticism In a time when the word mystic or mysticism appears as often in popular and even scientific settings as it does in academic or religious discourse a critical study of these terms and traditions becomes ever more relevant This volume challenges normative notions of who counts as a mystic and questions the definitions and interpretive frames underlying the field of comparative mysticism itself This is an important text for students and scholars of comparative mysticism and those interested in what traditions texts communities rituals persons and practices have been marginalized in the development of what counts as mysticism today [Authors of the Impossible](#) Jeffrey J. Kripal, 2024-05-31 Outstanding and almost certainly controversial Kripal has promise to revitalize and extend the reach of religious studies Choice Most scholars dismiss research into the paranormal as pseudoscience a frivolous pursuit for the paranoid or gullible Even historians of religion whose work naturally attends to events beyond the realm of empirical science have shown scant interest in the subject But the history of psychical phenomena Jeffrey J Kripal contends is an untapped source of insight into the sacred and by tracing that history through the last two centuries of Western thought we can see its potential centrality to the critical study of religion Kripal grounds his study in the work of four major figures in the history of paranormal research psychical researcher Frederic Myers writer and humorist Charles Fort astronomer computer scientist and ufologist Jacques Vallee and philosopher and sociologist Bertrand Russell Through incisive analyses of these thinkers Kripal ushers the reader

into a beguiling world somewhere between fact fiction and fraud The cultural history of telepathy teleportation and UFOs a ghostly love story the occult dimensions of science fiction cold war psychic espionage galactic colonialism and the intimate relationship between consciousness and culture all come together in Authors of the Impossible a dazzling and profound look at how the paranormal bridges the sacred and the scientific An excellent book engaging witty and thoughtful Christopher Partridge Lancaster University Kripal demands nothing short of a paradigm shift in order to make sense of the odd the anomalous and the inexplicable Catherine L Albanese University of California Santa Barbara Quietly earth shattering Victoria Nelson author of The Secret Life of Puppets **Psychedelic Mysticism** Morgan Shipley, 2015-11-12 Concerned with scholarly popular and religious backdrops that understand the connection between psychedelics and mystical experiences to be devoid of moral concerns and ethical dimensions a position supported empirically by the rise of acid fascism and psychedelic cults by the late 1960s Psychedelic Mysticism Transforming Consciousness Religious Experiences and Voluntary Peasants in Postwar America traces the development of sixties psychedelic mysticism from the deconditioned mind and perennial philosophy of Aldous Huxley to the sacramental ethics of Timothy Leary Richard Alpert and Ralph Metzner to the altruistic religiosity practiced by Stephen Gaskin and The Farm Building directly off the pioneering psychedelic writing of Huxley these psychedelic mystics understood the height of psychedelic consciousness as an existential awareness of unitive oneness a position that offered worldly alternatives to the maladies associated with the postwar moment e g vapid consumerism and materialism lifeless conformity unremitting racism heightened militarism In opening a doorway to a common world Morgan Shipley locates how psychedelics challenged the coherency of Western modernity by fundamentally reorienting postwar society away from neoliberal ideologies and toward a sacred understanding of reality defined by mutual coexistence and responsible interdependence In 1960s America psychedelics catalyzed a religious awakening defined by compassion expressed through altruism and actualized in projects that sought to ameliorate the conditions of the least advantaged among us In the exact moments that historians and cultural critics often locate as signaling the death knell of the counterculture Gaskin and The Farm emerged not as a response to the perceived failures of the hippies nor as an alternative to sixties politicians but in an effort to fulfill the religious obligation to help teach the world how to live more harmoniously Today as we continue to confront issues of socioeconomic inequality entrenched differences widespread violence and the limits of religious pluralism Psychedelic Mysticism serves as a timely reminder of how religion in America can operate as a tool for destabilization and as a means to actively reimagine the very basis of how people relate such a legacy can aid in our own efforts to build a more peaceful sustainable and compassionate world *Who Owns Religion?* Laurie L. Patton, 2019-11-27 Who Owns Religion focuses on a period the late 1980s through the 1990s when scholars of religion were accused of scandalizing or denigrating the very communities they had imagined themselves honoring through their work While controversies involving scholarly claims about religion are nothing new this period saw an increase in vitriol that

remains with us today Authors of seemingly arcane studies on subjects like the origins of the idea of Mother Earth or the sexual dynamics of mysticism have been targets of hate mail and book banning campaigns As a result scholars of religion have struggled to describe their own work to their various publics and even to themselves Taking the reader through several compelling case studies Patton identifies two trends of the 80s and 90s that fueled that rise the growth of multicultural identity politics which enabled a form of volatile public debate she terms eruptive public space and the advent of the internet which offered new ways for religious groups to read scholarship and respond publicly These controversies she shows were also fundamentally about something new the very rights of secular Western scholarship to interpret religions at all Patton's book holds out hope that scholars can find a space for their work between the university and the communities they study Scholars of religion she argues have multiple masters and must move between them while writing histories and speaking about realities that not everyone may be interested in hearing

Identity and the Politics of

Scholarship in the Study of Religion Jose Cabezon, Sheila Greeve Davaney, 2004-12-15 The relationship of a scholar's identity to the scholarship he or she produces is a central concern in the academy and this volume is the first attempt to

approach the special problems it presents for religious studies **The Eloquent Blood** Manon Hedenborg White, 2020 The Eloquent Blood focuses on the changing construction of femininity and feminine sexuality in interpretations of the goddess Babalon A central deity in Thelema the religion founded by the notorious British occultist Aleister Crowley 1875 1947 Babalon is based on Crowley's favorable reinterpretation of the biblical Whore of Babylon and is associated with liberated female sexuality and the spiritual ideal of passionate union with existence Combining research on historical and contemporary Western esotericism with feminist and queer theory the book sheds light on the ways in which esoteric movements and systems of thought have developed over time in relation to political movements *Savoring God* Gloria Maité Hernández, 2021 Savoring God is a comparative study featuring the Christian Cantico espiritual Spiritual Canticle by the sixteenth century Spanish poet and theologian Saint John of the Cross and the Hindu Sanskrit Rasa Lalita Dance of Love which originated in the oral tradition The poems are examined alongside theological commentaries The comparisons examine the interactions between poetical language and theological discourse Women and Interreligious Dialogue Catherine Cornille, Jillian Maxey, 2013-09-26 Though women have been objects more often than subjects of interreligious dialogue they have nevertheless contributed in significant ways to the dialogue just as the dialogue has also contributed to their own self understanding This volume the fifth in the Interreligious Dialogue Series brings together historical critical and constructive approaches to the role of women in the dialogue between religions These approaches deal with concrete examples of women's involvement in dialogue critical reflections on the representation of women in dialogue and the important question of what women might bring to the dialogue Together they open up new avenues for reflection on the nature and purpose of interreligious dialogue
