Gutfreund, 2004-05-01 Here Owen Gutfreund offers a fascinating look at how highways have dramatically transformed American communities nationwide aiding growth and development in unsettled areas and undermining existing urban centers Gutfreund uses a follow the money approach showing how government policies subsidized suburban development and fueled a chronic nationwide dependence on cars and roadbuilding with little regard for expense efficiency ecological damage or social equity The consequence was a combination of unstoppable suburban sprawl along with ballooning municipal debt burdens deteriorating center cities and profound changes in American society and culture Gutfreund tells the story via case studies of three communities Denver Colorado Middlebury Vermont and Smyrna Tennessee Different as these places are they all show the ways that government sponsored highway development radically transformed America's cities and towns Based on original research and vividly written *Twentieth Century Sprawl* brings to light the benefits and consequences of the spread of American highways and makes a major contribution to our understanding of issues that still plague our cities and suburbs today *Vermont Life*, 1988 **Wines of Vermont: A History of Pioneer Fermentation** Todd Trzaskos, 2015-09-14 Vermont's extreme climate may not seem ideal for wine production but industry pioneers are proving otherwise For nearly half a century local winemakers developed distinctive fermentation techniques and adopted select crops to withstand icy winters In 1970 Frank Jedlicka used traditional recipes to make wine with apples maple and honey North River and Grand View followed with other orchard and berry fruits Harrison Lebowitz planted French hybrid

grapes on a Lake Champlain island in the 1990s and soon Vermont hosted some of America's first true cold climate vineyards. Fresh tastes and resurrected flavors now symbolize the Green Mountain State's ripening wine industry. Todd Trzaskos reveals Vermont's identity as an innovative and maturing wine producer. Managing the Mountains Sara M. Gregg, 2010-11-23. Historians have long viewed the massive reshaping of the American landscape during the New Deal era as unprecedented. This book uncovers the early twentieth century history rich with precedents for the New Deal in forest park and agricultural policy. Sara M. Gregg explores the redevelopment of the Appalachian Mountains from the 1910s through the 1930s, finding in this region a changing paradigm of land use planning that laid the groundwork for the national New Deal. Through an intensive analysis of federal planning in Virginia and Vermont, Gregg contextualizes the expansion of the federal government through land use planning and highlights the deep intellectual roots of federal conservation policy. **The View from Vermont** Blake A. Harrison, 2006. With its small native population, proximity to major metropolitan areas, and bucolic rural beauty, Vermont was fated to be a tourist mecca, forever associated in the popular imagination with maple syrup, fall colors, and ski bunnies. Tourism, for good and ill, has always been the decisive factor in the conception of rural Vermont. What is surprising, however, is the degree to which we have accepted this notion of rural Vermont as a somehow timeless entity. Blake Harrison's rich and rewarding study instead presents the construction of Vermont's landscape as a complex and ever-changing dynamic, informed by progressive, modernist, and reformist thought, competing views of economic expansion, rural and urban prejudice, and social exclusion, and more recently by land use planning and environmentalism. This broad-based study includes the early history of Vermont tourism, the concomitant abandonment of farms with the rise of the summer home, the creation of an unspoiled Vermont from billboards, at least the impact of Vermont's ski industry on tradition-bound tourism, and later efforts to legislate growth and protect an increasingly static ideal of a rural Vermont. While grounded within a specific Vermont view, Harrison has much to contribute to broader studies of rural places, tourism, and landscapes in American culture. His analysis of how physical landscapes affect and are affected by our imagined landscape and the insight afforded by his juxtaposition of leisure and labor will deeply inform our understanding of rural tourist landscapes for years to come. This is a truly interdisciplinary work that will satisfy and challenge historians and geographers alike. Vermont, an Explorer's Guide Christina Tree, Peter S. Jennison, 1990. From the Connecticut River valley to the shores of Lake Champlain to the peaks of the Green Mountains, this guide goes beyond Ben & Jerry's and the popular tourist destinations to include places that are off the beaten path. **Real Democracy** Frank M. Bryan, 2010-03-15. Relying on an astounding collection of more than three decades of firsthand research, Frank M. Bryan examines one of the purest forms of American democracy: the New England town meeting. At these meetings, usually held once a year, all eligible citizens of the town may become legislators; they meet in face-to-face assemblies, debate the issues on the agenda, and vote on them. And although these meetings are natural laboratories for democracy, very few scholars have systematically investigated them. A nationally recognized expert on

this topic Bryan has now done just that Studying 1 500 town meetings in his home state of Vermont he and his students recorded a staggering amount of data about them 238 603 acts of participation by 63 140 citizens in 210 different towns Drawing on this evidence as well as on evocative witness accounts from casual observers to no lesser a light than Aleksandr Solzhenitsyn Bryan paints a vivid picture of how real democracy works Among the many fascinating questions he explores why attendance varies sharply with town size how citizens resolve conflicts in open forums and how men and women behave differently in town meetings In the end Bryan interprets this brand of local government to find evidence for its considerable staying power as the most authentic and meaningful form of direct democracy Giving us a rare glimpse into how democracy works in the real world Bryan presents here an unorthodox and definitive book on this most cherished of American institutions **History of Royalton, Vermont** Mary Evelyn Wood Lovejoy,1911 **Vermont Magazine** ,1993
