Robert Altman Incribed:

The Cinema of Robert Altman Robert Niemi, 2016-03-01 In a controversial and tumultuous filmmaking career that spanned nearly fifty years Robert Altman mocked subverted or otherwise refashioned Hollywood narrative and genre conventions Altman's idiosyncratic vision and propensity for formal experimentation resulted in an uneven body of work some rank failures and intriguing near misses as well as a number of great films that are among the most influential works of New American Cinema While Altman always professed to have nothing authoritative to say about the state of contemporary society this volume surveys all of his major films in their sociohistorical context to reposition the director as a trenchant satirist and social critic of postmodern America depicted as a lonely wasteland of fraudulent spectacle exploitative social relations and unfulfilled solitaires in search of elusive community

Transitional Justice and the Politics of Inscription Joseph Robinson, 2017-08-04 Taking Northern Ireland as its primary case study this book applies the burgeoning literature in memory studies to the primary question of transitional justice how shall societies and individuals reckon with a traumatic past Joseph Robinson argues that without understanding how memory shapes moulds and frames narratives of the past in the minds of communities and individuals theorists and practitioners may not be able to fully appreciate the complex emotive realities of transitional political landscapes Drawing on interviews with what the author terms memory curators coupled with a robust analysis of secondary literature from a range of transitional cases the book analyses how the bodies of the dead the injured and the traumatised are written into or written out of transitional justice The author argues that scholars cannot appreciate the dynamism of transitional memory space unless they first engage with the often silenced or marginalised voices whose memories remain trapped behind the antagonistic politics of fear and division Ultimately challenging the imperative of national reconciliation the author argues for a politics of public memory that incubates at multiple nodes of social production and can facilitate a vibrant democratic debate over the ways in which a traumatic past can or should be remembered

Robert Altman's Soundtracks Gayle Sherwood Magee, 2014-10-01 American director Robert Altman 1925-2006 first came to national attention with the surprise blockbuster *MASH* 1970 and he directed more than thirty feature films in the subsequent decades Critics and scholars have noted that music is central to Altman's films and in addition to his feature films Altman worked in theater opera and the emerging field of cable television His treatment of sound is a hallmark of his films alongside overlapping dialogue improvisation and large ensemble casts Several of his best known films integrate musical performances into the central plot including *Nashville* 1975 *Popeye* 1980 *Short Cuts* 1993 *Kansas City* 1996 *The Company* 2003 and *A Prairie Home Companion* 2006 his final film Even such non-musicals as *McCabe and Mrs Miller* 1971 have been described as in fellow director and protégé Paul Thomas Anderson's evocative phrase as musicals without people singing Robert Altman's *Soundtracks* considers Altman's celebrated innovative uses of music and sound in several of his most acclaimed and lesser known works In so doing these case studies serve as a window not only into Altman's considerable and

varied output but also the changing film industry over nearly four decades from the heyday of the New Hollywood in the late 1960s through the Indiewood boom of the 1990s and its bust in the early 2000s. As its frame, the book considers the continuing attractions of auteurism inside and outside of scholarly discourse by considering Altman's career in terms of the director's own self-promotion as a visionary and artist, the film industry's promotion of Altman the auteur, the emphasis on Altman's individual style including his use of music by the director, critics, scholars, and within the industry, and the processes, tensions, and boundaries of collaboration.

Robert Altman's Subliminal Reality Robert T. Self, 2002. With his complex and unconventional films, Robert Altman often draws an impassioned response from critics but bafflement and indifference from the general public. Some audiences have dismissed his movies as insignificant, unsatisfying, and unreadable. Ironically, Altman might agree he makes films in order to challenge filmgoers' expectations of straightforward narratives and easily understood endings. In *Robert Altman's Subliminal Reality*, Robert T. Self sheds light on Altman's work and provides the most comprehensive analysis of his films to date. With close readings of classics like *MASH*, *McCabe*, *Mrs. Miller*, and *Nashville*, as well as the more recent films *The Player*, *Short Cuts*, and *Cookie's Fortune*, Self asserts the value of Altman's work not only to film theory and the entertainment industry but to American culture. Book jacket.

Robert Altman's America Helene Keyssar, 1991. Robert Altman is the most quintessentially American of contemporary directors. His films cut across virtually all genres, and though few have met with huge commercial success apart from the blockbuster *MASH*, Altman's unique vision of our society, his distinctive directorial signature, and his defiance of conventional film language have all helped reinvent the way we look at America. Keyssar shows why it is time for us to consider this unusual auteur among the pantheon of great directors. She identifies the peculiarities of the Altman style, discusses his films from both a feminist and political perspective, and offers a chapter-length discussion of one of his most important films, *Nashville* (1975), a gleeful vision of an American landscape perpetually exploding upon itself. From publisher description.

Archive Activism Charles Francis, 2023-09-15. *Archive Activism* is a memoir of activism rooted in a new way to converse with history by rescuing it. Archive activists discover documents and other important materials often classified, gone missing, or sealed that somehow escaped the fireplace or shredder. It is an approach to LGBTQ advocacy and policy activism based on citizen archiving and original archival research to effect social change. Research Activism is the formula growing out of Charles Francis's personal story as a gay Texan born and raised during the 1950s and 1960s in Dallas. The rescues range in time and place from Francis's first encounter with a raucous, near-violent religious demonstration in Fort Worth to attics loaded with forgotten historic treasures of LGBTQ pioneers. *Archive Activism* tells how Francis helped Governor George W. Bush achieve his dream of becoming president in 2000 by reaching out to gay and lesbian supporters, the first time a Republican candidate for president formally met with gay and lesbian Americans. This inspired Francis to engage with deleted LGBTQ history by forming a historical society with an edge, a new Mattachine Society of Washington, DC. For the first time, *Archive Activism* reveals how LGBTQ

secrets were held for decades at the LBJ Presidential Library in the papers of President Johnson's personal secretary sealed until her death at age 105 Mattachine's signature discovery is a federal attorney's classified assault blandly filed under Suitability at the National Archives What it boils down to is that most men look upon homosexuality as something uniquely nasty Archive Activism is a not only a memoir but also an essential roadmap for activists from any group armed only with their library cards

Playful Frames Steven Rybin, 2023-10-13 A widescreen frame in cinema beckons the eye to playfully creatively roam Such technology also gives inventive filmmakers room to disrupt and redirect audience expectations surprising viewers through the use of a wider more expansive screen Playful Frames Styles of Widescreen Cinema studies the poetics of the auteur driven widescreen image offering nimble expansive analyses of the work of four distinctive filmmakers Jean Negulesco Blake Edwards Robert Altman and John Carpenter who creatively inhabited the nooks and crannies of widescreen moviemaking during the final decades of the twentieth century Exploring the relationship between aspect ratio and subject matter Playful Frames shows how directors make puckish use of widescreen technology All four of these distinctive filmmakers reimagined popular genres such as melodrama slapstick comedy film noir science fiction and horror cinema through their use of the wide frame and each brings a range of intermedial interests painting performance and music to their use of the widescreen image This study looks specifically at the technological underpinnings aesthetic shapes and interpretive implications of these four directors creative use of widescreen offering a way to reconsider the way wide imagery still has the potential to amaze and move us today
