Aleksandar Saša Dundjerović, Aleksandar Saša Dundjerović, 2007-08-24 Since the 1980s, multimedia and new technologies have had a great impact on theatre, allowing performance to establish its own language of communication with the audience independent of the written text. Robert Lepage is one of the pioneers and main exponents of mixed-media performance, internationally renowned for a notoriously distinct aesthetic. Aleksandar Dundjerović, in the first book to explore Lepage's practical work, offers a comprehensive analysis of his creative process, his transformative *mise en scène*.

His company *Ex Machina* has toured to international acclaim, and he has lent his talents to areas as diverse as opera, film, solo performance, and installation art. His most celebrated work blends acute personal narratives with bold global themes through collaborative and multimedia theatricality. This book is the first to combine an overview of the key phases in Lepage's life and career, an examination of the issues and questions pertinent to his work, a discussion of *The Dragon's Trilogy* as a paradigm of his working methods, a variety of practical exercises designed to give an insight into Lepage's creative process, as a first step towards critical understanding and as an initial exploration before going on to further primary research. Routledge Performance Practitioners are of unbeatable value for today's student.

Robert Lepage / Ex Machina James Reynolds, 2019-02-07 Robert Lepage Ex Machina Revolutions in Theatrical Space provides an ideal introduction to one of our most innovative companies and a much needed and timely reappraisal of Lepage's oeuvre International interdisciplinary and intercultural to the core Ex Machina have negotiated some of the most complex creative and cultural challenges of our time This book maps the story of that journey by analysing the full spectrum of their richly varied work Through a comprehensive historiography of productions since 1994 Robert Lepage Ex Machina offers a detailed picture of the relationship between director and company while connecting Ex Machina to culturally specific features of Quebec and its theatre This book reveals for the first time how overlooked aspects of creativity and culture shaped the company's early work while installing a dynamic interplay between director and company that would spark a unique and ongoing evolution of praxis Central to this re-evaluation of practice is the book's identification of an architectural aesthetic at the heart of Ex Machina's work an aesthetic which provides its artistic and political centres of gravity Moreover this architectural aesthetic powers the emergence of concrete narrative as a new and distinctive mode of theatrical storytelling uniting story and space body and technology content and form and demanding that we discover the politics of these performances in the energetic gestures of theatre design and space itself Drawing on extensive interviews with Lepage Ex Machina personnel and collaborative partners Robert Lepage Ex Machina calls upon us to revise both our creative and critical perceptions of this vital and distinctive practice **Robert Lepage's original stage productions** Karen

Fricker, 2020-07-28 This book explores the development of Robert Lepage's distinctive approach to stage direction in the early 1984 1994 and middle 1995 2008 stages of his career arguing that globalisation had a defining effect on shaping his aesthetic and his professional trajectory In addition to globalisation theory the book draws on cinema studies queer theory and theories of affect and reception Each of six chapters treats a particular aspect of globalisation using this as a means to explore one or more of Lepage's productions Productions discussed include The Dragon's Trilogy Needles and Opium and The Far Side of the Moon Making theatre global Robert Lepage's original stage productions will be of interest to scholars of contemporary theatre advanced level undergraduates and arts lovers keen for new perspectives on one of the most talked about theatre artists of the early 21st century **Robert Lepage's Scenographic Dramaturgy** Melissa Poll, 2018-07-10

This book theorizes auteur Robert Lepage's scenography based approach to adapting canonical texts Lepage's technique is defined here as scenographic dramaturgy a process and product that de-privileges dramatic text and relies instead on evocative visual performance and intercultural collaboration to re-envision extant plays and operas Following a detailed analysis of Lepage's adaptive process and its place in the continuum of scenic writing and auteur theatre this book features four case studies charting the role of Lepage's scenographic dramaturgy in re-writing extant texts including Shakespeare's

Tempest on Huron Wendat territory Stravinsky's Nightingale in a twenty seven ton pool and Wagner's Ring cycle via the infamous sixteen million dollar Metropolitan Opera production The final case study offers the first interrogation of Lepage's twenty first century auto adaptations of his own seminal texts The Dragons Trilogy and Needles Opium Though aimed at academic readers this book will also appeal to practitioners given its focus on performance making adaptation and intercultural collaboration

The Cinema of Robert Lepage Aleksandar Dundjerovich, 2003 The Cinema of Robert Lepage is the first critical study of one of the most striking artists of Quebecois and Canadian independent filmmaking The book examines Lepage's creative methods of filmmaking in their cultural and social context and argues that his work cannot be seen separately from his oeuvre as a multidisciplinary artist and challenges the notions that Lepage should be considered only in the terms of Quebecois film tradition The author explores such themes with Lepage in a new exclusive and detailed interview

Intermediality and Spectatorship in the Theatre Work of Robert Lepage Aristita I. Albacan, 2016-09-23 Robert Lepage has imposed himself in the past three decades as a Wunderkind of contemporary theatre with eagerly awaited and widely acclaimed productions at the most prestigious theatre festivals and venues around the world Soon after his international breakthrough with The Dragon's Trilogy 1984 Lepage's work became an object of particular scrutiny for critics and scholars and continues to be subject to media exposure inspiring cultural critique academic study and the admiration of audiences across the world A recurrent fascination with the formal novelty of his theatrical approach imbues most if not all critical considerations However in spite of the wide interest provoked little space has been devoted to the quintessential impact of his work on spectatorship and most importantly to connecting the dots between his creative practice and its substantial impact on audiences Intermediality and Spectatorship in the Theatre Work of Robert Lepage bridges this gap by exploring the notion that intermediality observed both as a mise en scene strategy and a perceptual effect in performance is situated at the core of the director's approach This approach is situated in direct relation to the evolving expectations and medial competencies of spectators demonstrating an in depth understanding of the ways in which different media can be engaged in the creative process in a holistic way in order to alter the regime of spectatorship to enhance its creative and cognitive potential Lepage's work and theatre making process are analysed here from an interdisciplinary perspective that combines theatre media and cultural studies and which is applied to his solo shows namely Vinci 1986 Needles and Opium 1991 Elsinore 1995 Far Side of the Moon 2000 and Project Andersen 2005 In bringing to the forefront interconnecting notions of intermediality and contemporary spectatorship the book highlights the director's preoccupation with an ongoing dialogue with audiences across the world and their particular involvement in the development of one of the most innovative practices of the Western theatre landscape

Directors/Directing Maria Shevtsova, Christopher Innes, 2009-04-09 In this book nine leading international theatre directors discuss their work and careers providing fascinating insight into their approaches and creative relationships with actors Each conversation is framed by an introduction to the work of the director

Nationalism Kiki Gounaridou, 2005-05-05 When a nation wants to reconnect with a sense of national identity its cultural celebrations including its theatre are often tinged with nostalgia for a cultural high point in its history Leaders often try to create a neo classical cultural identity Artificially returning to an imagined pinnacle however can fail to take into account new aspects of national identity such as the infusion of other cultures and languages This collection of essays discusses the relationship between political power and the construction or subversion of cultural identity The collection takes a wide historical perspective from distinct periods and cultures from all over the world A few of the topics examined include how theatre in 18th century Poland tried to reconstitute the identity of an imagined classical heritage clung to by Polish nobles how festival practices during the French Revolution tried to give meaning to recent events and rein in anxiety about split loyalties how Athenian prologues cemented early American culture how romantic admiration of peasant culture spread from Germany throughout Europe how Greek tragedy in postwar Japan reflects the conflict of Japan s imposed identity as a Western style democracy with its prewar identity as a samurai nation and how Mexican archeological performance links the indigenous past with a post revolutionary identity as a mixed race country **Direction** Simon Shepherd, 2012-12-17 Is

directing an art Do directors need to be trained What do directors actually do These questions and more are answered in this accessibly written survey of the art of theatre direction Its broad scope ranges across the theatres of both America and Europe looking at practices from Stanislavski up to the present day **Shakespeare in Succession** Michael

Saenger, Sergio Costola, 2023-02-15 It may certainly be said that nothing can be assumed about Shakespeare on the one hand the Elizabethan poet seems to be thriving with more editions productions studies and translations appearing every year on the other hand in a time of global crisis and decolonization the question of why Shakespeare is relevant at all is now more pertinent than ever Shakespeare in Succession approaches the question of relevance by positioning Shakespeare as a

participant as well as an object of adaptive translation a labour that has always mediated between the foreign and the domestic between the past and the present between the arcane and the urgent The volume situates Shakespeare on a continuum of transfers that can be understood from cultural spatial temporal or linguistic points of view by studying how the text of Shakespeare is transformed into other languages and examining Shakespeare himself as a kind of translator of previous times older stories and prior theatrical and linguistic systems Contending with the poet s contemporary fate Shakespeare in Succession asks how Shakespeare s work can be offered to the multicultural present in which we live and how we might relate our position to that of the iconic writer
