Huo,2020-11-07 This book offers new understanding of the implications of pluralism and of transnational movements to higher education and the construct of a native speaker within contemporary globalization processes Theoretically it calls for a revisioned English as an International Language EIL pedagogy and a wider acceptance of EIL and of World Englishes It challenges the postsecondary education sector to change the discourse around language proficiency to one that engages the pluralism of English As for the applied significance the book contributes to the work on neo racism which means racism goes beyond color to stereotypic foreign cultures nationalities and exotic accents based on cultural distinctions instead of merely skin differences The book contributes to higher education policy and practice pushing a revisioning of ESL in conceptual and pedagogical ways such as designing more culturally oriented curriculum implementing culturally responsive pedagogy and valuing the teaching proficiency more than the language proficiency *Through White Noise* Khalida Tanvir

Syed,2012-10-17 *Through White Noise* is structured around poetry and personal stories about living in liminal space that requires and encourages cultural sensitivity awareness and commitment for a just society A prominent theme in this book is the challenge of reconciling the ideal of Canadian multiculturalism with experiences of marginalization and stereotyping Before her arrival Khalida imagined her new homeland as a multicultural rainbow arched over a diversity of races beliefs and practices Entering Winnipeg in the middle of winter she was greeted with a white world white people white snow covered ground white trees and a pale blue sky Jon is a Caucasian professor from England who has a privileged position as an academic citizen He felt responsible for enhancing his students awareness of their perceptions and the role they have in their teaching practices Reena is a South Asian professor living in Quebec whose voice is combined with other educators as they address different racisms The book inspires readers to embrace teaching and learning relationships that respect the dynamic spaces we live in locally and globally Photo collage by Ray Dirks Director Mennonite Heritage Centre Gallery Winnipeg

Immigration and Settlement Harald Bauder,2012 *Immigration and Settlement Challenges Experiences and Opportunities* draws on a selection of papers that were presented at the international Migration and the Global City conference at Ryerson University Toronto in October of 2010 Through the use of international and Canadian perspectives this book examines the contemporary challenges experiences and opportunities of immigration and settlement in global Canadian and Torontonion contexts In seventeen comprehensive chapters this text approaches immigration and settlement from various thematic angles including rights state and citizenship immigrants as labour communities and identities housing and residential contexts and

emerging opportunities Immigration and Settlement will be of interest to academics researchers and students policy makers NGOs and settlement practitioners and activists and community organizers

Cultivating Social Justice Teachers Paul C. Gorski, Nana Osei-Kofi, Jeff Sapp, Kristien Zenkov, 2023-07-03

Frustrated by the challenge of opening teacher education students to a genuine understanding of the social justice concepts vital for creating an equitable learning environment Do your students ever resist accepting that lesbian gay bisexual transgender or queer people experience bias or oppression or that their experiences even belong in a conversation about diversity multiculturalism or social justice Recognizing these are common experiences for teacher educators the contributors to this book present their struggles and achievements in developing approaches that have successfully guided students to complex understandings of such threshold concepts as White privilege homophobia and heteronormativity overcoming the bottlenecks that impede progress toward bigger learning goals and understandings The authors initiate a conversation one largely absent in the social justice education literature and the discourse about the common content and pedagogy related challenges that social justice educators face in their work particularly for those doing this work in relative or literal isolation where collegial understanding cannot be found down the hall or around the corner In doing so they hope not only to help individual teachers in their practice but also strengthen social justice teacher education more systemically Each contributor identifies a learning bottleneck related to one or two specific threshold concepts that they have struggled to help their students learn Each chapter is a narrative about individual efforts toward sometimes profound pedagogical adjustment about ambiguity and cognitive dissonance and resistance about trial and error and about how these educators found ways to facilitate foundational social justice learning among a diversity of education students Although this is not intended to be a how to manual or to provide five easy steps to enable straight students to get heteronormativity each chapter does describe practical strategies that teachers might adapt as part of their own practice
