

Seeing Through Photographs

Alex Neill, Aaron Ridley

Seeing Through Photographs:

Seeing Through Photographs Michael Hiley, 1983 **Philosophy of Film and Motion Pictures** Noël Carroll, Jinhee Choi, 2009-02-09 Designed for classroom use this authoritative anthology presents key selections from the best contemporary work in philosophy of film. The featured essays have been specially chosen for their clarity, philosophical depth, and consonance with the current movement towards cognitive film theory. Eight sections with introductions cover topics such as the nature of film, film as art, documentary cinema, narration and emotion in film, film criticism, and film's relation to knowledge and morality. Issues addressed include the objectivity of documentary films, fear of movie monsters, and moral questions surrounding the viewing of pornography. Replete with examples and discussion of moving pictures throughout. On Photography Diarmuid Costello, 2017-09-22 What is photography? Is it a source of knowledge or an art? Many have said the former because it records the world automatically; others the latter because it expresses human subjectivity. Can photography be both or must we choose? In *On Photography: A Philosophical Inquiry* Diarmuid Costello examines these fascinating questions and more, drawing on images by Alfred Stieglitz, Berenice Abbott, Paul Strand, Lee Friedlander, James Welling, and Wolfgang Tillmans, among others, and the writings of Elizabeth Eastlake, Peter Henry Emerson, Edward Weston, Siegfried Kracauer, André Bazin, and Stanley Cavell. This sets the scene for the contemporary stand-off between sceptical and non-sceptical Orthodoxy in the work of Roger Scruton and Kendall Walton, and a New Theory of Photography taking its cue from László Moholy-Nagy and Patrick Maynard. Written in a clear and engaging style, *On Photography* is essential reading for anyone interested in the philosophy of photography, aesthetics, art, and visual studies. **Marvelous Images** Kendall Walton, 2008-04-23 The twelve essays by Kendall Walton in this volume address a broad range of theoretical issues concerning the arts. Many of them apply to the arts generally, to literature, theater, film, music, and the visual arts, but several focus primarily on pictorial representation or photography. In *How Marvelous: Toward a Theory of Aesthetic Value*, Walton introduces an innovative account of aesthetic value, and in this and other essays he explores relations between aesthetic value and values of other kinds, especially moral values. Two of the essays take on what has come to be called imaginative resistance, a cluster of puzzles that arise when works of fiction ask us to imagine or to accept as true in a fiction moral propositions that we find reprehensible in real life. *Transparent Pictures*: Walton's classic and controversial account of what is special about photographic pictures is included, along with a new essay on a curious but rarely noticed feature of photographs and other still pictures: the fact that a depiction of a momentary state of an object in motion allows viewers to observe that state in imagination for an extended period of time. Two older essays round out the collection: another classic, *Categories of Art*, and a less well-known essay, *Style and the Products and Processes of Art*, which examines the role of appreciators' impressions of how a work of art came about in understanding and appreciation. None of the reprinted essays is abridged, and new postscripts have been added to several of them. **Arguing About Art** Alex Neill, Aaron Ridley, 2013-02-01 Offering a unique debate format, the third edition of the

bestselling *Arguing About Art* is ideal for newcomers to aesthetics or philosophy of art. This lively collection presents an extensive range of short clear introductions to each of the discussions which include sentimentality appreciation interpretation understanding objectivity nature food horror. With revised introductions updated suggestions for further reading and new sections on pornography and societies without art *Arguing About Art* provides a stimulating and accessible anthology suitable for those coming to aesthetics for the first time. The book will also appeal to students of art history literature and cultural studies.

A Philosophy of Cinematic Art Berys Gaut, 2010-01-14 A wide ranging and accessible study of cinema as an art form discussing traditional photographic films digital cinema and videogames.

Aesthetics David Goldblatt, Lee B. Brown, 2016-09-16 As with previous editions the new *Aesthetics: A Reader in Philosophy of the Arts* uses classic and contemporary readings of leading philosophers of the arts. This Third Edition includes more than a dozen new essays either written or adapted especially for this volume. Containing more than 90 essays in total the new edition offers generous choices for class readings thus minimizing supplementary material needed for required assignments and independent research. In keeping with earlier editions the Third Edition is a large collection of essays most comparatively brief and organized first by groupings of art forms and then by general essays about the arts. It attempts to keep pace with theorizing about those art forms not traditionally covered in most books on aesthetics like the jazz rock comics video games and even the aesthetics of junkyards. There is then an emphasis on the popular and mass arts and everyday aesthetics as well as on time honored problems in philosophy of the arts. This edition which contains contributions by both analytic and continental philosophers expands upon offerings in non Western art and aesthetics. Finally although intended to keep pace with topics and issues currently debated instructors and students will find in a special section key classic texts.

The Visual Turn Angela Dalle Vacche, 2003 This collection of essays demonstrates the usefulness of looking at cinema with the analytical methods provided by art theory. The Visual Turn is a dialogue between art historians and film theorists from the silent period to the aftermath of World War II.

Aesthetics and Film Katherine Thomson-Jones, 2008-10-23 *Aesthetics and Film* is a philosophical study of the art of film. Its motivation is the recent surge of interest among analytic philosophers in the philosophical implications of central issues in film theory and the application of general issues in aesthetics to the specific case of film. Of particular interest are questions concerning the distinctive representational capacities of film art particularly in relation to realism and narration the influence of the literary paradigm in understanding film authorship and interpretation and our imaginative and affective engagement with film. For all of these questions Katherine Thomson Jones critically compares the most compelling answers driving home key points with a wide range of film examples including Wiene's *The Cabinet of Doctor Caligari* Eisenstein's *October* Hitchcock's *Rear Window* Kubrick's *The Shining* and Sluizer's *The Vanishing*. Students and scholars of aesthetics and cinema will find this an illuminating accessible and highly enjoyable investigation into the nature and power of a technologically evolving art form.
