New Essays on Diderot James E. Fowler, 2011

The great eighteenth century French thinker Denis Diderot 1713 1784 once compared himself to a weathervane by which he meant that his mind was in constant motion In an extraordinarily diverse career he produced novels plays art criticism works of philosophy and poetics and also reflected on music and opera Perhaps most famously he ensured the publication of the Encyclop die which has often been credited with hastening the onset of the French Revolution Known as one of the three greatest philosophes of the Enlightenment Diderot rejected the Christian ideas in which he had been raised Instead he became an atheist and a determinist His radical questioning of received ideas and established religion led to a brief imprisonment and for that reason no doubt some of his subsequent works were written for posterity This collection of essays celebrates the life and work of this extraordinary figure as we approach the tercentenary of his birth
