Camus at Combat Albert Camus, 2023-11-14 Paris is firing all its ammunition into the August night Against a vast backdrop of water and stone on both sides of a river awash with history freedom's barricades are once again being erected Once again justice must be redeemed with men's blood Albert Camus 1913 1960 wrote these words in August 1944 as Paris was being liberated from German occupation Although best known for his novels including The Stranger and The Plague it was his vivid descriptions of the horrors of the occupation and his passionate defense of freedom that in fact launched his public fame Now for the first time in English Camus at Combat presents all of Camus World War II resistance and early postwar writings published in Combat the resistance newspaper where he served as editor in chief and editorial writer between 1944 and 1947 These 165 articles and editorials show how Camus thinking evolved from support of a revolutionary transformation of postwar society to a wariness of the radical left

alongside his longstanding strident opposition to the reactionary right These are poignant depictions of issues ranging from the liberation deportation justice for collaborators the return of POWs and food and housing shortages to the postwar role of international institutions colonial injustices and the situation of a free press in democracies The ideas that shaped the vision of this Nobel prize winning novelist and essayist are on abundant display More than half a century after the publication of these writings they have lost none of their force They still speak to us about freedom justice truth and democracy

Dynasties David S. Landes, 2007-09-25 From the author of the New York Times bestseller *The Wealth and Poverty of Nations* a fascinating look at the crossroads of kin and coin David S Landes has earned a reputation as a brilliant writer and iconoclast among economic historians In his latest acclaimed work he takes a revealing look at the quality that distinguishes a third of today's Fortune 500 companies family ownership From the banking fortunes of Rothschild and Morgan to the automobile empires of Ford and Toyota Landes explores thirteen different dynasties revealing what lay behind their successes and how extravagance bad behavior and poor enterprise brought some of them to their knees A colorful history that is full of surprising conclusions *Dynasties* is an engrossing mix of ambition eccentricity and wealth *Automotive Empire* Andrew Denning, 2024-07-15 Winner of the 2025 Nicolas Joseph Cugnot Award In *Automotive Empire* Andrew Denning uncovers how roads and vehicles began to transform colonial societies across Africa but rarely in the manner Europeans expected Like seafaring ships and railroads automobiles and roads were more than a mode of transport they organized colonial spaces and structured the political economic and social relations of empire both within African colonies and between colonies and the European metropole European officials in French Italian British German Belgian and Portuguese territories in Africa shared a common challenge the transport problem While they imagined that roads would radiate commerce and political hegemony by collapsing space the pressures of constructing and maintaining roads rendered colonial administration thin ineffective and capricious Automotive empire emerged as the European solution to the transport problem but revealed weakness as much as it extended power As *Automotive Empire* reveals motor vehicles and roads seemed the ideal solution to the colonial transport problem They were cheaper and quicker to construct than railroads overcame the environmental limitations of rivers and did not depend on the recruitment and supervision of African porters At this pivotal moment of African colonialism when European powers transitioned from claiming territories to administering and exploiting them automotive empire defined colonial states and societies along with the brutal and capricious nature of European colonialism itself **Films that Work** Vinzenz Hediger, Patrick Vonderau, 2009 Industriële films worden gezien als een apart filmgenre van de twintigste eeuw Ze werden geproduceerd en gesponsord door de overheid en grote bedrijven en moesten vooral aan de wensen van de sponsors voldoen en niet zo zeer aan die van de filmmakers In de hoogtijdagen werkten er duizenden mensen aan deze industriële films Zo zijn er vakbladen en filmfestivals ontstaan door samenwerking met grote bedrijven als Shell en A.T.T. Daarnaast hebben belangrijke regisseurs zoals Buster Keaton John Grierson en Alain

Resnais aan deze films meegewerkt Toch lijkt de industriële film geen spoor te hebben achtergelaten in het filmische culturele discours Films that Work is het eerste boek waarin de industriële film en zijn opmerkelijke geschiedenis worden onderzocht

Looking for the Proletariat Stephen Hastings-King, 2014-05-08 Looking for the Proletariat is a contribution to understanding the implosion of the Marxist Imaginary The implosion is staged in terms of the first English language history of the French revolutionary group Socialisme ou Barbarie from 1949 to 1957 It explains why Socialisme ou Barbarie was the only Marxist organization interested by worker experience and how the group's anti Leninist position on organization led it to privilege first person worker narratives in order to understand worker experience and its revolutionary possibilities Using the only first person accounts of working class experience in French industry of the 1950s the book explores the disintegration of collective investment in the Marxist Imaginary that unfolded at Renault's Billancourt factory in the aftermath of the Hungarian Revolution and the contexts that shaped it

European International Law Traditions Peter Hilpold,2020-11-20 International Law is usually considered at least initially to be a unitary legal order that is not subject to different national approaches Ex definition it should be an order that transcends the national and one that merges national perspectives into a higher understanding of law It gains broad recognition precisely because it gives expression to a common consensus transcending national positions The reality however is quite different Individual countries approaches to International Law and the meanings attached to different concepts often diverge considerably The result is a lack of comprehension that can ultimately lead to outright conflicts In this book several renowned international lawyers engage in an enquiry directed at sorting out how different European nations have contributed to the development of International Law and how various national approaches to International Law differ In doing so their goal is to promote a better understanding of theory and practice in International Law divChapter What Are and to What Avail Do We Study European International Law Traditions is available open access under a Creative Commons Attribution 4 0 International License via link [springer.com](https://www.springer.com) [Polk's \(Trow's\) New York Copartnership and Corporation Directory, Boroughs of Manhattan and Bronx ,1910](#)
