Women and Capital Punishment in the United States David V.

Baker,2015-11-26 The history of the execution of women in the United States has largely been ignored and scholars have given scant attention to gender issues in capital punishment This historical analysis examines the social political and economic contexts in which the justice system has put women to death revealing a pattern of patriarchal domination and female subordination The book includes a discussion of condemned women granted executive clemency and judicial commutations an inquiry into women falsely convicted in potentially capital cases and a profile of the current female death row population

The Death Penalty Roger Hood,Carolyn Hoyle,2008

This new edition of a classic study assesses the global status of capital punishment As in previous editions this work draws on Roger Hood s experiences as consultant to the United Nations for the Secretary General s five yearly surveys of capital punishment as well as the latest literature from non governmental organizations and academic experts This edition examines significant developments around the world including the Chinese plan for the People s Supreme Court to review all death sentences and the abolition in the USA of the death penalty for offenders who committed murder while under the age of 18 Recent legal challenges to lethal injection as a form of execution are also examined This edition also includes an additional chapter on the role and influence of victims families and victim interest movements This volume shows how despite a number of set backs the movement to abolish the death penalty has continued to gather pace that international organizations and human rights treaties continue to put

pressure on retentionist countries that further developments have been made in securing protection for those facing the death penalty in retentionist countries and that despite such advances in some parts of the world the range of crimes subject to the death penalty remains wide and the number of executions considerable This work engages with the latest debates on the realities of capital punishment with claims that the death penalty is a unique deterrent to murder and other serious crimes and contains expanded coverage of arguments about the role of public opinion in the debate on capital punishment

Correspondence of Major General Emory Upton, Vol. 2, 1875-1881 Salvatore Cilella, 2024-01-12 Emory Upton 1839 1881 was thrust into the Civil War immediately upon graduation from the United States Military Academy at West Point in May of 1861 He was wounded three times during the war He participated in nearly every major battle in the Eastern Theater including Fredericksburg Gettysburg and Spotsylvania where he led a prominent attack on entrenched Confederate positions a signal of Upton's brilliance as an officer and of his military creativity that foreshadowed his later work in revising the Army's tactics Upton was mustered out of service in 1866 and later named commandant of cadets at West Point a position that carved a path for Upton to focus more on Army tactics and reforms Until now the only lenses through which scholars could study Upton were two biographies published nearly a century apart but practically identical in scope and treatment of Upton The two volume *Correspondence of Major General Emory Upton* follows Upton through his enrollment at West Point to his extensive Army activities following the Civil War and contains the bulk of Emory Upton's wartime correspondence Volume two collects Upton's foreign correspondence and observations on military tactics and Army reform At the behest of U.S. Army Commanding General William T. Sherman Upton was sent on a tour to study the armies of Asia and Europe and more specifically the German army after conclusion of the Franco-Prussian War This tour resulted in the publication of his monumental *The Armies of Europe and Asia* which warned that the U.S. Army was woefully below the standards of European nations and between Upton's death in 1881 and the turn of the twentieth century military policy was fiercely debated in both the military and popular press Upton's ideas on reform were often central to the arguments and his letters and writings provoked a wide range of discussion over military and inevitably civilian issues These selected letters and reports expertly annotated and gathered from repositories across the country present a more complex human Emory Upton He is both the clean pure and spotless individual of Michie's biographies and the ambitious yet flawed Army officer obsessed with his career These volumes explore his trials and frustrations as well as his triumphs Salvatore G. Cilella now retired was president of the Atlanta Historical Society He is the author of *Upton's Regulars The 121st New York Infantry in the American Civil War* and *Fund Raising for Small Museums in Good Times and Bad* *Legalizing LGBT Families* Amanda K. have a child or to parent For LGBT individuals however parenting is saturated with legality including the initial decision of whether to have a child how to have a child whether one's relationship with their child will be recognized and everyday acts of parenting Through interviews with 137 LGBT parents Amanda K Baumle and D Lane R Compton examine the role of the law in the lives of LGBT parents and how individuals use the law when making decisions about family formation or parenting Baumle and Compton explore the ways in which LGBT parents participate in the process of constructing legality through accepting modifying or rejecting legal meanings about their families They conclude that legality is constructed through a complex interplay of legal context social networks individual characteristics and familial desires Ultimately the stories of LGBT parents in this book reflect a rich and varied relationship between the law the state and the private family goals of individuals

The Evolution of the Juvenile Court Barry C. Feld, 2019-06-01 Winner 2020 ACJS Outstanding Book Award given by the Academy of Criminal Justice Sciences A major statement on the juvenile justice system by one of America's leading experts The juvenile court lies at the intersection of youth policy and crime policy Its institutional practices reflect our changing ideas about children and crime control The Evolution of the Juvenile Court provides a sweeping overview of the

American juvenile justice system's development and change over the past century. Noted law professor and criminologist Barry C. Feld places special emphasis on changes over the last 25 years: the ascendance of get tough crime policies and the more recent Supreme Court recognition that children are different. Feld's comprehensive historical analyses trace juvenile courts' evolution through four periods: the original Progressive Era, the Due Process Revolution in the 1960s, the Get Tough Era of the 1980s and 1990s, and today's Kids Are Different era. In each period, changes in the economy, cities, families, race, and ethnicity, and politics have shaped juvenile courts' policies and practices. Changes in juvenile courts' ends and means, substance, and procedure reflect shifting notions of children's culpability and competence. *The Evolution of the Juvenile Court* examines how conservative politicians used coded racial appeals to advocate get tough policies that equated children with adults, and more recent Supreme Court decisions that draw on developmental psychology and neuroscience research to bolster its conclusions about youths' reduced criminal responsibility and diminished competence. Feld draws on lessons from the past to envision a new developmentally appropriate justice system for children. Ultimately, providing justice for children requires structural changes to reduce social and economic inequality, concentrated poverty in segregated urban areas that disproportionately expose children of color to juvenile courts' punitive policies. Historical, prescriptive, and analytical, *The Evolution of the Juvenile Court* evaluates the author's past recommendations to abolish juvenile courts in light of this new evidence and concludes that separate but reformed juvenile courts are necessary to protect children who commit crimes and facilitate their successful transition to adulthood.
