Assessment *Conjugal Love and Procreation* Kevin Schemenauer, 2011-05-05 Dietrich von Hildebrand contributed to the Catholic tradition's increased recognition of conjugal love in marriage in the early twentieth century and as Kevin Schemenauer argues in *Conjugal Love and Procreation* von Hildebrand's work remains relevant to contemporary Catholic thought as well. While some argue that this German Catholic philosopher and theologian neglected the role of procreation in marriage, this book shows that von Hildebrand's writings on reverence and superabundant finality contribute to a contemporary understanding of the significance of procreation within marriage. Schemenauer analyzes von Hildebrand's integration of conjugal love and procreation, showing him to be an insightful and parallel voice to that of John Paul II. His thorough exploration of von Hildebrand's writings reveals not only how conjugal love and openness to new life are essential to marriage but also how essential the role of procreation is to the conception of conjugal love.

Social Theories of Risk and Uncertainty Jens O. Zinn, 2009-01-22 Written by leading experts in the field, *Social Theories of Risk and Uncertainty* is an introduction to mainstream theorizing on risk and uncertainty in sociology. It provides an overview of the historical developments and conceptual aspects of risk, identifies why theorizing on risk is necessary, and highlights specific sociological contributions to this field of research. It explores key topics including risk society and reflexive modernization, culture and risk, governmentality and risk, systems theory and risk, and edgework and voluntary risk taking. It offers a comprehensive look at the promises, pitfalls, and perspectives of risk theorizing.

Michael A. Weinstein Robert L. Oprisko, Diane Rubenstein, 2014-12-05 This book is a major reassessment of Michael Weinstein's political philosophy. It situates his singular contribution, designated as critical vitalism, in the context of both canonical American and contemporary continental theory. Weinstein is presented as a philosopher of life and as an American Nietzsche. Yet the contributors also persuasively argue for this form of thinking as a prescient prophecy addressing contemporary society's concern over the management of life as well as the technological changes that both threaten and sustain intimacy. This is the first full-scale study of Weinstein's work, which reveals surprising aspects of a philosophic journey that has encompassed most of the major American pragmatic or vitalist or Continental phenomenological or existential traditions. Weinstein is read as a comparative political theorist, a precursor to post-structuralism, and as a post-colonial border theorist. A different aspect of his oeuvre is highlighted in each of the book's three sections. The opening essays, comprising the Action diptych, contrast meditative versus extrapolative approaches. Contemplation stages a series of encounters between Weinstein and his philosophic interlocutors. Vitalism presents Weinstein as a teacher, media analyst, musician, and performance artist. The book contains an epilogue written by Weinstein in response to the contributors.

Challenging the Bard Gary Rosenshield, 2013-07-08 In this book, the author engages with the critical histories of two literary titans, illuminating how Dostoevsky reacted to, challenged, adapted, and ultimately transformed the work of his predecessor Pushkin. Focusing primarily on Dostoevsky's works through 1866, including *Poor Folk*, *The Double*, *Mr Prokharichin*, *The Gambler*, and *Crime and Punishment*, the author observes that the
