The HodgePodge Lifestyle

Chronicles Remedios Lucio, 2020-11-21 The HodgePodge Lifestyle began in 2010 as a blog and it became a vlog on YouTube in 2019. It spans for 10 years where I wrote about my experiences living in my country, the Philippines, and abroad. I shared my life as a lupus survivor, experiencing the earthquake in Manila and enjoying my travel adventures. The book is a compilation of my love for food, family and friends. It also shows how I live my life to the fullest and inspiring other people to keep pushing themselves and never give up despite all the difficulties in life.

Adventures in Entomology Thomas

Miller, 2017-02-27 This book is a personal account of a research professor of entomology based at University of California Riverside who used a background in physics and electronics to first solve research problems in insect physiology and toxicology. He then applied the same background to addressing insect pest problems in cotton in California and Arizona. The narrative also describes personal interactions, most good, a few nasty. Choosing very difficult problems to solve and using the newest tools available had the effect of attracting some of the top graduate students and postdoctorals in the world. Sometimes a visiting researcher would bring a new problem with them. Achieving breakthroughs in a number of different disciplines sometimes created jealousies in workers who did not see the competition coming and resented it. The text also gives some idea what research in a university is like, especially in an applied field like entomology. Although based primarily in Riverside, California, both the narrative and subject are global and reflect the author's perspective.
