Pacesetterslost Generation:

The Lost Generation James Irungu, 1985 *From Pacesetters to Dropouts* Tamar Horowitz, Bella Kotik-Friedgut, Stefani Hoffman, 2003-05-13 The book is a combined effort of scholars who participated in a conference entitled Post Soviet Youth A Comparative Study The book focuses on the post perestroika period a time of great instability and change on the national and individual level It analyzes the effect of this dynamic on youth who in the transitional phase of adolescence are particularly susceptible to social disruption The scope includes not only youth who remained in the former Soviet Union but also those who emigrated to the West Israel Germany the U S and Greece It was considered important to place this study in a cross cultural framework in order to differentiate between local influences and the common denominators from the Soviet background From Pacesetters to Dropouts offers an important contribution to the study of the effect of a particular form of socialization on youth in a period of stress and change It is relevant not only to understanding the changes undergone by an important segment of society in the former Soviet Union but also to studying the experience of other immigrant groupings in an era characterized by widespread migration **Teenage Citizens** Constance A. Flanagan, 2013-02-14 Too young to vote or pay taxes teenagers are off the radar of political scientists Yet civic identities form during adolescence and are rooted in experiences as members of families schools and community organizations Flanagan helps us understand how young people come to envisage civic engagement and how their political identities take form *Lost Generation Journal* , 1973 **Youth and Social Change in Eastern Europe and the Former Soviet Union** Charles Walker, Svetlana Stephenson, 2013-09-13 Two decades have now passed since the revolutions of 1989 swept through Eastern Europe and precipitated the collapse of state socialism across the region engendering a period of massive social economic and political transformation This book explores the ways in which young people growing up in post socialist Eastern Europe and the former Soviet Union negotiate a range of identities and transitions in their personal lives against a backdrop of thoroughgoing transformation in their societies Drawing upon original empirical research in a range of countries the book s contributors explore the various freedoms and insecurities that have accompanied neo liberal transformation in post socialist countries in spheres as diverse as consumption migration political participation volunteering employment and family formation and examine the ways in which they have begun to re shape different aspects of young people s lives In addition while social change is a central theme of the issue all of the chapters in the collection indicate that the new opportunities and risks faced by young people continue both to underpin and to be shaped by familiar social and spatial divisions not only within and between the countries addressed but also between East and West This book was originally published as a special issue of Journal of Youth Studies

Urban Obsessions, Urban Fears John Roger Kurtz, 1998 Kurtz s analysis of the development of the Kenyan novel in English emphasizes the historical contingencies affecting the production of literature in Kenya and how succeeding generations have drawn from and expanded the thematic repertoire established by the first generation of works in the 1960s

He explores the relationship between the novel and the city and how obsessions and fears about the urbanization have been expressed and represented through different generations of Kenyan writers Kurtz has also put together the first annotated bibliography of all the anglophone Kenyan novels that have appeared since Ngugi wa Thiong o wrote Weep Not Child Ngugi s Weep Not Child made an immediate impact on its publication in 1964 Since then hundreds of novels by Kenyans have been published This is a comprehensive introduction to the postcolonial novel in English Three broad areas are identified the first generation of the sixties the golden age of the seventies and the years after Kenyatta in the eighties and nineties A unifying feature is an uneasy but marked emphasis on the city particularly Nairobi The city is used by novelists as both the site and the symbol for a range of obsessions and fears about postcolonial society There is particular emphasis on the changing ways in which the city has been portrayed since Ngugi s first novel the relation of popular literature to the city the portrayal of women in the city and the special status of Meja Mwangi s urban novels

Sherrod, 2006 This resource describes programs and policies related to activism and civic engagement among youth from a historical and global perspective It covers the historical aspects of youth activism to the present from chatrooms to grass roots movements from gangs and politics to Riot GRRLS and Campus Crusade for Christ
