Takatoshi Ito, Anne O. Krueger

Pacific Economy Growth And External Stability:

Economic Stability and Growth in the Pacific Ross Garnaut, 1990 Economic Dynamism in the Asia-Pacific Grahame Thompson, 2005-10-18 This broad ranging student textbook examines the rise of the Asia Pacific as an important economic region It looks at the sources of that rise its future development and the possible consequences for the global economy The analysis is divided into three sections considering how far the Asia Pacific has developed as a regional system looking at the patterns of integration of the principal economies the relationship between the key individual economies of Japan Korea China and the United States how the rise of the Asia Pacific economy has affected the international economic system In so doing it provides much needed insights not only into the growth of this powerful economic region but also the international context of Asia Pacific development The Newly Industrializing Economies of East Asia Anis Chowdhury, Iyanatul Islam, 2005-08-09 The phenomenal success of the East Asian Newly Industrializing Economies NIEs of Korea Taiwan Hong Kong and Singapore is now well known and documented Their success has been discussed to such an extent that it has become entrenched as part of the folklore of development economics The Newly Industrializing Economies of East Asia takes a fresh look at the relevant literature and sifts the rhetoric from the reality In the course of surveying the vast range of writing two competing paradigms become clear the neo classical approach which interprets the East Asian economic miracle as the predictable outcome of good policies and the statist perspective which draws attention to the central role of the government in guiding East Asian economic development Throughout the book the authors mix country specific experiences with broader trends **Japan and Asia-Pacific Integration** Pekka Korhonen, 2008-01-28 Japan and Asia Pacific Integration is a study of regional integration in the greater Pacific area during 1968 1996 It examines the political rationale of such international organisations as the Asia Pacific Economic Co operation APEC forum and the East Asian Economic Caucus EAEC There is a focus on Japanese conceptions of regionalism and integration but the attitudes of other countries such as the United States Australia Malaysia and China are also explored **Asia-Pacific Diplomacy** Lawrence T. Woods, 2011-11-01 The emergence of Asia Pacific regionalism as witnessed by the increasing influence of the Asia Pacific Economic Cooperation forum and the annual ASEAN Post Ministerial Conference highlights one of the major trends in late twentieth century geopolitics and international relations Asia Pacific Diplomacy traces the evolution of the Pacific economic cooperation movement by examining the diplomatic contributions of three international nongovernmental organizations INGOs the scholarly Pacific Trade and Development Conference PAFTAD the business oriented Pacific Basin Economic Council PBEC and the multipartite academic business and government Pacific Economic Cooperation Council PECC Lawrence Woods also provides a historical perspective by assessing the work of the Institute of Pacific Relations forerunner of the INGOs This book makes an important contribution to the study of international political and economic institutions It argues that as the regional cooperation movement expands at the governmental level an understanding of the nongovernmental roots of that

movement is required if the diplomatic contributions of the INGOs are to be retained

Macroeconomic Linkage

Takatoshi Ito, Anne O. Krueger, 2009-02-15

This volume explores East Asia's macroeconomic experience in the 1980s and the economic impact of East Asia's growth on the rest of the world. The authors explore the causes of capital flows changes in trade balances and exchange rate fluctuations in East Asia and their effects on other countries. These fourteen papers are organized around four themes: the overall determinants of growth and trading relations in the East Asian region; monetary policies in relation to capital controls and capital accounts; the impact of exchange rate behavior on industrial structure and the potential for greater regional integration. The contributors examine interactions among exchange rate movements, trade balances and capital flows; how government monetary policy affects capital flows; the effect of exchange rates on industrial structure, inventories and prices; and the extent of regional integration in East Asia.

The Employment Impact of China's WTO Accession

A. S. Bhalla, Shufang Qiu, S. Qiu, 2003-11-20 The book explores the macroeconomic and sectoral employment implications in agriculture, industry and services of China's World Trade Organisation accession. It argues that while short-run employment losses may occur in the longer term, China will be able to generate additional employment particularly in the tertiary sectors and that it can maintain its comparative advantage in labour-intensive exports by relocating production from high-cost coastal areas to the hinterland with abundant supply of cheap labour. It also argues that although China is likely to benefit in the long run, in the short and medium term China is likely to face enormous problems including increased unemployment as weaker links cease to be protected by tariffs and the problem of restructuring state-owned enterprises.
