WITH LEARNING DIFFICULTIES Jeannie Sutcliffe,1990-11-16 This is a practical handbook for all those who wish to offer high quality learning opportunities to adults with learning difficulties It stresses the quality of provision throughout and is illustrated by many examples of good practice from all areas of curriculum and delivery The importance of the widest possible range of learning opportunities is also emphasized and providers are urged to go beyond the limited menu of basic and social skills For too long education has been a process done to rather than with this group of learners This book advocates a learner centred approach based on choice and decision making by people with learning difficulties Routledge Library Editions:

Education Mini-Set O Teaching and Learning 14 vols Various,2021-12-02 Originally published between 1973 and 1993 the 14 books in this set discuss a number of themes such as policy practice and evaluation in schools dealing with disruptive behaviour issues regarding the teaching of arts and sciences ethnographic studies of life in primary and secondary schools and critical events in teaching and learning **Hollywood or History?** Lisa K. Pennington,Donna Fortune,Mary E.

Tackett,Paige Horst,Meghan A. Kessler,2024-09-01 Teaching and learning through Hollywood or commercial film and television productions is anything but a new approach and has been something of a mainstay in the classroom for nearly a century However purposeful and effective instruction through film is not problem free and there are many challenges that accompany classroom applications of Hollywood motion pictures In response to the problems and possibilities associated with teaching through film we are developing a collection of practical classroom ready lesson ideas that might bridge gaps between theory and practice and assist teachers endeavoring to make effective use of film in their classrooms We believe that film can serve as a powerful tool in the social studies classroom and where appropriately utilized foster critical thinking and civic mindedness The NCSS College Career and Civic Life C3 framework represents a renewed and formalized emphasis on the perennial social studies goals of deep thinking reading and writing We believe that as teachers endeavor to digest and implement the platform in schools and classrooms across the country the desire for access to structured strategies that lead to more active and rigorous investigation in the social studies classroom will grow increasingly acute Our hope is that this edited book might play a small role in the larger project of supporting practitioners specifically K-6 teachers of social studies content by offering a collection of classroom ready tools based on the Hollywood or History strategy and designed to foster inquiry through the careful use of selected motion pictures and television productions **NILS A-V Media Catalog, 1988**

Northern Illinois Library System,1988 **Capable Workplace Learning** Len Cairns,John Stephenson,2009-01-01 Capable Workplace Learning is about Capable people Capable Organisations and an underlying belief in the applicability of the concept of Capability to Work Place and Learning In this book Cairns and Stephenson present a case for the development of human Capability in life in work and in the lifespace They trace the development of the Capability concept arguing that it embraces and goes beyond competence They draw on over 35 years of experience of direct involvement in enhancing adult Capability through education at all levels Capability they also argue applies as much to organisations and working practices as it does to the individuals involved and call for synergy between organisational and personal capability Further the book presents a case that learning through work whereby people utilise their work experiences and activities as the opportunity process place and content of what they are learning whilst they are working has they suggest established itself as a creditable way of looking at the knowledge development we all encounter and engage with whilst working The authors explore a range of examples of Capable practice in business and higher education and present a number of portraits of individuals whose lifework personifies the Capability at work concept In addition they suggest governments should go beyond the rather narrow aspiration of raising skills levels to encouraging more people to experience formulating and solving the problem of their own development
