August Zang and the French Croissant Jim Chevallier, 2025-01-03 This book tells the story of how August Zang a nineteenth century Austrian entrepreneur introduced the croissant to France and then returned to Austria to transform journalism in that country Soon after this work appeared in 2009 writers on the croissant quickly began to reference August Zang's role in bringing its original to Paris Not all abandoned old myths more than one tried to integrate the better documented version with old myths about the siege of Vienna and Marie Antoinette But overall the book has had its intended role of establishing Zang's place in French bread history Other developments have ensued Two writers in Austria wrote their own book about the Austrian original crediting an earlier edition of this book for inspiring it A French newspaper has cited it in a completely illusory connection with the chocolatine Other periodicals have referenced it in various degrees At least one student based his doctorate on it Inevitably too new material has appeared including substantial new information and a variety of older recipes for the croissant Rereading earlier prose has suggested some reworking It seems high time then fifteen years later for a third edition Among the additions here are a more detailed look at Zang's 1842 patent more about progress toward the modern croissant a further look at the bakery's history after Zang and appendices including older recipes for the croissant period summaries of Zang's life and an attempt to address errors about the history of the pain au chocolat and the chocolatine falsely credited to earlier editions of this work **Vienna Bread - Instructions and Recipes** Charles Scott, 2009-03 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1917 edition Excerpt 6 Columns for Discount on Purchases and Discount on Notes on the same side of the Cash Book c Columns for Discount on Sales and Cash Sales on the debit side of the Cash Book d Departmental columns in the Sales Book and in the Purchase Book Controlling Accounts The addition of special columns in books of original entry makes possible the keeping of Controlling Accounts The most common examples of such accounts are Accounts Receivable account and Accounts Payable account These summary accounts respectively displace individual customers and creditors accounts in the Ledger The customers accounts are then segregated in another book called the Sales Ledger or Customers Ledger while the creditors accounts are kept in the Purchase or Creditors Ledger The original Ledger now much reduced in size is called the General Ledger The Trial Balance now refers to the accounts in the General Ledger It is evident that the task of taking a Trial Balance is greatly simplified because so many fewer accounts are involved A Schedule of Accounts Receivable is then prepared consisting of the balances found in the Sales Ledger and its total must agree with the balance of the Accounts Receivable account shown in

the Trial Balance A similar Schedule of Accounts Payable made up of all the balances in the Purchase Ledger is prepared and it must agree with the balance of the Accounts Payable account of the General Ledger The Balance Sheet In the more elementary part of the text the student learned how to prepare a Statement of Assets and Liabilities for the purpose of disclosing the net capital of an enterprise In the present chapter he was shown how to prepare a similar statement the Balance Sheet For all practical Vienna Bread Charles Scott, Chief Division of Psychiatry and the Law Professor of Clinical Psychiatry Charles Scott, 2015-06-29 Excerpt from Vienna Bread Instructions and Recipes Vienna Bread Instructions and Recipes was written by Charles Scott in 1909 This is a 85 page book containing 22162 words and 32 pictures Search Inside is enabled for this title About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *Vienna Bread* Scott Charles, 2013-01 Unlike some other reproductions of classic texts 1 We have not used OCR Optical Character Recognition as this leads to bad quality books with introduced typos 2 In books where there are images such as portraits maps sketches etc We have endeavoured to keep the quality of these images so they represent accurately the original artefact Although occasionally there may be certain imperfections with these old texts we feel they deserve to be made available for future generations to enjoy **Special and Decorative Breads: Traditional, regional, and special breads.
