Symbolism is cohesive It gathers heterogeneity over time across fields of human endeavor and systems of communication Non sequiturs paradox and tautology appear dissipative Yet they are highly productive in reticular and fractal ways Suffice it to look at the philosophical tautology of Parmenides's kind which suggests that being is at the practice of the koan which collapses dualistic thinking by way of incompatible propositions such as the Eastern hill keeps running on the water at logical paradoxes in which the operative logic is sabotaged by its own means as in Hempel's paradox at absurdist dramatic texts in which protagonists record empty time in order to mark the emptiness of the time they are recording as in Beckett's Krapp's Last Tape or at paradoxical games like Maciunas's Prepared Table Tennis played with paddles that have huge holes in them In all of these examples the existence apprehending processes occur via unexpected itineraries in vacant but nevertheless enunciative codes in seemingly futile yet calibrating performances and in a temporality that is the cumulative time's other They catapult the mind into the realm of the extra linguistic the para logical and the meta experiential or they transfigure it through a series of reticular iterations Forty years after Varela et al's groundbreaking work on the embodied emotional and environmentally embedded mind that marked a definitive departure from its former strictly rational conception there is a need to re-examine the territory that lies beyond mind for a different reason the proliferation of algorithmic logics that rely on the idea of a rational agent human or algorithmic making logical self-serving decisions This special issue explores neither

rational nor irrational forms of thinking and making It sketches a cartography of a rational processes of meaning and knowledge production that operate across numerous sites practices and disciplines visual and media art literature art history music dance film intermedia and photography Part I Ahistoricity Assemblages and Interpretative Reversals focuses on the legacy of the neo avant garde and amodernism Part II Destinerrance Labyrinths and Folds investigates the ways in which the Derridian delays detours and the Deleuzian folding function as concrete ways of embodied knowledge production Part III Immanent Transcendence offers a glimpse into the reticular and iterative structuring of transcendence that does not pre exist immanence but is its residue **Broadcast Journalism** Shrivastava,K M, *Digital Television* C.
