Paintings In The Studiolo Of Isabella Deste At Mantua:

The Paintings in the Studiolo of Isabella D'Este at Mantua Egon Verheyen, 2009-01-01 *Isabella d'Este and Francesco Gonzaga* Sarah D.P. Cockram, 2016-05-13 In the first book systematically to give evidence of conjugal co rule at an Italian Renaissance court and the first full length scholarly study of Isabella d Este and Francesco Gonzaga Sarah Cockram shows their relationship in an entirely new light The book draws on and presents a large amount of unpublished archival material including almost unprecedented surviving correspondence between and around these Renaissance princely rulers Using these sources Cockram shows Isabella and Francesco s strategic teamwork in action illuminating tactics of collaboration and dissimulation She also reveals behind the scenes diplomatic activity court procedures sexual politics and seduction gift giving and network building rivalries intrigues and assassinations Several epistolary themes emerge insights into the couple s communication practices and double dealing their use of intermediaries and attention to security matters This book s analysis of Isabella s co rule with her husband supported by other members of the Gonzaga dynasty sees her sometimes in the role of subordinate partner sometimes guiding the couple s actions It shows how despite appearances at times the couple shared common diplomatic policy as well as human material and cultural resources joint administration and the exercise of authority and justice Thus emerges a three dimensional picture of the mechanisms of power and power sharing in the age of Machiavelli

Andrea Mantegna and the Italian Renaissance Joseph Manca, 2023-12-28 Mantegna humanist geometrist archaeologist of great scholastic and imaginative intelligence dominated the whole of northern Italy by virtue of his imperious personality Aiming at optical illusion he mastered perspective He trained in painting at the Padua School where Donatello and Paolo Uccello had previously attended Even at a young age commissions for Andrea s work flooded in for example the frescos of the Ovetari Chapel of Padua In a short space of time Mantegna found his niche as a modernist due to his highly original ideas and the use of perspective in his works His marriage with Nicolosia Bellini the sister of Giovanni paved the way for his entree into Venice Mantegna reached an artistic maturity with his Pala San Zeno He remained in Mantova and became the artist for one of the most prestigious courts in Italy the Court of Gonzaga Classical art was born Despite his links with Bellini and Leonardo da Vinci Mantegna refused to adopt their innovative use of colour or leave behind his own technique of engraving

The Viewer as Poet: The Renaissance Response to Art, 1994 In *The Viewer as Poet* Norman Land provides the first comprehensive survey of ekphrasis in literature and art criticism from antiquity through the Renaissance Land demonstrates more fully than anyone has so far that Renaissance art criticism assimilated the poetic

tradition of ekphrasis while maintaining its function of analyzing works of art. Broadly speaking, the book shows that purely literary descriptions of art in poetry and prose contain a response like that found in art critical ekphrasis. This is true in both antiquity and the Renaissance. The response to art in the elder Philostratus's *Imagines* for example is like that found in the descriptions of Apuleius and Lucian. Later Dante, Boccaccio and Poliziano among others respond to imaginary works of art in their poetry in much the same way that Lorenzo Ghiberti, Aretino and Vasari respond to real works in their writings. Land offers for the first time a synthetic description of the Renaissance response to or experience of art as embodied in literature including art criticism. This book will form the basis for a deeper understanding of Renaissance art than we have now for it provides not only a tool for viewing works of art as they were originally seen and experienced that is from a historical perspective but also an outline of the tradition out of which modern writings about art grew.

Titian & Tragic Painting
 Thomas Puttfarcken, 2005-01-01 Late in his life Titian created a series of paintings: the Four Sinners, the poesie for his patron Philip II of Spain and the Final Tragedies that were dark in tone and content, full of pathos and physical suffering. In this major reinterpretation of Titian's art, Thomas Puttfarcken shows that the often dramatic and violent subject matter of these works was not, as is often argued, the consequence of the artist's increasing age and sense of isolation and tragedy. Rather, these paintings were influenced by discussions of Aristotle's *Poetics* that permeated learned discourse in Italy in the mid-sixteenth century. The *Poetics* led directly to a rich theory of the visual arts and painting in particular that enabled artists like Titian to consider themselves on equal footing with poets. Puttfarcken investigates Titian's late works in this context and analyzes his relations with his patrons, his intellectual and humanistic contacts, and his choices of subject matter, style, and technique.

Sense and the Senses in Early Modern Art and Cultural Practice
 SivToveKulbrandstad Walker, 2017-07-05 Employing a wide range of approaches from various disciplines, contributors to this volume explore the diverse ways in which European art and cultural practice from the fourteenth through the seventeenth centuries confronted, interpreted, represented, and evoked the realm of the sensual. *Sense and the Senses in Early Modern Art and Cultural Practice* investigates how the faculties of sight, hearing, touch, taste, and smell were made to perform in a range of guises in early modern cultural practice: as agents of indulgence and pleasure; as bearers of information on material reality; as mediators between the mind and the outer world; and even as intercessors between humans and the divine. The volume examines not only aspects of the arts of painting and sculpture but also extends into other spheres: philosophy, music, and poetry, gardens, food, relics, and rituals. Collectively, the essays gathered here form a survey of key debates and practices attached to the theme of the senses in Renaissance and Baroque art and cultural practice.

Isabella d'Este
 Lorenzo Bonoldi, 2016-01-21 14:45:00+01:00 Isabella d'Este, Ferrara 1474–Mantua 1539, was already defined in her lifetime as *The first lady of the world* and remains today one of the most brilliant characters of the Italian Renaissance. The first-born daughter of Duke Ercole of Ferrara and Eleonora of Aragon, at only six years of age, was betrothed to Francesco II Gonzaga

heir of the Lords of Mantua At sixteen when she arrived in Mantua she created one of the most culturally refined courts of the Renaissance Driven by her insatiable desire for all things of antiquity she collected in her Studiolo a precious assortment of classical artifacts Fully aware of her extraordinary virtues both physical and intellectual she trusted the most illustrious artist of her time to represent her and was portrayed by both Leonardo da Vinci and Titian a privilege ot bestowed upon any king Pope or Emperor A demanding and discerning patron she entrusted Andrea Mantegna Lorenzo Costa Pietro Perugino and Correggio to create a cycle of paintings forher Studiolo As a refined trend setter she formed the fashion of her time according to her own tastes and became a point of reference not only for all of the Italian courts but also for aristocrats throughout Europe From her astrological chart and emblems to her portraits and the canvases created specifically for her Studiolo this book contains several clear and original perspectives that highlight and better define the profile of Isabella Here we have a new view of a Renaissance woman

Boccaccio's Heroines Margaret Franklin,2017-09-29 In contrast to earlier scholars who have seen Boccaccio s Famous Women as incoherent and fractured Franklin argues that the text offers a remarkably consistent coherent and comprehensible treatise concerning the appropriate functioning of women in society In this cross disciplinary study of a seminal work of literature and its broader cultural impact on Renaissance society Franklin shows that through both literature and the visual arts Famous Women was used to promote social ideologies in both Renaissance Tuscany and the dynastic courts of northern Italy Speaking equally to scholars in medieval and early modern literature history and art history Franklin brings needed clarification to the text by demonstrating that the moral criteria Boccaccio used to judge the lives of legendary women heroines and miscreants alike were employed consistently to tackle the challenge that politically powerful women represented for the prevailing social order Further the author brings to light the significant influence of Boccaccio s text on the representation of classical heroines in Renaissance art By examining several paintings created in the republics and principalities of Renaissance Italy Franklin demonstrates that Famous Women was employed as a conceptual guide by patrons and artists to draw the teeth from the challenge of unconventionally powerful women by co opting their stories into the service of contemporary Italian standards and mores

Beyond Isabella Sheryl E. Reiss,David G. Wilkins,2001-06-01 Who were the secular female patrons of art and architecture in Renaissance Italy beyond Isabella d Este This volume brings together fourteen essays which examine the important and often unrecognized roles aristocratic and bourgeois women played in the patronage of visual culture during the Italian Renaissance Themes include the significance of role models for female patrons the dynamics of conjugal patronage and the widespread patronage activities of widows Collectively the essays demonstrate how resourceful women expressed themselves through patronage despite the limitations of a highly structured patriarchal society Thus Isabella d Este was by no means unique as a secular female patron and the studies offered here should encourage scholars to move further beyond Isabella in their assessment of women s patronage of art and architecture in Renaissance Italy
