The Paintings of Charles Bird King (1785-1862) Andrew J. Cosentino, 1977 *Painting Indians and Building Empires in North America, 1710-1840* William H. Truettner, 2010-09-15 The Europeans who first explored and settled North America were endlessly intrigued by the indigenous people they found there even before the newly arrived colonials began to record the landscape they drew and painted Indians This study focuses on that practice offering a new visual perspective on westward expansion mainly through a survey of the major Indian images painted by Euro American artists before and after the American Revolution William H Truettner finds that these images were never simply the historical record they were purported to be instead they were conceived either directly or indirectly to accompany attempts to expand white hegemony across North America first by the British then by the Americans Truettner's incisive accessible readings of paintings by artists such as Benjamin West Gilbert Stuart Charles Bird King and George Catlin relate these images to social and political events of the time and tell us much about how North American tribes would fare as they fought to survive during the second half of the nineteenth century *American Drawings and Watercolors in the Metropolitan Museum of Art* Kevin J. Avery, Metropolitan Museum of Art (New York, N.Y.), 2002 The Metropolitan Museum began acquiring American drawings and watercolors in 1880 just ten years after its founding Since then it has amassed more than 1 500 works executed by American artists during the eighteenth and nineteenth centuries in watercolor pastel chalk ink graphite gouache and charcoal This volume documents the draftsmanship of more than 150 known artists before 1835 and that of about 60 unidentified artists of the period It includes drawings and watercolors by such American masters as John Singleton Copley John Trumbull John Vanderlyn Thomas Cole Asher Brown Durand George Inness and James Abbott McNeill Whistler Because the 504 works illustrate such a wide range of media techniques and styles this publication is a veritable history of American drawing from the eighteenth through most of the nineteenth century Metropolitan Museum of Art website The Paintings of Charles Bird King (1785-1862) Andrew J. Cosentino, 1977 *Monthly Catalog of United States Government Publications* United States. Superintendent of Documents, 1978 February issue includes Appendix entitled Directory of United States Government periodicals and subscription publications September issue includes List of depository libraries June and December issues include semiannual index Still-life Painting in the Museum of Fine Arts, Boston Museum of Fine Arts, Boston, Karyn Esielonis, 1994 **Western Art, Western History** Ron Tyler, 2019-03-07 For nearly half a century celebrated historian Ron Tyler has researched interpreted and exhibited western American art This splendid volume gleaned from Tyler's extensive career of connoisseurship brings together eight of the author's most notable essays reworked especially for this volume Beautifully illustrated with more than 150 images *Western Art Western History* tells the stories of key artists both famous and obscure whose provocative pictures document the people and places of the nineteenth century American West The artists depicted in these pages represent a variety of personalities and artistic styles According to Tyler each of them

responded in unique ways to the compelling and exotic drama that unfolded in the West during the nineteenth century an age of exploration surveying pleasure travel and scientific discovery In eloquent and engaging prose Tyler unveils a fascinating cast of characters including the little known German Russian artist Louis Choris who served as a draftsman on the second Russian circumnavigation of the globe the exacting and precise Swiss artist Karl Bodmer who accompanied Prince Maximilian of Wied on his sojourn up the Missouri River and the young American Alfred Jacob Miller whose seemingly frivolous and romantic depictions of western mountain men and American Indians remained largely unknown until the mid twentieth century Other artists showcased in this volume are John James Audubon George Caleb Bingham Alfred E Mathews and finally Frederic Remington who famously sought to capture the last glimmers of the old frontier A common thread throughout Western Art Western History is the important role that technology especially the development of lithography played in the dissemination of images As the author emphasizes many works by western artists are valuable not only as illustrations but as scientific documents imbued with cultural meaning By placing works of western art within these broader contexts Tyler enhances our understanding of their history and significance **World Collectors Annuary** ,1990
