Private Life:

The Private Life of the Diary Sally Bayley, 2016-04-21 Diaries keep secrets harbouring our fantasies and fictional histories They are substitute boyfriends girlfriends spouses and friends But in this age of social media the role of the diary as a private confidante has been replaced by a culture of public self disclosure The Private Life of the Diary from Pepys to Tweets is an elegantly told story of the evolution and perhaps death of the diary It traces its origins to seventeenth century naval administrator Samuel Pepys and continues to twentieth century diarist Virginia Woolf who recorded everything from her personal confessions about her irritation with her servants to her memories of Armistice Day and the solar eclipse of 1927 Sally Bayley explores how diaries can sometimes record our lives as we live them but that we often indulge our fondness for self dramatization like the teenaged Sylvia Plath who proclaimed herself The Girl Who Would be God This book is an examination of the importance of writing and self reflection as a means of forging identity It mourns the loss of the diary as an acutely private form of writing And it champions it as a conduit to self discovery allowing us to ask ourselves the question Who or What am I in relation to the world Hearings, Reports and Prints of the House Committee on Appropriations United States. Congress. House. Committee on Appropriations, 1974 *The European Convention on Human Rights* William A. Schabas, 2015-09-24 The European Convention on Human Rights A Commentary is the first complete article by article commentary on the ECHR and its Protocols in English This book provides an entry point for every part of the Convention the substance of the rights the workings of the Court and the enforcement of its judgments A separate chapter is devoted to each distinct provision or article of the Convention as well as to Protocols 1 4 6 7 12 13 and 16 which have not been incorporated in the Convention itself and remain applicable to present law Each chapter contains a short introduction placing the provision within the context of international human rights law more generally a review of the drafting history or preparatory work of the provision a discussion of the interpretation of the text and the legal issues with references to the case law of the European Court of Human Rights and the European Commission on Human Rights and a selective bibliography on the provision Through a thorough review of the ECHR this commentary is both exhaustive and concise It is an accessible resource that is ideal for lawyers students journalists and others with an interest in the world's most successful human rights regime *The Potential of Public Discussion in Media* Minna-Kerttu Kekki, 2024-11-29 A friend recommended an interesting news article to you that changed your view on the topic Later you find out that the information in the article was false Did you learn something even though the information was not correct From the subjective perspective at that moment the answer is yes but from the objective perspective you were led false The Potential of Public Discussion in Media Philosophy of Democracy and Misinformation takes up two perspectives on public discussions in media the outsider's third person perspective and the first person perspective of the engaged subject By investigating public discussion in media through both perspectives public discussion appears simultaneously both crucial and risky for democracy The book uses phenomenology to

frame the problematic of contemporary public discussions in media which emphasizes the subjective experience of gaining new information Global Citizen Formation Amy Shumin Chen, 2021-07-17 This book explains the rationale of the changes and challenges of Taiwanese citizenship which emphasizes the various identities in the global and multicultural era It explores the evolving relationship between the social movements citizenship the education of citizens and the young peoples viewpoints asking how citizenship has been conceptualised in a dramatic transformation age How has the curriculum and pedagogy designed to fit the global changes for cultivating young generations with rights and responsibilities to interpret in and adapt for the competence of citizenship And what outcomes and attainments had the Taiwan s undergraduates knowledge attitudes and practices of competency on citizenship *Parliamentary Papers* Great Britain. Parliament. House of Commons, 1863 *The Agnostic Age* Paul Horwitz, 2011-02-17 Argues that the fundamental reason for church state conflict is our aversion to questions of religious truth By trying to avoid the question of religious truth law and religion has ultimately reached a state of incoherence He asserts that the answer to this dilemma is to take the agnostic turn to take an empathetic and imaginative approach to questions of religious truth one that actually confronts rather than avoids these questions but without reaching a final judgment about what that truth is Jacket Proceedings of IAC 2020 in Budapest Group of Authors, 2020-03-13 International Academic Conference on Teaching Learning and E learning International Academic Conference on Management Economics and Marketing International Academic Conference on Transport Logistics Tourism and Sport Science *Mass data surveillance and predictive policing* Plixavra Vogiatzoglou, 2025-01-29 This book critically assesses legal frameworks involving the bulk processing of personal data initially collected by the private sector to predict and prevent crime through advanced profiling technologies In the European Union EU mass data surveillance currently engages three sectors electronic communications under the e Privacy Directive air travelling under the Passenger Name Records Directive and finance under the Anti Money Laundering Directive and increasingly intersects with the deployment of predictive policing techniques The book questions the legitimacy and impact of these frameworks in light of the EU s powers to provide security while safeguarding fundamental rights particularly privacy data protection e ective remedy fair trial and presumption of innocence Focusing on the security shift towards forestalling crime before it occurs the book identifies its distinct characteristics such as the blurred lines between the public and private sector actors and interrogates whether the legal bases and traditional theories on security can account for it The book further explores the challenges these pre crime practices pose including their questionable e ectiveness and the ambiguous application of human rights safeguards in situations where no crime has been committed yet individuals face consequences as a result of deploying predictive analytics on mass amounts of commercially collected personal data In examining the interference with several fundamental rights the book also highlights aspects neglected by the jurisprudence of the Court of Justice of the European Union and the European Court of Human Rights such as the expansive nature and the collective and cumulative e ects of

these frameworks Plenishment in the Earth Stephen David Ross,1995-02-16 This book is an ethic of inclusion leading from gender and sexual difference through the social world of race and culture to the natural world **The Human Right to Citizenship** Barbara von Rütte,2022-12-28 The open access publication of this book has been published with the support of the Swiss National Science Foundation This book offers a comprehensive analysis of the right to citizenship in international and regional human rights law It critically reflects on the limitations of state sovereignty in nationality matters and situates the right to citizenship within the existing human rights framework It identifies the scope and content of the right to citizenship by looking not only at statelessness deprivation of citizenship or dual citizenship but more broadly at acquisition loss and enjoyment of citizenship in a migration context Exploring the intersection of international migration human rights law and belonging the book provides a timely argument for recognizing a right to the citizenship of a specific state on the basis of one's effective connections to that state according to the principle of jus nexi *The Bookman* ,1914

Cerna,2016-12-05 Over the past sixty years the regional human rights systems have surpassed the UN human rights bodies in affording protection to the victims of human rights violations Most of these systems have courts that are empowered to

issue legally binding judgments and reparations for violations of human rights which states have been unwilling to accord the UN system The essays selected for this volume examine the structure and functioning of the principal regional human rights systems in the world today 1 the Inter American Commission and Court of Human Rights 2 the European Court of Human Rights 3 the African Commission and Court of Human and Peoples Rights and 4 the ASEAN Intergovernmental Human Rights Commission These systems guarantee primarily civil and political rights Central to all four systems is the necessity of a democratic form of government to guarantee these rights although not all governments parties to these regional treaties are democracies These articles trace the history of these systems in particular the expansion of their membership to include almost all independent countries in the region and their evolution towards recognition of a right to democracy

Language and Ideology René Dirven, Bruce Hawkins, Esra Sandikcioglu, 2001-02-27 Together with its sister volume on Descriptive Cognitive Approaches this volume explores the contribution which cognitive linguistics can make to the identification and analysis of overt and hidden ideologies As a theory of language which sees language as the accumulation of the conventionalised conceptualisations of a given linguistic and or cultural community or sub group within it cognitive linguistics is called upon to make its own inroads in the study of ideology This volume offers theoretical approaches and first discusses the philosophical foundations of cognitive linguistics The question whether cognitive linguistics is not an ideology itself is not tabooed The speaker s deictic centre is the anchoring point not only for spatial temporal or interactional deixis but also for cultural and ideological deixis Cognitive linguistics is also confronted with a severe Marxist critique but the potential convergence between the two philosophies is highlighted as well Further the question is raised to what extent the central nervous system and the grammatical system of a language impose sexually biased and hence ideological representations on cognition Finally linguistics itself is seen as a potential bearer of ideological deviations as was the case with the politics of linguistics in Nazi Germany and even with the quest for the Indo European homeland in comparative and historical linguistics throughout the 19th century and well into the 20th century
