Rational Meaning A New Foundation For The Definition Of Words And Supplementary Essays:

Rational Meaning Laura (Riding) Jackson, Schuyler B. Jackson, 1997 Existing only in manuscript since the 1940s but enjoying an underground reputation among friends and advocates this primary document by one of the most original and influential of American poets and thinkers is now being published as *Rational Meaning* Laura Riding Jackson's testament of the necessity of living for truth Begun as a dictionary and thesaurus in the 1930s the work developed into a fundamental reevaluation of language itself Riding in close collaboration with her husband continued this monumental project over the succeeding decades completing it after his death in 1968 At the core of *Rational Meaning* which aims to restore the truth of language by arguing that meaning inheres in words stands the idea that a total renovation of the knowledge of language is needed not to develop mere verbal sophistication and respectability but fundamentally to reinvigorate the intellectual processes of consciousness The book reveals the disastrous extent to which language has been unlearned and shows how it may be learned again *Rational Meaning* will be essential reading not only for students of literature but for radical minded linguists and lexicographers unhappy with the orthodoxies current in their disciplines *Ezra Pound and 20th-Century Theories of Language* James Dowthwaite, 2019-05-23 Ezra Pound is one of the most significant poets of the twentieth century a writer whose poetry is particularly notable for the intensity of its linguistic qualities Indeed from the principles of Imagism to the polyphony of his *Cantos* Pound is central to our conception of modernism's relationship with language This volume explores the development of Pound's understanding of language in the context of twentieth century linguistics and the philosophy of language It draws on largely unpublished archival material in order to provide a broadly chronological account of the development of Pound's views and their relation to both his own poetry and to modernist writing as a whole Beginning with Pound's contentious relationship with philology and his antagonism towards academia the book traces continuities and shifts across Pound's career culminating in a discussion of the centrality of language to the conception of his *Cantos* While it contains discussions around significant figures in twentieth century linguistic thought such as Ferdinand de Saussure and Ludwig Wittgenstein the book attempts to recover the work of theorists such as Leonard Bloomfield Lucien Lévy-Bruhl and C. K. Ogden figures who were once central to modernism but who have largely been pushed to the periphery of modernist studies The picture of Pound that emerges is a figure whose understanding of language is not only bound up with modernist approaches to anthropology politics and philosophy but which calls for a new understanding of modernism's relationship to each **A History of Twentieth-Century British Women's Poetry** Jane Dowson, Alice Entwistle, 2005-05-19 Publisher Description [Modernist Literature](#) Rachel Potter, 2012-04-02 Introduces students to a wide range of modernist writers and critical debates in modernism studies **Language and the Renewal of Society in Walt Whitman, Laura (Riding) Jackson, and Charles Olson** C. Billitteri, 2009-04-13 This book takes up the utopian desire for a perfect language of words that give direct expression to the real known in Western thought as Cratylistism and its impact on the social visions and poetic

projects of three of the most intellectually ambitious of American writers Walt Whitman Laura Riding Jackson and Charles Olson

Women, Modernism and British Poetry, 1910-1939 Jane Dowson, 2017-03-02 Primarily a literary history *Women Modernism and British Poetry 1910 1939* provides a timely discussion of individual women poets who have become or are becoming well known as their works are reprinted but about whom little has yet been written This volume recognizes the contributions overlooked previously of such British poets as Anna Wickham Nancy Cunard Edith Sitwell Mina Loy Charlotte Mew May Sinclair Vita Sackville West and Sylvia Townsend Warner and the impact of such American poets as H D Amy Lowell Edna St Vincent Millay Marianne Moore and Laura Riding on literary practice in Britain This book primarily maps the poetry scene in Britain but identifies the significance of the network of writers between London New York and Paris It assesses women's participation in the diversity of modernist developments which include avant garde experiments quiet but subtly challenging formalism and assertive new woman voices It not only chronicles women's poetry but also their publications and involvement in running presses bookshops and writing criticism Although historically situated it is written from the perspective of contemporary debates concerning the interface of gender and modernism The author argues that a cohering aesthetic of the poetry is a denial of femininity through various evasions of gendered identity such as masking male and female impersonations and the rupturing of realist modes
