Marschak,2012-12-06 The papers of Jacob Marschak which follow in these volumes are an extraordinary combination of original and fruitful departures in economic and social thought superb clarity of exposition and sensitivity to the values of earlier work and even competing traditions They make us marvel alike at their variety their quantity and their quality But they do not even so fully reflect Marschak s contributions to the development of social science He has had an unusual influence as one who exercises leadership In a formal organizational sense this role has been manifest in his capacity as Director of the Cowles Commission for Research in Economics then at the University of Chicago in that organization s most productive and influential period and later in his central role in the Western Management Science Institute at the University of California at Los Angeles I can speak from first hand knowledge about the first His special capacities are first the recognition of promising new concepts and of promising young scholars and second getting his colleagues to join him in developing the ideas and involving them fully in the necessary tasks There was an unusual combination of strength and humility in his methods a display of force in pushing the work along but a willingness almost an insistence on treating even the most junior associate as a fully equal colleague in intellectual develop ment whose criticism of himself was to be encouraged His leadership has been exercised in the absence of formal positions

Thoughtlessness and Decadence in Iran Alireza Shomali,2019-04-01 Bridges Western and non Western political thought to address the problem of democracy and political decadence in contemporary Iran and by implication similar Islamic societies Political decay in Islamic societies has for the most part been the subject of structural analyses while philosophical studies have been rare often speculative and deterministic Thoughtlessness and Decadence in Iran explores from a theoretical perspective the problem of democracy deficit or political decadence in contemporary Iran and by implication in present day Middle Eastern societies This decadence the book argues is in part a religion based decadence and deliverance from it requires collective thoughtfulness aboutreligion Alireza Shomali conceptualizes the Iranian Reality in terms of a lack of not only good life but

also thinking of good living This thoughtlessness means dissolution of critical consciousness and as such it heralds escalating decadence At this moment of rapid decay the book argues thought must become relevant to society the communicative practice of thinking must emerge to examine the pathologies of a religiously administrated life Opening a dialogue between Adorno Strauss Farabi and Razi among others Shomali underlines the critical points of similarity and difference between these thinkers and envisions a local emancipatory project that noting the specifics of the Iranian case takes lessons from the Western experience without blind imitation The book is global in its vision but also clearly local in its immersion in the philosophies values and culture of Iran and Iranian Islam This unique characteristic helps its prescription become local and simultaneously stay away from nativist third worldist and decolonialist discourses Abdolkarim Soroush author of The Expansion of Prophetic Experience **Love Or Greatness (Routledge Revivals)** Roslyn Wallach Bologh, 2009-12-15 This work first published in 1990 reissues the first thorough examination of the essentially masculine nature of Max Weber's social and political thinking Through a detailed examination of his central texts the author demonstrates Weber's masculine reading of social life and shows how his work advocates a masculine form of life that poses a challenge to contemporary women and to feminism In particular she addresses the patriarchal implications of Weber's belief in the need to relegate the ethic of brotherly love to a private sphere in order to make possible rational action and the achievement of greatness in the public sphere
