Rationality And Religious Belief:

Rationality, Religious Belief, and Moral Commitment Robert Audi, William J. Wainwright, 1986 This book is unified by three broad concerns the rationality of belief in God the relation between religion and morality and the explication of the concept of God The essays are however marked by diversity Some focus on historical figures such as Aquinas and Locke others bring recent epistemological and metaphysical developments to bear on problems of religious belief Some of the papers explore neglected issues central to religious practice such as the question of how total devotion to God can permit other deep commitments others apply philosophical distinctions from within a religious tradition for example in setting out a Christian approach to the problem of evil The Justification of Science and the Rationality of Religious Belief Michael C. Banner, 1990 In this critical examination of recent accounts of the nature of science and of its justification given by Kuhn Popper Lakatos Laudan and Newton Smith Banner contends that models of scientific rationality which are used in criticism of religious beliefs are in fact often inadequate as accounts of the nature of science He argues that a realist philosophy of science both reflects the character of science and scientific justifications and suggests that religious belief could be given a justification of the same sort *Rationality and Religious Belief* Cornelius F. Delaney, 1979 The original essays in this volume call into question the simplistic strategy of characterizing religion by some abstract set of propositions and then judging it by means of an independently determined standard of rationality **Rationality and Religious Theism** Joshua L. Golding, 2017-11-22 Throughout the ages one of the central topics in philosophy of religion has been the rationality of theistic belief This book proposes that parties on both sides of this debate might shift their attention in a different direction by focusing on the question of whether it is rational to be a religious theist Explaining that having theistic beliefs is primarily a cognitive affair but being a religious theist involves a whole way of life that includes one's beliefs Golding argues that it can be pragmatically rational to be a religious theist even if the evidence for God's existence is minimal The argument is applied to the case of Judaism articulating what is involved in religious Judaism and arguing that it is rationally defensible to be a religious Jew The book concludes with a discussion of whether a similar argument might be constructed for other versions of religious theism such as Christianity or Islam and for non theistic religions such as Taoism or Buddhism Joshua Golding offers a carefully wrought explanation of how it can be rational for someone to live a religious life in particular but not necessarily only a traditional Jewish life *Rationality and Religious Commitment* Robert Audi, 2011-09-22 Can it be rational to be religious Robert Audi gives a persuasive positive answer through an account of rationality and a rich nuanced understanding of what religious commitment means It is not just a matter of belief but of emotions and attitudes such as faith and hope of one's outlook on the world and of commitment to live in certain ways **New Developments in the Cognitive Science of Religion** Hans van Eyghen, 2018-07-14 It is widely thought that the cognitive science of religion CSR may have a bearing on the epistemic status of religious beliefs and on other topics in philosophy of religion Epistemologists have used theories from

CSR to argue both for and against the rationality of religious beliefs or they have claimed that CSR is neutral vis vis the epistemic status of religious belief However since CSR is a rapidly evolving discipline a great deal of earlier research on the topic has become dated Furthermore most of the debate on the epistemic consequences of CSR has not taken into account insights from the philosophy of science such as explanatory pluralism and explanatory levels This volume overcomes these deficiencies This volume brings together new philosophical reflection on CSR It examines the influence of CSR theories on the epistemic status of religious beliefs it discusses its impact on philosophy of religion and it offers new insights for CSR The book addresses the question of whether or not the plurality of theories in CSR makes epistemic conclusions about religious belief unwarranted It also explores the impact of CSR on other topics in philosophy of religion like the cognitive consequences of sin and naturalism Finally the book investigates what the main theories in CSR aim to explain and addresses the strengths and weaknesses of CSR

Sacrifice Regained Sarah Coakley, 2012-01-05 This inaugural lecture by Sarah Coakley delivered at the University of Cambridge on 13th October 2009 considers the striking cultural dominance in the latter part of the twentieth century of a violent and negative rendition of the notion of sacrifice Coakley asks whether it is a coincidence that at the same time philosophers of religion have tended to be in notable retreat from bold public claims about the rationality of Christian truth In contrast to this double trend and in riposte to the New Atheism of the secularists Coakley argues that the most recent deliveries from evolutionary biology augur a vision of sacrifice which is both rationally defensible and biologically grounded Evolutionary dynamics religious practice and hermeneutics and new arguments for the rationality of belief belong together and this nexus of themes demands the closest attention as the world confronts the profoundest ecological crisis it has yet known

The Justification of Science and the Rationality of Religious Belief Michael C. Banner, 1990 The author examines the nature of scientific theories and of religious belief and argues that religious belief can receive a defence as compelling as that given to the best scientific theories

The Justification of Science and the Rationality of Religious Belief Michael C. Banner, 1987

Rationality in Science, Religion, and Everyday Life Mikael Stenmark, 2016-09-15 Mikael Stenmark examines four models of rationality and argues for a discussion of rationality that takes into account the function and aim of such human practices as science and religion

The Rationality of Belief and the Plurality of Faith Thomas D. Senor, 2019-05-15 A veritable who's who in the field of contemporary philosophy of religion here considers various issues in the epistemology of religious beliefs The writings of William P Alston the leading figure in the revival of the Anglo American philosophy of religion provide the focus of these essays all but two previously unpublished Philosophers of religion meta physicalicians epistemologists and theologians will find in this volume some of the most important work available in the theory of knowledge and the epistemic status of religious belief

Religious Reason Ronald Michael Green, 1978 The purpose of this book is to call the separation of reason and religion into question

The Rationality of Belief in God George I. Mavrodes, 1970 Believe by W James Faith as passionate commitment by S Kierkegaard

God as projection by L A Feuerbach Bibliographical essay p 205 208 **Evidentialism and the Rationality of Religious Belief** Abbas Yazdani, 2010-12 Evidentialism has been one of the prominent epistemological approaches to the rationality of belief since the time of the Enlightenment It maintains that a belief ought to be based on sufficient evidence in order to be rationally acceptable Some evidentialist critics of theism contend that there is not sufficient evidence for belief in God to be rationally justified While the typical response from theists is to attempt to provide sufficient evidence to justify belief in God some philosophers of religion have attempted to undercut this debate by showing that belief in God is a properly basic belief requiring no further evidence or argument for it to be rationally justified The purpose of this book therefore is to examine the evidentialist challenge to the rationality of religious belief particularly belief in God then offer an internalist model of immediate knowledge of God through knowledge by presence This model is the best explanation of how an immediate knowledge of God can be justified epistemically and seems more effective epistemically than other approaches to the rationality of belief in God *The Rationality of Theism* Godehard Brüntrup, R.K. Tacelli, 2013-04-17 In May 1998 a distinguished group of philosophers met in Munich to discuss the rationality of theism This volume is a collection of the papers read at that conference While in recent years the rationality of theistic belief has been widely discussed the Munich conference was an event of some moment in the history of philosophical dialogue for the first time German and English speaking philosophers of religion representatives of both the Continental and the Anglo Saxon traditions joined together to grapple with a common philosophical theme This multiplicity of perspectives brought a unique richness to the analysis of rationality that no one tradition by itself could provide Readers will find that richness displayed in the pages of this book Professional philosophers will find here a great deal to stimulate and challenge them but graduate students capable undergraduates and all others with a serious interest in the philosophy of religion will be well rewarded for their efforts to come to grips with these thought provoking papers **Faith and Rationality** Alvin Plantinga, Nicholas Wolterstorff, 1983 A collection of essays by contemporary Calvinist philosophers of religion that examine the epistemology of religious belief between Reformed and Roman Catholic philosophers Rationality and Religion Roger Trigg, 1998-06-08 Rationality and Religion deals with the perennial question of how far religious faith needs reason *Faith, Rationality and the Passions* Sarah Coakley, 2012-07-20 Faith Rationality and the Passions presents a fresh and original examination of the relation of religious faith philosophical rationality and the passions Contributions see leading scholars refute the widely held belief that religious Enlightenment forced passion and reason apart Leading Philosophical experts offer new research on the relation of faith reason and the passions in classic and Enlightenment figures Overturns the widely held presumption that the Enlightenment was responsible for creating a gulf between reason and passion Presents original and innovative research on the importance of the late 19th century creation of the category of emotion and its striking difference from classic ideas of passion Brings together secular science and philosophy of emotion with philosophical theology to seek a new integration of
