*Rationality, Institutions and Economic Methodology* Bo Gustafsson, Christian Knudsen, Uskali M, 1993-06-17 First published in 1993 Routledge is an imprint of Taylor Francis an informa company      **Rationality, Institutions, and Economic Methodology** Uskali Mäki, Bo Gustafsson, Christian Knudsen, 1993 First published in 1993 Routledge is an imprint of Taylor Francis an informa company      Creative Social Research Ananta Kumar Giri, 2004-01-01 Calling for a reconceptualization and transformation of contemporary research methods in the social sciences Giri Madras Institute of Development Studies collects work by international scholars from a variety of disciplines and geographies to establish the ways in which contemporary global developments and the traditions of non Western societies      **Entrepreneurship: New Perspectives in a Global Age** Ann Dupuis, 2018-05-08 This title was first published in 2003 This book provides an innovative fresh approach to entrepreneurship It puts forward a flexible expansive conceptualization of the continuum of entrepreneurial behaviour and integrates context culture social networks and entrepreneurship as an embedded activity Motivated by a desire to bridge traditional academic boundaries the editors craft a heterodox perspective which interweaves strands from feminist and new institutional economics sociology management finance marketing and social policy Contemporary themes of major significance highlighted include the importance of new technology ethics culture and identity and entrepreneurship for indigenous younger and older people as distinct groups      Methodology and History of Economics Bruce Caldwell, John Davis, Uskali Mäki, Esther-Mirjam Sent, 2022-08-18 This edited volume provides an in depth exploration into the influential work of Wade Hands examining the changing relationship between methodology and the history of economics in connection with contemporary developments in economics The papers in this volume fall into four parts each devoted to an important theme in Wade Hands work The first part explores the influence and scope of Reflection without Rules capturing the rich debate that the book generated about what guides methodological and philosophical thinking in economics The second part examines Hands research on Paul Samuelson s economics and the methodological dimensions of Samuelson s thinking Part three looks to Hands long standing interest in the philosophical foundations of pragmatist thinking The final part addresses his more recent research in the methodological import of the emergence of behavioural economics Together the contributors show how Hands insights in complexity theory identity and stratification are key to understanding a reconfigured economic methodology They also reveal how his willingness to draw from multiple academic disciplines gives us a platform for interrogating mainstream economics and provides the basis for a humane yet scientific alternative This unique volume will be essential reading for advanced students and researchers across social economics history of economic thought economic methodology political economy and philosophy of social science      **Economic Foundations of Strategic Management** Mehmet Barca, 2017-10-24 This book explores the extent to which economic theory is able to provide the theoretical foundations of strategic management To this end it draws on the philosophy of science microeconomic theory and

different approaches to strategic management The work shows that many of the propositions of strategic management are deducible from the economic theories considered It argues that these propositions should be made open to empirical testing and that a unified theory of strategic management should be developed Thus the book addresses a current major concern of theorists that strategy remains atheoretical and that this reduces the predictive power of the subject and hampers further theory development The essential contribution made is that economic theory should be systematically explored in order to establish the foundations of business strategy

**Late Neoclassical Economics** Yahya M. Madra, 2016-06-10 Several contemporary economic theories revolve around different concepts market failures institutions transaction costs information asymmetries motivational diversity cognitive limitations strategic behaviors and evolutionary stability In recent years many economists have argued that the increase in circulation and mobilization of these new and heterogeneous concepts and their associated methodologies e g experiments evolutionary modelling simulations signify the death of neoclassical economics

**Late Neoclassical Economics The Restoration of Theoretical Humanism in Contemporary Economic Theory** draws on the work of Louis Althusser Michel Foucault and the Amherst School to construct the concept of a self transparent and self conscious human subject Homo economicus as the theoretical humanist core of the neoclassical tradition Instead of identifying the emergent heterogeneity as a break from neoclassicism this book offers a careful genealogy of many of the new concepts and approaches including evolutionary game theory experimental economics and behavioural economics and reads their elaboration as part of the restoration of the theoretical humanist core of the tradition Late neoclassical economics is therefore characterized as a collection of diverse approaches which have emerged in response to the drift towards structuralism This book is suitable for those who study political economy history of economic thought and philosophy of economics The arguments put forward in this text will also resonate with anyone who is interested in the fate of the neoclassical tradition and the future of economic theory

*Game Theory, Experience, Rationality* W. Leinfellner, Eckehart Köhler, 2013-06-29 When von Neumann's and Morgenstern's Theory of Games and Economic Behavior appeared in 1944 one thought that a complete theory of strategic social behavior had appeared out of nowhere However game theory has to this very day remained a fast growing assemblage of models which have gradually been united in a new social theory a theory that is far from being completed even after recent advances in game theory as evidenced by the work of the three Nobel Prize winners John F Nash John C Harsanyi and Reinhard Selten Two of them Harsanyi and Selten have contributed important articles to the present volume This book leaves no doubt that the game theoretical models are on the right track to becoming a respectable new theory just like the great theories of the twentieth century originated from formerly separate models which merged in the course of decades For social scientists the age of great discoveries is not over The recent advances of today's game theory surpass by far the results of traditional game theory For example modern game theory has a new empirical and social foundation namely societal experiences this has changed its methods its rationality Morgenstern I

worked together with him for four years dreamed of an encompassing theory of social behavior With the inclusion of the concept of evolution in mathematical form this dream will become true Perhaps the new foundation will even lead to a new name conflict theory instead of game theory      **Alternative Institutional Structures** Sandra Batie,Nicholas Mercurio,2008-06-16 This book is the outcome of a workshop at Michigan State University on the career of A Allan Schmid offering a collection of original essays that explore several approaches to understanding the impact of alternative legal economic institutions      **Industrial Economics** Glenys J. Ferguson,2016-01-03 This is a revised and updated edition of Paul Ferguson s successful textbook Industrial Economics has reached a crossroads in its development the established approach based on the neoclassical theory of the firm is being challenged by a variety of ideas and concepts Paramount among these are transactions costs public choice theory and the work of the Austrian School Industrial Economics integrates these new approaches alongside a critical exposition of traditional theory      **The Methodology of Positive Economics** Uskali Mäki,2009-05-28 A team of world renowned experts cast new light on Milton Friedman s 1953 essay The methodology of positive economics      **Economics and Reality** Tony Lawson,1997-01-02 No reality please We re economists There is a wide spread belief that modern economics is irrelevant to the understanding of the real world In a controversial and original study Tony Lawson argues that the root of this irrelevance is in the failure of economists to find methods and tools which are appropriate for the social world it addresses      **Foundations of Economic Method** Lawrence A. Boland,2003-04-17 Many consider Foundations of Economic Method to be Lawrence Boland s best work This updated edition is radically changed from the original and will be much appreciated by thinkers within economics The book positions methodology vis is the current practice of economists and is all the better for it Yet another book that not only deserves to be r      **Behavioral Economics and Smart Decision-Making** Ankal Ahluwalia,2025-01-03 The illustrations in this book are created by Team Educohack Behavioral Economics and Smart Decision Making explores the modern approach to economics emphasizing the impact of psychology and human behavior We delve into various theories within this field including Prospect Theory measurement principles and heuristics and biases Our book also discusses how behavioral management modernizes traditional management practices Designed to enhance understanding this book is an essential resource for anyone interested in the intersection of economics and psychology      **Modern Construction Economics** Gerard de Valence,2010-11-10 Modern construction economics has a wider focus than was previously the case with stronger links to mainstream economics reflecting increasing interest in a range of theoretical issues This book brings together the essential reviews of this trend and pushes towards the development of a comprehensive theoretical framework for construction economics      *From Marx to Markets* Geoffrey M. Hodgson,2025-03-12 In this revealing and eminently readable book Geoffrey M Hodgson takes readers on an intellectual odyssey through his distinguished career and his work as one of the leading institutional and evolutionary economists Depicting his life throughout the Cold War grappling with the military and economic rivalry of two different

systems to becoming an economist in the 1970s and his later venture into institutional and evolutionary economics **IBSS: Economics: 1993 Vol 42**, 1994 This bibliography lists the most important works published in economics in 1993 Renowned for its international coverage and rigorous selection procedures the IBSS provides researchers and librarians with the most comprehensive and scholarly bibliographic service available in the social sciences The IBSS is compiled by the British Library of Political and Economic Science at the London School of Economics one of the world's leading social science institutions Published annually the IBSS is available in four subject areas anthropology economics political science and sociology

**Economic Development and Islamic Finance** Zamir Iqbal, Abbas Mirakhor, 2013-08-05 Although Islamic finance is one of the fastest growing segments of emerging global financial markets its concepts are not fully exploited especially in the areas of economic development inclusion access to finance and public policy This volume is to improve understanding of the perspective of Islamic finance on economic development social and economic justice human welfare and economic growth

**The Handbook of Rational Choice Social Research** Rafael Wittek, Tom A.B. Snijders, Victor Nee, 2013-06-05 The Handbook of Rational Choice Social Research offers the first comprehensive overview of how the rational choice paradigm can inform empirical research within the social sciences This landmark collection highlights successful empirical applications across a broad array of disciplines including sociology political science economics history and psychology Taking on issues ranging from financial markets and terrorism to immigration race relations and emotions and a huge variety of other phenomena rational choice proves a useful tool for theory driven social research Each chapter uses a rational choice framework to elaborate on testable hypotheses and then apply this to empirical research including experimental research survey studies ethnographies and historical investigations Useful to students and scholars across the social sciences this handbook will reinvigorate discussions about the utility and versatility of the rational choice approach its key assumptions and tools *The New Institutional Economic History of Douglass C. North* Matthijs Krul, 2018-08-28 This book offers a comprehensive assessment of Douglass North's contribution to economics and the social sciences by examining the origins and structure of his New Institutional Economic History NIEH Informed by contemporary debates in the philosophy of economics Krul describes the evolution of North's theory from mainstream economics to an increasingly heterodox form of New Institutionalism He also examines what North's original aims were in developing the NIEH research programme and how well it has achieved these aims By exploring major themes in North's NIEH with an emphasis on the final stage of his theory Krul sheds new light on the strengths and weaknesses of North's work He also discusses the implications of this critical interpretation for the New Institutionalism in economics and other fields of social science
