**Details of Consequence** Gurminder Kaur Bhogal, 2013-09-11 Details of Consequence examines a trait that is taken for granted and rarely investigated in fin de siècle French music ornamental extravagance Considering why such composers as Claude Debussy Maurice Ravel Gabriel Fauré Igor Stravinsky and Erik Satie turned their attention to the seemingly innocuous and allegedly superficial phenomenon of ornament at pivotal moments of their careers this book shows that the range of decorative languages and unusual ways in which ornament is manifest in their works doesn't only suggest a willingness to decorate or render music beautiful Rather in keeping with the sorts of changes that decorative expression was undergoing in the work of Eugène Grasset Pierre Bonnard Henri Matisse and other painters composers also invested their creative energies in reimagining ornament relying on a variety of decorative techniques to emphasize what was new and unprecedented in their treatment of form meter rhythm melody and texture Furthermore abundant displays of ornament in their music served to privilege associations that had been previously condemned in Western philosophy such as femininity sensuality exoticism mystery and fantasy Alongside specific visual examples author Gurminder Kaur Bhogal offers analyses of piano pieces orchestral music chamber works and compositions written for the Ballets Russes to highlight the disorienting effect of musical experiments with ornament Acknowledging the willingness of listeners to borrow vocabulary from the visual arts when describing decorative music Bhogal probes the formation of art music metaphors and studies the cognitive impetus behind tendencies to posit stylistic parallels She further illustrates that the rising expressive status of ornament in music and art had broad social and cultural implications as evidenced by its widespread involvement in debates on French identity style aesthetics and progress Drawing on a range of recent scholarship in the humanities at large including studies in feminist theory nationalism and orientalism Details of Consequence is an intensely interdisciplinary look at an important facet of fin de siècle French music

The Pianist's Resource Guide Joseph Rezits,Gerald Deatsman,1978 **Noctuelles from "Miroirs" for Piano Solo** Maurice Ravel, *The Faure Song Cycles* Stephen Rumph,2020-09-29 Gabriel Faur s m lodies offer an inexhaustible variety of style and expression that have made them the foundation of the French art song repertoire During the second half of his long career Faur composed all but a handful of his songs within six carefully integrated cycles Faur moved systematically

through his poetic contemporaries exhausting Baudelaire's *Les fleurs du mal* before immersing himself in the Parnassian poets. He would set nine poems by Armand Silvestre in swift succession 1878-84, seventeen by Paul Verlaine 1887-94 and eighteen by Charles Van Lerberghe 1906-14. As an artist deeply engaged with some of the most important cultural issues of the period, Fauré reimagined his musical idiom with each new poet and school, and his song cycles show the same sensitivity to the poetic material. Far more than Debussy, Ravel or Poulenc, he crafted his song cycles as integrated works reordering poems freely and using narrative key schemes and even leitmotifs to unify the individual songs. The *Fauré Song Cycles* explores the peculiar vision behind each synthesis of music and verse, revealing the astonishing imagination and insight of Fauré's musical readings. This book offers not only close readings of Fauré's musical works but an interdisciplinary study of how he responded to the changing schools and aesthetic currents of French poetry.
