

Razón y ser de los tipos estructurales

Eduardo Torroja Miret

Textos Universitarios • 13

En 1957, Eduardo Torroja publica *Razón y ser de los tipos estructurales*, libro de difícil categorización en la literatura técnica sobre ingeniería estructural. No es un libro de texto sobre análisis estructural ni sobre el comportamiento de los materiales, aunque tiene un profundo carácter didáctico en estas materias. No es un libro solamente informativo sobre los tipos estructurales al uso y sus formas. Ni, aún menos, es un libro de investigación. En cualquier caso, el conjunto de reflexiones que un proyectista de estructuras espone como resultado de un proceso mental, tanto racional como irracional, o emocional, a la hora de plantearse un nuevo proyecto: del peso de experiencias y vivencias de una vida de trabajo en este campo. En él, Torroja no sólo habla de conceptos técnicos, también habla de sus preferencias estéticas, de las posibilidades formales de decoración a líneas y superficies, de la responsabilidad del proyectista y de su organización... Ingenieros, arquitectos, estudiantes o simplemente interesados por el diseño estructural, encontrarán en sus páginas ideas que capten su atención, y se sentirán atraídos por el estímulo de conceptos, imágenes, reflexiones y, en definitiva, de creaciones y sugerencias que en él se encuentran.

Razón y ser, como toda obra escrita, colocalizándose al libro, tuvo un rápido éxito. A su primera edición, editada por el entonces Instituto Técnico de la Construcción y del Cemento, siguió una segunda, en 1960, corrigiendo alguna errata de la primera —«introduciendo, sin quevedos, algunas nuevas»—, a la que Torroja añadió unos párrafos en el capítulo XII, relativos al uso de las mallas rasas en cubiertas, una técnica todavía poco utilizada en su época. No obstante, internacionalmente el libro siguió siendo rígido, viéndose la primera edición en italiano, alemán y japonés. La primera reimpresión del autor, en 1961, supuso que se modificasen algunas de las ediciones en EE.UU., Francia, Polonia y Yugoslavia. En España, cuando el Consejo Superior de Investigaciones Científicas concentró las publicaciones de todos sus Centros, su Departamento de Publicaciones, ante la demanda del libro, siguió realizando nuevas reimpresiones, todas ellas a partir de aquella segunda de 1960.

La presente tercera edición revisada, por el contrario, aunque basada íntegramente en la dos primeras, representa un nuevo esfuerzo editorial, modernizando su presentación y añadiendo algunas imágenes aclaratorias del texto. Representa, en definitiva, el esfuerzo por mantener vivo el pensamiento, vigente hoy día, por el Grupo constructor, de un gran ingeniero de su época.

José A. Torroja
