## **Rdp Policy Audit:**

Geography and Economy in South Africa and its Neighbours Christian M. Rogerson, 2017-05-15 The dismantling of the apartheid regime in South Africa caused massive transformation in both geographical and economic terms not only in this country but also in the region as a whole As the post apartheid government enters its second term this captivating volume assesses its progress in unravelling the geography of apartheid both in South Africa itself and in its relationships with other countries in Southern Africa and Africa It also considers the ways in which South Africa now that it is no longer a pariah state has begun to position itself within the current global economy Examining South Africa's land and agriculture mining and minerals manufacturing tourism corporate finance the labour market and transport the volume discusses the challenges of balancing growth and redistribution the extent and nature of progress change and relationships within the regional and global economy A compelling investigation into the economics of South Africa's neighbouring states in relation to their natural resources colonialism and inter relationships with themselves and with South Africa leads to a focus on the region as a whole and its relations with the global economy

Democratising Local Government, 2002 Local government is at the forefront of development In South Africa the ambitious policy objectives of post apartheid reconstruction and development hinge on the successful creation of a democratic tier of government close to the people An entirely new system of developmental local government has thus been introduced As is the case in many developing countries the responsibilities of municipalities in South Africa have been extended dramatically often without adequate resources Managing municipalities for development therefore requires political will and strategic intervention The book provides a comprehensive introduction to developmental local government It includes the design of the new local government system and the issues posed by decentralisation an overview of specific challenges of urban and rural municipalities a discussion of special issues facing local government including poverty gender and environment new tools for local government including budgeting indicators municipal partnerships and capacity building

*The Crisis of South African Foreign Policy* Matthew Graham, 2015-09-28 The emergence of a new democratic South Africa under Nelson Mandela was regarded as a high watermark for international ideals of human rights and democracy Much was expected of the ANC in power particularly that it would be able to translate its ideals into a coherent foreign policy for the African continent Yet its foreign policy since 1994 has been mired in accusations of incoherence contradiction and failure Here based on extensive archival research and interviews Matthew Graham offers new ways of interpreting South Africa's foreign policy by investigating the continuities and discontinuities of the ANC's international relations from exile to political power Charting the political intrigues during the country's transition from apartheid and the subsequent influences on Presidents Mandela and Mbeki *The Crisis of South African Foreign Policy* makes a vital contribution to our understanding of why post apartheid South Africa has failed to lead Africa on the world stage

**Globalization, the Third World State and Poverty-Alleviation in the Twenty-First Century** B. Ikubolajeh

Logan,2017-11-22 This title was first published in 2002 Bringing together an inspiring mix of US and African contributors this book explores the dynamics of the unfolding globalized economic political socio cultural and environmental systems Featuring incisive international commentary on the causes and consequences of poverty in the Third World it presents a powerful study of the strategies by which Third World governments and civil society can overcome poverty by insinuating themselves more creatively into the global order The result is one of the defining works so far produced on the tensions between globalization and development

**Governance in the New South Africa** Guy C. Z. Mhone,Omano Edigheji,2003 The major challenges confronting South Africa since the advent of non racial multiparty democracy have been the need to promote democratic governance economic growth global competitiveness and to improve the standard of living of its people especially the previously disadvantaged majority Black population These challenges have coincided with the ascendancy of globalisation with its attendant social economic and political imperatives all of which have consequences for governance and development at the national level not least in emerging economies like South Africa This important book assesses the implications of global imperatives for the nature capacity character and scope of democratic governance and the pursuit of equitable development in the new South Africa A major conclusion is that the implementation of domestic economic reforms predicated on market fundamentalism with its dominant logic and paradigm of globalisation and economic management is incompatible and irreconcilable with the quest for democratic governance and equitable development The contributors contend that such an approach reproduces a substantively undemocratic and inequitable society Governance in the New South Africa concludes by offering some considerations related to how substantive democracy and equitable development may be promoted in South Africa on the basis of democratic governance and developmentalism

**Against Global Apartheid** Patrick Bond,2003 In Against Global Apartheid Patrick Bond reveals the extent of the economic and human damage caused by policies implemented by World Bank and the IMF in developing countries particularly South Africa and argues that there is another way to more socially just economic development

South Africa-- the Present as History John S. Saul,Patrick Bond,2014 A new history of South Africa that examines today's post apartheid society through the lens of its earlier history

Understanding Policy Implementation C. K. Kabemba,Tobias Schmitz,1999

**The African State and the AIDS Crisis** Amy S. Patterson,2018-01-18 This edited volume analyzes African state responses to the AIDS epidemic Institutionally weak limited in resources and lacking power in the international system the African state has been characterized as inefficient corrupt and illegitimate The volume questions how aspects of the African state have affected policy responses to AIDS It highlights how African states must initiate develop and or implement the long term policy solutions necessary to combat AIDS It employs empirical studies from the international and national arena to illustrate why some African states have been able and willing to address AIDS while others have not Contributions analyze how international actors civil society organizations state ideology patriarchy and state capacity have influenced policies to fight

AIDS Examining AIDS policies through the prism of African state development and linkages to domestic and international actors this book provides a nuanced understanding of the variety of responses to AIDS in Africa *Democracy and Governance Review* Yvonne G. Muthien, Meshack M. Khosa, Bernard Magubane, 2000 Authoritarian regimes of various sorts have crumbled worldwide to give way to liberal constitutional democracies Prerequisites for the consolidation of the new democracies are regular free and fair elections granting political parties legitimate authority and citizens protection by the rule of law

**Progressive Library Organizations** Alfred Kagan, 2015-04-09 This work presents the history and impact of the seven most important progressive library organizations worldwide in Austria Germany South Africa Sweden United Kingdom and two in the United States Each organization is considered within its national context and in fact the English word organization does not quite fit the nature of all of the groups The South African organization LIWO was transitional in that it helped bring South African librarianship from apartheid to majority rule and then disbanded The other organizations or their successors are still working in one form or another Some of the organizations have had or continue to have vibrant local chapters though many of the original activists have recently retired or died The author has interviewed many of them at a time when they were assessing their life work and handing off to new generations

**Public Problems - Private Solutions?** Simon Raiser, 2017-11-30 Cities and city regions are undergoing rapid transformation They are prime locations of innovation while at the same time facing growing problems of spatial fragmentation and social exclusion By addressing these problems cities become forerunners for new patterns of governance which include increasingly private actors While research on global cities has focused primarily on the world's leading financial and economic centres comparative research on the changing role of large complex cities in the developing world is less advanced But it is here where public problems are most seriously threatening the cohesion of urban society and where the need for new answers is most urgent Illustrated by in depth examinations of four city regions Shanghai Mumbai Johannesburg and S o Paulo this book readdresses this balance The book revisits the same set of cities from different angles thereby reflecting urban contradictions juxtapositions and disjunctures

*Empowerment Through Economic Transformation* Meshack M. Khosa, 2001 This the third title in a trilogy studying transformation in post apartheid South Africa follows on two studies published in 2000 Infrastructure mandates for change and empowerment through service delivery

**Atlas of Changing South Africa** A.J. Christopher, 2002-01-04 The new edition of the atlas first published as The Atlas of Apartheid presents a comprehensive introduction and detailed analysis of the spatial impact of apartheid in South Africa It covers the period of the National Party Government of 1948 to 1994 and emphasises the changes and the continuing legacy this presents to South Africans at the start of the 21st century The Atlas makes the unique contribution of presenting the policy and its impact in visual spatial forms by including over 70 maps a highly appropriate method considering that apartheid was about the control of space and specific places

*The Three Worlds of Social Democracy* Ingo Schmidt, 2016-08-20 Social democracy is clearly at a dead end but is it actually dead The

Three Worlds of Social Democracy explores the historical and theoretical path of the social democratic parties from their inception to the present day through a series of essays by high profile experts in the field Looking at the international picture the book highlights the movement's spread to the postcolonial and post communist countries of the Global East and South such as Eastern Europe Latin America India and South Africa at the time it was considered past its prime in the West a shift which is often ignored by mainstream analyses However the authors are not optimistic about its future despite the rise of popular parties such as Greece's Syriza a combination of international economic stagnation combined with an overall weakening of popular left wing movements and a terrifying rise of extreme rightist parties paints a gloomy picture for the future of social democracy This is one of the first truly global explorations of the methods meanings and limits of social democracy This book will be of lasting value to students of politics and will further the ongoing debate about the future of social democratic politics across the modern world

**Elite Transition** Patrick Bond, 2014-09-20 Released to coincide with the 20th anniversary of the end of apartheid this is an updated edition of a best selling work of political analysis Patrick Bond a former adviser to the ANC investigates how groups such as the ANC went from being a force of liberation to a vehicle now perceived as serving the economic interests of an elite few This edition includes new analysis looking at the 2008 internal coup against Thabo Mbeki the subsequent economic crisis and the massacre of miners at Marikana in 2012 Bond also assesses the historiography of the transition written since 2000 from nationalist liberal and radical perspectives and replies to critics of his work both from liberal and nationalist perspectives This is an essential text on post Apartheid South Africa which will be vital reading for all who study or have an interest in this part of the continent and in social change and neoliberal public policy more generally

**The Politics of Solidarity** Carmen Ludwig, 2020-04-08 Politische Transformation und dann 25 Jahre nach dem Ende der Apartheid sieht sich die s dafrikanische Gesellschaft nach wie vor mit drastischen Ungleichheiten konfrontiert Carmen Ludwig nimmt den Wandel ffentlicher Dienstleistungen im Post Apartheid S dafrika und die Auswirkungen der kommunalen Privatisierungen in den Blick Sie zeigt anhand dreier Gro st dte politische Konfliktlinien und lokale Gewerkschaftsstrategien im Spannungsfeld von in und exklusiver Solidarit t auf Zudem stellt sie die Frage wie es Gewerkschaften gelingen kann Solidarit t in fragmentierten Belegschaften herzustellen

**Neoliberalism, Civil Society and Security in Africa** P. Carmody, 2007-10-17 Free market policies have been in operation across Africa for the past 25 years yet they have failed to reverse deepening poverty This book explores with case studies why such policies continue to be implemented and the ways in which they have been reinvented by socialization depoliticization regionalization and securitization
