**Amerindian Images and the Legacy of Columbus**, 1992 Natural Designs Elizabeth Gansen, 2023-11-14 Natural Designs chronicles the life and work of the earliest and most influential Spanish historian of the New World Gonzalo Fernandez de Oviedo 1478 1557 Through a combination of biography and visual and textual analysis Elizabeth Gansen explores how Oviedo in his writings brought the European Renaissance to bear on his understanding of New World nature Oviedo learned much from the humanists with whom he came into contact in the courtly circles of Spain and Italy including Giovanni Battista Ramusio and Pietro Bembo and witnessed Christopher Columbus regaling Queen Isabel and King Ferdinand with news from his inaugural voyage to the Indies Fascinated by the Caribbean flora and fauna Oviedo encountered on his arrival to the Caribbean in 1514 he made them the protagonists of his writings on the Indies From his consumption of the prickly pear cactus which led him to believe his death was imminent to the behavior of the iguana which defied his efforts to determine if the lizard was fish or flesh his works reveal the challenges at the heart of Spain's encounter with the biological wonders of the Americas Natural Designs foregrounds Oviedo's role as a writer illustrator and editor of New World nature As much as Oviedo is credited as a pioneer in the literary genre of American natural history his contributions to early modern conceptions of the flora and fauna of the Indies are still not widely understood and appreciated Gansen situates us in the early sixteenth century to reappraise the works of the Spanish historian who first shaped these realities *Reading Columbus* Margarita Zamora, 2023-04-28 Christopher Columbus authored over a hundred documents many of them letters giving testimony on the Discovery to Isabela and Ferdinand In this first book in English to focus specifically on these writings Margarita Zamora offers an original analysis of their textual problems and ideological implications Her comprehensive study takes into account the newly discovered Libro Copiador which includes previously unknown letters from Columbus to the Crown Zamora examines those aspects of the texts that have caused the most anxiety and disagreement among scholars questions concerning Columbus's destination the authenticity and authority of the texts attributed to him Las Casas's editorial role and Columbus's views on the Indians In doing so she opens up the vast cultural context of the Discovery Exploring the ways in which the first images of America as seen through European eyes both represented and helped shape the Discovery she maps the inception and growth of a discourse that was to dominate the colonizing of the New World This

title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1993 Christopher Columbus authored over a hundred documents many of them letters giving testimony on the Discovery to Isabela and Ferdinand In this first book in English to focus specifically on these writings Margarita Zamora offers an original analysis of **Decolonizing Indigeneity** Thomas Ward, 2016-12-20 While there are differences between cultures in different places and times colonial representations of indigenous peoples generally suggest they are not capable of literature nor are they worthy of being represented as nations Colonial representations of indigenous people continue on into the independence era and can still be detected in our time The thesis of this book is that there are various ways to decolonize the representation of Amerindian peoples Each chapter has its own decolonial thesis which it then resolves Chapter 1 proves that there is coloniality in contemporary scholarship and argues that word choices can be improved to decolonize the way we describe the first Americans Chapter 2 argues that literature in Latin American begins before 1492 and shows the long arc of Mayan expression taking the Popol Wuj as a case study Chapter 3 demonstrates how colonialist discourse is reinforced by a dualist rhetorical ploy of ignorance and arrogance in a Renaissance historical chronicle Agustin de Zate's Historia del descubrimiento y conquista del Per Chapter 4 shows how by inverting the Renaissance dualist configuration of civilization and barbarian the Nahua Aztecs who were formerly considered barbarian can be civilized within Spanish norms This is done by modeling the categories of civilization discussed at length by the Friar Bartolom de las Casas as a template that can serve to evaluate Nahua civil society as encapsulated by the historiography of Fernando de Alva Ixtlilxochitl a possibility that would have been available to Spaniards during that time Chapter 5 maintains that the colonialities of the pre Independence era survive but that Criollo indigenous dialogue is capable of excavating their roots to extirpate them By comparing the discussions of the hacienda system by the Peruvian essayist Manuel Gonz lez Prada and by the Mayan Quich eye witness to history Rigoberta Mench this book shows that there is common ground between their viewpoints despite the different genres in which their work appears and despite the different countries and the eight decades that separated them suggesting a universality to the problem of the hacienda which can be dissected This book models five different decolonizing methods to extricate from the continuities of coloniality both indigenous writing and the representation of indigenous peoples by learned elites *"Rubens, Vel?uez, and the King of Spain "* Larry Silver, 2017-07-05 This study provides a new analysis of the pictorial ensemble of the Torre de la Parada the hunting lodge of King Philip IV of Spain Created in the late 1630s by a group of artists led by Peter Paul Rubens this cycle of mythological imagery and hunting scenes was completed by Diego Vel uez Despite the lack of a written program surviving works provide eloquent testimony of several basic themes that embody Neostoic ideals of self restraint and prudent governance While Rubens set the moral tone

through his serio comic Ovidian narratives Vel uez added an important grace note with his portraits of ancient philosophers and royals and fools of the court This study is the first to consider in depth their joint artistic contributions and shared ambition Through analysis of individual works the authors situate these pictorial inventions within broader intellectual currents in both Spanish Flanders and Spain especially in the advice literature and drama presented to the Spanish king Moreover they point to the lasting resonance of Torre de la Parada for Vel uez especially within his late masterworks Las Meninas and Las Hilanderas Ultimately this study illuminates the dialogical nature of this ensemble in which Rubens and Vel uez offer a set of complementary views on subjects ranging from the nature of classical gods to the role of art as a mirror of the prince
