Antifeminism in cultural context To give today's readers an understanding of the social and political forces that actively fought against any changes in women's status in the United States the editors selected these original examples from the writings of the time that appeared in popular books and magazines Opponents of women's equality frequently voiced their opinions about 19th century issues of women's suffrage dress reform self expression independence and other topics that touched upon the perceived roles and duties of women Such public diatribes continued into the 10th century as determined antifeminists argued against increased opportunities for women in employment and education denied the propriety of family planning and admonished against women's involvement in politics Arguments based on ridicule natural law and false claims Some opponents merely dismissed or ridiculed calls for changes in women's status without specifying particular flaws in the feminist position Others cited divine ordination applied to natural law and fanned public fears of familial and social disintegration Frequently these critics resorted to charges of presumed lesbianism communism and socialism against advocates of women's rights and against the movement itself This adamant opposition to equality for women was a manifestation of common apprehension about ongoing social economic and political changes beyond antifeminist control Antifeminists in their own words Today few people have even an inkling of the vehemence theatrical posturing and convoluted reasoning of the antifeminist forces This varied selection of original sources puts an illuminating spotlight on the arguments presented by opponents of women's equality that is drawn from an extensive body of writings ranging from the elegant pronouncements of a popular politician to sincere endorsements of the status quo by female apologists for those opposed to the women's movement to purveyors of low satire in the popular press For modern readers this collection provides the opportunity to encounter directly the reasoning opinions and perceptions of those that resisted and criticized the goals and achievements of feminism A valuable resource for many disciplines A particularly valuable feature of this set is its wealth of primary source material from the 19th and early 20th centuries including material from books and newspapers Very few libraries have collected these sources and chances are no single collection has them all These volumes are of great interest to women's studies women's history gender studies cultural studies as well as history political science sociology and literature Many of the examples of antifeminist writing found in the set can enrich classroom discussions and assignments that involve communication writing and rhetoric Available individually by volume 1 Opposition to the Women's Movement in the United States 1848 1929 0 8153 2713 7 400 pages 2 Redefining the New Woman 1920 1963 0 8153 2714 5 344 pages 3 Reaction to the Modern Women's Movement 1963 to the Present 0 8153 2715 3 352 pages

mainstream opposition to the feminist movement refused to die as exemplified in commentaries by industrialist Henry Ford renowned literary figures D H Lawrence and Norman Mailer and even presidential candidate Adlai Stevenson all represented in this volume The other selections first focus on sources published during the interwar years and indicate that the legacy of progressive social feminism exacerbated reactionary attitudes toward women in the context of postwar political fundamentalism the Great Depression and the New Deal The second part contains literature that appeared between 1941 and 1963 and reflects the ambivalence and backlash toward wives and mothers in the workforce and the public sphere driven by the social political and economic conservatism of the Cold War Era

**Reaction and Resistance**

Dorothy E. Chunn, Susan Boyd, Hester Lessard, 2011-11-01 The image of backlash is pervasive in contemporary debates about the impact of second wave feminism on law and policy But does it really explain the resistance to feminist initiatives for social change in contemporary culture In this timely volume contributors from various disciplines analyze reaction and resistance to feminism in several areas of law and policy child custody child poverty sexual harassment and sexual assault and in a number of institutional sites such as courts legislatures families the mainstream media and the academy Collectively their studies paint a more complicated often contradictory picture of feminism law and social change than the popular image of backlash suggests Reaction and Resistance offers feminists and other activists empirically grounded knowledge that can be used to develop legal and political strategies for change     The Eternal Decline and Fall of Rome Edward J. Watts, 2021 The Eternal Decline and Fall of Rome tells the story of 2200 years of the use and misuse of the idea of Roman decline by ambitious politicians authors and autocrats as well as the people scapegoated and victimized in the name of Roman renewal It focuses on the long history of a way of describing change that might seem innocuous but which has cost countless people their lives liberty or property across two millennia     A Church in Crisis: Pathways Forward Ralph Martin, 2020-10-01 Nearly forty years ago Ralph Martin's bestselling A Crisis of Truth exposed the damaging trends in Catholic teaching and preaching that combined with attacks from secular society threatened the mission and life of the Catholic Church While much has been done to counter false teaching over the last four decades today the Church faces even more insidious threats from outside and within In A Church in Crisis Pathways Forward Martin offers a detailed look at the growing hostility to the Catholic Church and its teaching With copious evidence Martin uncovers the forces working to undermine the Body of Christ and offers hope to those looking for clarity A Church in Crisis covers polarization in the Church caused by ambiguous teachings initiatives that accommodate the culture without calling for conversion Vatican sponsored partnerships with organizations that actively contradict the teaching of the Catholic Church and the recycling of theological errors long settled by Vatican II Pope St John Paul II and Pope Benedict XVI Powerfully written A Church in Crisis reminds all readers to heed Jesus' express command not to lead His children astray With ample resources to encourage readers Ralph Martin provides the solid foundation of Catholic teaching both Scripture and Tradition to fortify Catholics against the errors that threaten us from all directions     **Changing Abortion Laws in Mexico Through Advocacy and Human Rights** Clara Eugenia Franco Yáñez, 2025-03-07 Changing Abortion Laws in Mexico Through Advocacy and Human Rights presents the recent evolution of abortion laws in Mexico 2007 2021 and how advocates have shaped them through human rights discourses challenging social norms Utilizing extended expert interviews it offers a uniquely deep dive into the mapping of Mexico's recent legal landscape concerning abortion addressing an issue of concern for contemporary feminist movements By thoroughly analyzing this debate as it happened on the ground in Mexico the author examines how activists for and against legal abortion have shaped norms and laws analyzing their proposals for legal and public policy reforms The book maps out

this sociopolitical and legal landscape throughout the past decade beginning with abortion legalization in Mexico City in 2007 throughout the political backlash that ensued in other subnational states and culminating with the Supreme Court's decision in 2021 to decriminalize abortion. The Mexican case is explored through a dual lens: firstly by zooming in to Mexico as a country case where federalism makes for a complex and fascinating legal landscape and secondly by zooming out to networks of transnational advocates and their linkages to global norms and institutions. The concluding considerations provide closing reflections on the abortion in Mexico story and the ways in which advocates on this and other issue areas might find ways to advance ideas normative concepts find common ground with ideological opponents and implement successful policy change. This book will be of great interest to students and scholars of Politics and International Relations International Law Feminist Studies and Latin American Studies

**The Political Life of Bella Abzug, 1976-1998** Alan H. Levy, 2013-12-05 The Political Life of Bella Abzug 1976-1998 is the second part of the first full biography of Bella Abzug. Alan H. Levy explores the political life of one of the most important women in politics in mid and late twentieth century America. This second part takes up Abzug's life from the point in 1976 when she narrowly lost her bid for the New York Democratic Party's nomination for the U S Senate. The biography follows her subsequent failed effort to win the Democratic Party's nomination for Mayor of New York City in 1977, her leading a controversial National Women's Convention in Houston in late 1977, her failed attempt to return to the U S Congress in 1978 and her conflicts with President Jimmy Carter and his administration. The biography then traces the

efforts in which Abzug was engaged to regain political prominence and her work on behalf of women at both national and international levels Through the events in Abzug s life Levy explores tensions that surrounded the contrasts between political principles which idealized a world in which gender posed no barriers to any human effort and political views which sought to extol and develop notions of gender and of ideas about its special meanings in human affairs and politics
