America's traumatic history of war The nation has no direct access to war as a horrific experience of carnage and human destruction we understand our relation to it through images and narratives that transmit and interpret it for us Bronfen does not discuss actual conflicts but the films by which we have come to know and remember them including All Quiet on the Western Front The Best Years of Our Lives Miracle at St Anna The Deer Hunter and Flags of Our Fathers Battles and campaigns the home front and women who wait narratives war correspondents and court martials are also explored as instruments of cultural memory Bronfen argues that we are haunted by past wars and by cinematic reconceptualizations of them and reveals a national iconography of redemptive violence from which we seem unable to escape Chronicles of the Cross Collection Max Lucado,2010-09-08 This volume includes three of Max Lucado's best loved works No Wonder They Call Him the Savior Six Hours One Friday and And the Angels Were Silent In No Wonder They Call Him the Savior best selling author Max Lucado invites readers to meet the blue collar Jew whose claim altered a world and whose promise has never been equaled Readers will come to know Jesus the Christ in a brand new way as Lucado brings them full circle to the foot of the cross and the man who sacrificed His life on it Then in Six Hours One Friday readers learn that they don't have to weather life's storms alone but that God promises to be with them no matter what they are facing He does this because of what happened in only six hours one Friday so many years ago Finally come face to face with the Savior during His final week on earth and learn about the loving purpose and deliberate intent that went into His every action His every word in And the Angels Were Silent **Reading the Dream** Peter Dale Scott,2024-01-16 In Reading the Dream the poet and scholar Peter Dale Scott has composed a poem in prose for our time This is a work of art emerging from a passionate social vision Scott examines our present state of post secularity through the imagination of the past Using devices such as the rational and nonrational or the yin and the yang Scott focuses not just on the reasoned current of written history but also on myths beliefs and even dreams The author searches for moreness throughout the culture of the past He reawakens the ultimate human quest for transcendence of ourselves to repair a political order in ruins This book seeks to transcend the slow breakdown of our current global political order by returning to its generative cultural roots in enlightenment that is both secular and spiritual enlightenment It sees our emerging global culture as dialectical on interconnected levels the tension between scientific yang analysis and non rational yin hopes and dreams the source of this tension in the bicameral human brain in competing rural and urban ethical values and in the master servant relationship Behind the screen history of chaotic political violence it revives a vision of cultural progress in which the vertical imposition of political order from above is slowly supplanted by the emerging post secular tolerance of cultural diversity including both religion and science from below *The Inner Principal* David Loader,2002-11 This is an account of how a principal combines the rational and emotional components of leadership to lead the transformation of a school The book assumes that schools can transform themselves but only when those involved in schools develop *Dare dream different* Jacob Tharakan Chacko,2023-10-16 The village midwife declares the baby dead on
